RE: Application, Request to Rezone 1409-71 Julian Street & 3317 West 14th Avenue from G-RH-3 to G-MU-5

Dear Community Planning & Development:

This firm represents GAO Homes Partners RLLLP, the property owner, and it's authorized agent, Endcap Holdings LLC, and the corresponding properties, 1409-71 N. Julian St. & 3317 W. 14th Ave (the "Parcels"), regarding the attached application for a zoning map amendment ("rezoning"). Based on the criteria for review in the Denver Zoning Code, we recommend that staff recommend approval to the Planning Board and City Council.

The actual property affected by this rezone consists of 2 separate and detached parcels of land shown in the below Figure1. Please see this application's comprehensive record of community outreach, as provided in Exhibit D, for further information.

The Parcels currently contain nineteen (19) residential housing apartment units that were originally constructed in 1968 and the site is underutilized given its land area. The current residents receive rental subsidy under a Project Based Section 8 Housing Assistance Payment Contract with HUD. Because these housing improvements are now functionally obsolete, and because of the extremely high annual operating cost per unit, HUD has given preliminary review approval to a re-deployment of the HAP Contract Subsidy to a new construction project at 1465-1497 Knox Court, the site of which received a rezoning approval this past June. All existing residents will be relocated to the new Knox Court project, all at the cost of the new project development.

Exhibit B

Description of Consistency with Adopted City Plans/General Review Criteria (DZC 12.4.10.7.)

The criteria for review of this rezoning application are found in DZC Section 12.4.10.7 and 12.4.10.8:

DZC Section 12.4.10.7

1. Consistency with Adopted Plans
2. Uniformity of District Regulations and Restrictions
3. Public Health, Safety and General Welfare

DZC Section 12.4.10.8 4

4. Justifying Circumstances
5. Consistency with Neighborhood Context Description, Zone District Purpose, and Intent Statements.

1. Consistency with Adopted Plans

The following adopted plans currently apply to this property:

- Denver Comprehensive Plan 2040 (2019)
- Blueprint Denver (2019)
- West Area Plan (2023)

Denver Comprehensive Plan 2040

The proposed rezoning is consistent with many of the adopted Denver Comprehensive Plan 2040 strategies, which are organized by vision element.

The proposed rezoning would allow for additional housing units within an established neighborhood, consistent with the following strategies in the Equitable, Affordable, and Inclusive vision element:

- Equitable, Affordable and Inclusive Goal 2, Strategy A - Create a greater mix of housing options in every neighborhood for all individuals and families (p. 28).
- Equitable, Affordable and Inclusive Goal 1, Strategy A - Increase development of housing units close to transit and mixed-use developments (p. 28).
- Equitable, Affordable and Inclusive Goal 3, Strategy B - Use land use regulations to enable and encourage the private development of affordable, missing middle and mixed-income housing, especially where close to transit (p. 28).

The proposed rezoning would enable mixed-use infill development at a location where services, infrastructure, and transit options are already in place. The proposed G-MU-5 zoning designation would allow for a broader variety of residential uses, at an intensity consistent with the desire for urban, walkable, mixed-use neighborhoods around

transit, and is therefore consistent with the following strategies in the Strong and Authentic Neighborhoods vision element:

- Strong and Authentic Neighborhoods Goal 1, Strategy B - Ensure neighborhoods offer a mix of housing types and services for a diverse population (p. 34).
- Strong and Authentic Neighborhoods Goal 1, Strategy D - Encourage quality infill development that is consistent with the surrounding neighborhoods and offers opportunities for increased amenities (p. 34).
- Strong and Authentic Neighborhoods Goal 2, Strategy D - Use urban design to contribute to economic viability, public health, safety, environmental well-being, neighborhood culture and quality of life (p. 34).

The proposed rezoning is also consistent with the following strategies in the Environmentally Resilient vision element:

- Environmentally Resilient Goal 8, Strategy A - Promote infill development where infrastructure and services are already in place (p. 54).
- Environmentally Resilient Goal 8, Strategy B - Encourage mixed-use communities where residents can live, work, and play in their own neighborhoods (p. 54).
- Environmentally Resilient Goal 8, Strategy C - Focus growth by transit stations and along high and medium-capacity transit corridors (p. 54).

The requested map amendment will enable mixed-use development at an infill location where infrastructure is already in place. The requested zone district broadens the variety of uses allowing residents to live, work and play in the area; therefore, the rezoning is consistent with Denver Comprehensive Plan 2040 recommendations.

