

# ORDINANCE/RESOLUTION REQUEST

Please email requests to the Mayor's Legislative Team

at [MileHighOrdinance@DenverGov.org](mailto: MileHighOrdinance@DenverGov.org) by 9 a.m. Friday. Contact the Mayor's Legislative team with questions

Date of Request: **03.17.2026**

Please mark one:  Bill Request or  Resolution Request

Please mark one: The request directly impacts developments, projects, contracts, resolutions, or bills that involve property and impact within .5 miles of the South Platte River from Denver's northern to southern boundary? (Check map [HERE](#))

Yes  No

## 1. Type of Request:

- Contract/Grant Agreement  Intergovernmental Agreement (IGA)  Rezoning/Text Amendment  
 Dedication/Vacation  Appropriation/Supplemental  DRMC Change  
 Other:

## 2. Title: (Start with *approves*, *amends*, *dedicates*, etc., include name of company or contractor and indicate the type of request: grant acceptance, contract execution, contract amendment, municipal code change, supplemental request, etc.)

Approves a contract with Inliner Solutions, LLC. for \$4,866,681.50 for a term of NTP + 365 Days for the 2025 WMD Pipe and Manhole Rehabilitation Phase 3 that will rehabilitate deteriorating sanitary and storm pipes and manholes using trenchless methods. This project is part of the capital maintenance sub-program in the current 2022-2027 Six-Year Water Plan, citywide (DOTI-202582818).

## 3. Requesting Agency: DOTI Transportation and Infrastructure

## 5. General description or background of proposed request. Attach executive summary if more space needed:

Approves a contract with Inliner Solutions, LLC. Contract Capacity: \$4,866,681.50. Contract Term: NTP + 365 Days. This 2025 WMD Pipe and Manhole Rehabilitation Phase 3 will rehabilitate deteriorating sanitary and storm pipes and manholes using trenchless methods. This project is part of the capital maintenance sub-program in the current 2022-2027 Six-Year Water Plan. Project Location: Citywide. DOTI-202582818.

The purpose of this project is to rehabilitate deteriorating sanitary and storm pipes and manholes using trenchless methods. The manholes will be rehabilitated using approved lining methods and materials specified in accordance with the manhole rehabilitation specifications. The pipes will be rehabilitated using Cured-In-Place Pipe (CIPP). CIPP is a trenchless rehabilitation method used to extend the service life of deteriorated pipelines without full replacement. Rather than excavating and removing the old pipe, CIPP installs a resin-saturated liner inside the existing host pipe which cures in place to form a new, jointless, structurally sound pipe. Minor excavation may be required to install temporary bypass. Where above-ground piping is not feasible, small trenches (approximately 1 ft x 1 ft to 2 ft x 2 ft) may be excavated. For rehabilitation of pipes larger than 30 inches in diameter, the manhole cone may need to be removed for liner installation. No new infrastructure will be built with this project and therefore no fill or significant disturbance will impact existing infrastructure or its surroundings. There will be no changes to Base Flood Elevations. This project is part of the capital maintenance sub-program in the current 2022-2027 Six-Year Water Plan.

## 6. City Attorney assigned to this request (if applicable): Not yet assigned

## 7. City Council District: Citywide