Blueprint Denver (2019)

Blueprint Denver was adopted in 2019 as a supplement to Comprehensive Plan 2040 and establishes an integrated framework for the city’s land use and transportation decisions. Blueprint Denver identifies the subject property as part of a General Urban future place type within the High-Urban Context and provides guidance from the future growth strategy for the city.

Blueprint Denver Future Neighborhood Context

In Blueprint Denver, future neighborhood contexts are used to help understand differences in land use and built form and mobility options at a higher scale, between neighborhoods. The subject property is within the General Urban context in which homes vary and include “multi-unit complexes...and offer residents a mix of uses, with good street activation and connectivity”. The proposed G-MU-5 zone district is a multi-unit district zone district. Since the proposed district allows a mix of housing types and

allowable building forms that contribute to street activation, the proposed rezoning is appropriate and consistent with the plan.

Blueprint Denver Future Places

The Future Places map shows the subject property as part of a “High-Medium” residential area. Blueprint Denver describes these areas as having a, “mix of low-to medium-scale multi-unit residential uses with some neighborhood-serving mixed-use distributed throughout. Buildings are generally up to 8 stories in height.”

The proposed rezoning to G-MU-5 is appropriate and consistent with the “High-Medium Residential Area” plan direction and will foster a better mix of residential uses and more appropriate intensity than the current zoning allows. Blueprint Denver specifies that the maximum recommended heights are intended to provide a general scale and that factors such as “Surrounding context, including existing and planned building height” (pg. 66) should be considered for any site. Given the Blueprint Denver height guidance of up to 8 stories and the existing built environment in the immediate area and the adjacent zone districts, the proposed 5-story district is consistent with plan guidance and appropriate for this location.

Blueprint Street Types

Blueprint Denver classifies W 14th St. as a Residential Collector. The primary function of a residential collector is to collect traffic from local streets and distribute it to higher-capacity roads, such as arterial streets or highways. Residential collectors typically have a slightly higher capacity and speed limit compared to local streets but are designed to prioritize local access rather than through-traffic. The proposed G-MU-5 zone district allows a broad range of residential land uses with a shallow front setback and allows the intense land uses anticipated for this street type. Therefore, the district is consistent with the downtown arterial street types at this location.

Julian Street is mapped as a local or undesignated street. According to the plan, this street type supports “primarily residential uses, but may also include schools, civic uses, parks, small retail nodes and other similar uses. Buildings usually have a modest setback, and the depth of the setback varies by neighborhood context” (p. 160). The proposed G-MU-5 zone district would allow a mix of residential uses at an intensity and orientation consistent with this street type classification.

Blueprint Growth Strategy

Blueprint Denver’s growth strategy map is a version of the future places map, showing the aspiration for distributing future growth in Denver (p. 51). The subject property is located within the “All Other Areas of the City” growth area. This designation does not

imply a complete absence of growth, but rather signifies a deliberate effort to manage and distribute growth more evenly across different areas of the city. In fact, these areas are anticipated to see around 20% of new housing growth and 10% of new employment growth by 2040 (p. 51). The proposed map amendment to G-MU-5 is consistent with the growth area in that it will allow a broad range of housing and direct more intense and appropriate growth to this area than the existing zoning allows.

Additional Applicable Strategies

The proposed rezoning is also consistent with the following strategies from Blueprint Denver:

- Land Use and Built Form - General Policy 1 - Promote and anticipate planned growth in major centers and corridors and key residential areas connected by rail service and transit priority streets (p. 72).
- Land Use and Built Form - General Policy 2 - Incentivize or require efficient development of land, especially in transit-rich areas (p. 72). The proposed map amendment is consistent with these strategies as growth will be directed to an area with rail transit service.

West Area Plan (2023)

The West Area Plan supersedes the previous neighborhood plans in the designated region, including the West Colfax Plan of 2006. It serves as the small area plan encompassing the West Colfax, Villa Park, Sun Valley, Barnum, Barnum West, and Valverde neighborhoods. This comprehensive plan outlines a vision and policy guidance for various aspects such as land use, urban design, housing, mobility, parks, the local economy, and more, with a focus on the next two decades. Input from the community has highlighted the need to expand housing options within the West Area and diversify the range of available housing to accommodate households with varying income levels and lifestyles.

Like Blueprint, the plan proposes a High-Medium Residential land use and built form category for the properties in question. These areas are prioritized for future growth, with an emphasis on maintaining and creating authentic spaces that resonate with the surrounding community members (refer to Policy L8). The proposed approach includes a blend of multi-unit residential uses at a low to medium scale, alongside mixed-use developments that cater to the neighborhood's needs. While the maximum base heights are typically set at 5 stories, certain limited locations permit heights of up to 8 stories, as indicated in the Base Heights Map.

According to the Future Height Guidance with Incentives Map, the subject properties are allowed a maximum of 7 stories when Expanding Housing Affordability (EHA) height

incentives are applied. However, in this case, the applicant is seeking a zoning district with a maximum height restriction of 5 stories.

2. Uniformity of District Regulations and Restrictions

The proposed rezoning to G-MU-5 will result in the uniform application of zone district building form, use and design regulations.

3. Public Health, Safety and General Welfare

The proposed official map amendment furthers the public health, safety, and general welfare through implementation of the city's adopted land use plans. The proposed rezoning would also facilitate increased housing density near services and amenities and promote a walkable, urban neighborhood within walking distance to public transit.

Exhibit C

Additional Criteria/Description of Justifying Circumstances and Neighborhood Context (DZC 12.4.10.8.)

4. Justifying Circumstances

Changed or changing conditions in the area and city adopted plans serve as the Justifying Circumstances under DZC Section 12.4.10.8.A.4, “Since the date of the approval of the existing Zone District, there has been a change to such a degree that the proposed rezoning is in the public interest. Such a change may include: “Changed or changing conditions in a particular area, or in the city generally; or a city adopted plan....” Since the approval of the existing G-MU-5 zone district, the City has adopted the Comprehensive Plan 2040, Blueprint Denver, and has approved the West Area Plan. As stated throughout this application, the proposed rezoning meets the intent of these plans and is in the public interest; therefore, this is an appropriate justifying circumstance for the proposed rezoning.

5. Consistency with Neighborhood Context Description, Zone District Purpose, and Intent Statements

In accordance with the Denver Zoning Code, the General Urban (G-) Context is characterized by a range of multi-unit residential uses presented in diverse building forms. It is intended to foster a dense urban character through the presence of moderate to high residential structures, as well as low to moderate commercial and mixed-use developments in suitable locations.

Within this neighborhood context, the proposed G-MU-5 zone district aligns appropriately with the recommended zoning regulations and height guidelines. The purpose of residential districts is to facilitate and safeguard high-density residential neighborhoods while maintaining the overall character of the General Urban Context. These regulations permit the establishment of multi-unit districts featuring a variety of residential building forms. The G-MU-5 zone district specifically accommodates urban houses, duplexes, row houses, garden courts, townhouses, and apartment buildings. Notably, the tallest allowable building form is limited to a maximum height of five stories.

Considering that the subject sites are served by local and collector streets, the street classifications and desired building heights in this area harmonize with the intended purpose and goals of the designated zone district.

Equity

Rezoning the subject properties to allow for multi-unit residential units can contribute to increased equity within the City and County of Denver. By enabling the development of multi-unit housing, the proposed rezoning promotes greater housing diversity and affordability. This, in turn, helps address the housing shortage and provides more options for individuals and families seeking housing in the city. Multi-unit residential developments have the potential to accommodate a larger number of residents within a given area, thereby supporting a more inclusive and accessible community. By expanding housing opportunities and creating a mix of housing types, upzoning fosters a more equitable city where people of different income levels can access suitable housing options and enjoy the benefits of living in Denver. It should also be noted that the Mandatory Affordable Housing Program requires new residential development of 10 or more units to include a portion of affordable housing.

Outreach Summary

As we approach the proposed rezoning of 1409-1471 Julian Street, we mimic the City of Denver process prior to formal submittal. From the beginning, we identified all of the Community Stakeholders both noted by the City from the preapplication process and from institutional knowledge of relationships in the West Colfax neighborhood. The team held numerous meetings with various stakeholders and Registered Neighborhood Organizations summarized in the next pages. Additionally, we held a Neighborhood meeting including every property owner within a 200 foot radius of the proposed project as part of our outreach and a meeting with the impacted tenants of 1409-1471 Julian Street.

In our outreach efforts, we contacted all of the Registered Neighborhood Organizations mentioned by the city in hopes of setting meetings but did not hear back from INC or Strong Denver. Other than those groups, we held fruitful discussions with all suggested organizations.

Meeting Summary

Marcus Pachner and Amy O'Brien from The Pachner Company and Tyler Downs met informally with Jaime Aguilar, a member of the West Area Plan Steering Committee, to discuss the proposed rezoning of 1409-1471 Julian in the context of the newly adopted West Area Plan and the authentic Community Outreach with neighbors to ensure all of the neighborhood suggestions are incorporated into the planning process.

As discussed, Wazee Partners has been a longtime owner in the West Colfax area and knows the complexities associated with conducting true community outreach around projects. We talked about the plan moving forward to make sure all groups are consulted and included in the process as we continue with the rezoning. In addition, the consistency in zoning for the West Area Plan was discussed as well.

Moving forward, we decided to make sure as many West Area Stakeholders as possible are in the loop on our planning process and up to date on where we are in the City process. Transparency and Inclusion are the main goals with Community Engagement on the project.

Attendees: The Pachner Company, Wazee Partners, WECAN: Shantelle Mulliniks, Jonathan Pira

Meeting Summary

The team from The Pachner Company and Tyler Downs met via ZOOM with leadership of WECAN to discuss the proposed rezoning of 1409-1471 Julian in the context of the newly adopted West Area Plan.

WECAN is familiar with the Menola Homes Project and the current rezoning of 1465-1497 Knox Court as a new Affordable Housing development. As it is related, Shantelle and Jonathan were agreeable with the proposed height and density of the Julian Street project. The two board members did differ in their opinion of on-site parking. Shantelle was agreeable with the 1 to 1 parking ratio. Jonathan, however, suggested that the transit infrastructure could serve the residents and neighborhood well with less on-site parking.

WECAN is largely supportive of the proposed project and will continue to be involved as the City process continues.

Sloan's Lake Citizens Group

Jun 14, 2023

Location: ZOOM

Attendees: The Pachner Company, Wazee Partners, Sloan's Lake Citizens Group, Tom Brunn, Neighbors

Meeting Summary

The team from The Pachner Company and Wazee Partners presented to SLCG to discuss the proposed rezoning of 1409-1471 Julian in the context of the newly adopted West Area Plan.

Overall the group is supportive of the project. There were questions regarding displacement which we addressed in mention of the Menola Homes Project. The group was familiar and agreeable to the new affordable project as an option. The group was knowledgeable about the West Area Plan and the changes that would be coming to the area to make a more consistent zoning. The group did emphasize the importance (necessity) of on-site parking. .

As follow-up, the group asked that we continue to keep them up to date as the planning process progresses. SLCG would like to see the site plan once we are at that stage.

Neighbor Meeting

June 27, 2023

Location: *Dwell Church, 3275 W 14th Ave., Denver, CO 80204*

Attendees: The Pachner Company, Wazee Partners, 8 Neighbors primarily from 14th and Knox and 14th and Julian

Meeting Summary

The team from The Pachner Company and Wazee Partners presented the proposed zoning to the most immediate neighbors who will be impacted by the proposed rezoning.

Overall the group is supportive of the project. The group of neighbors has been very involved in the newly adopted West Area Plan, so they were informed as to the density and height presented in the new plan. These immediate neighbors are supportive of the rezoning and were more curious about the timeline of the city process. In addition, there was a robust discussion around parking. As immediate neighbors to multi-family housing, their request was for an INCREASE in the parking required in the city code. They argued that most of the residents of these developments have more than 1 car per unit so the current parking guidelines do not meet the current need in the neighborhood. The neighbors are also well-informed on the Menola Homes project and understood the impact of that project on the immediate neighborhood.

As follow-up, the group asked that we continue to keep them up to date as the planning process progresses.

Location: *Rodolfo “Corky” Gonzales Branch Library, 1498 Irving St., Denver, CO 80204*

Attendees: The Pachner Company, Wazee Partners, 7 Tenants, and translator from Community Language Cooperative

Meeting Summary

The team from The Pachner Company and Wazee Partners presented the proposed zoning to the tenants. The presentation was thorough and focused on what the rezoning means for the tenants and the timeline for their move to the Menola Homes. The tenants primarily expressed relief to know the process will be at least 2-3 years, their section 8 benefit follows them to Menola Homes, and that they will continue to be notified throughout the process. The Pachner Company offered to present to any of the tenants who could not attend the meeting and the group has received an email with the presentation as well as The Pachner Company contact information to contact with any questions as the process continues. The tenants asked questions about relocation to the new project which The Pachner Company and Wazee Partners emphasized is fully paid for and will only happen once Menola Homes is finished. If the Menola Homes Project does not come to fruition, Wazee Partners will provide housing within a 4 block radius on another scattered site for affordable housing. Regardless, the process is at least 2-3 years.

Wire Fraud Alert

This Notice is not intended to provide legal or professional advice. If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. **DO NOT** use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the phone number of relevant parties to the transaction as soon as an escrow account is opened.** **DO NOT** send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do **NOT** reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

Wire Fraud Alert

This Notice is not intended to provide legal or professional advice. If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. **DO NOT** use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the phone number of relevant parties to the transaction as soon as an escrow account is opened.** **DO NOT** send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do **NOT** reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.
