 - High mix of uses throughout with good street activation and connectivity
 - Buildings are usually multi-story with a high degree of lot coverage

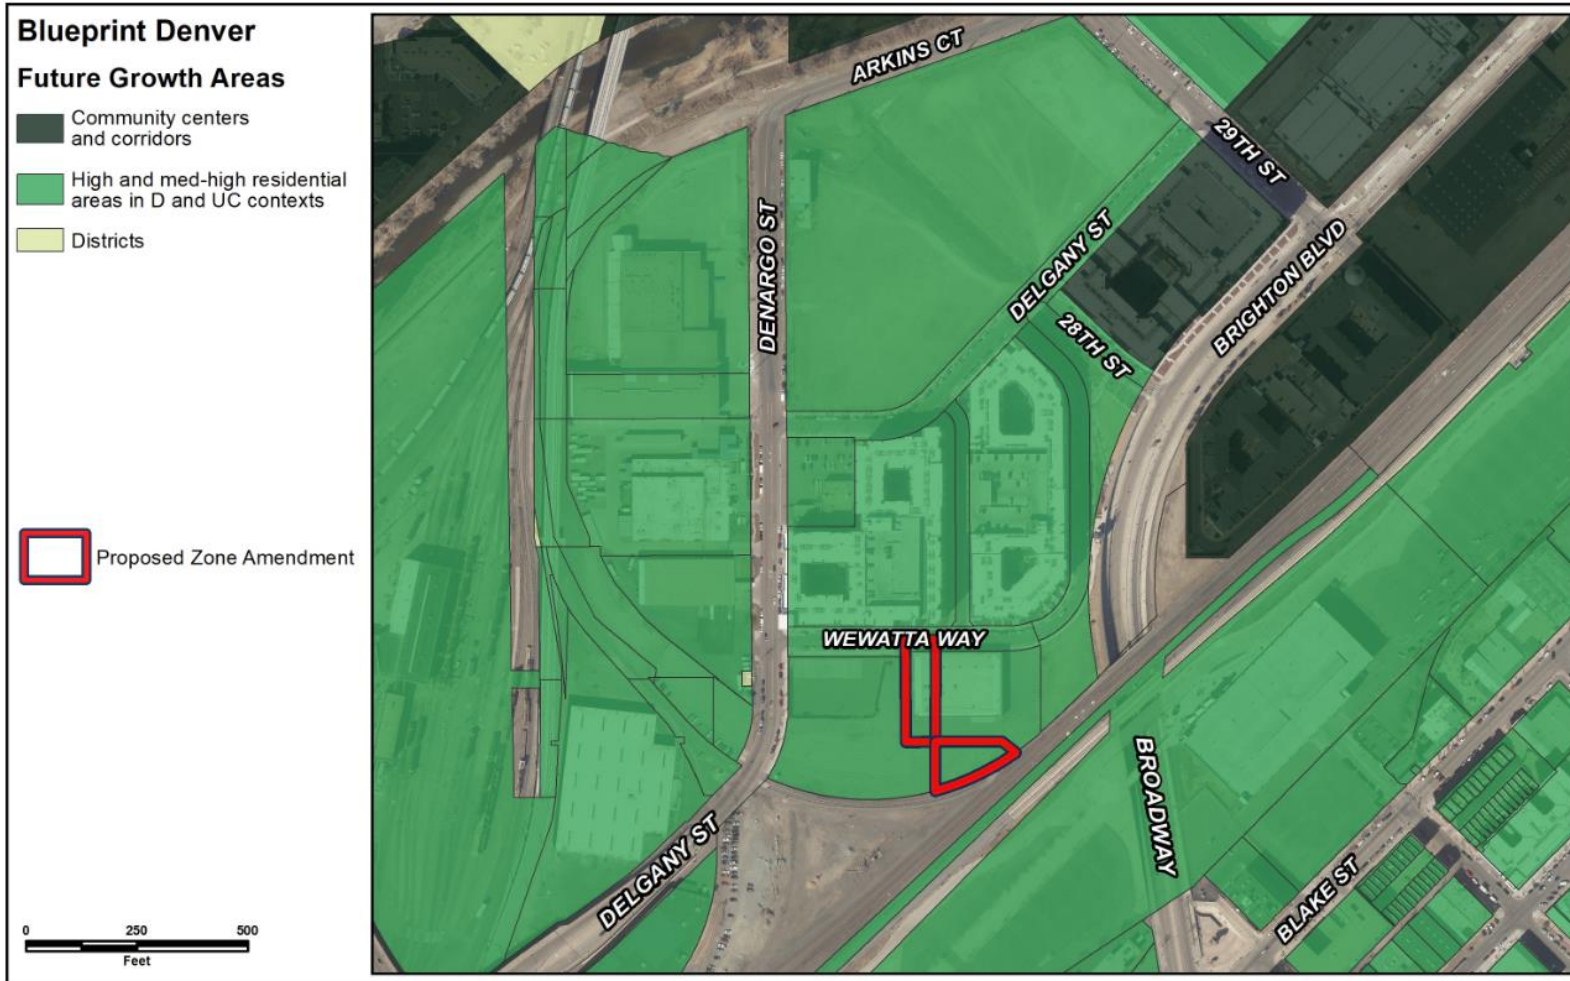

Consistency with Adopted Plans: Blueprint Denver

- **High Residential Area**
 - Commercial uses are prevalent
 - Buildings are generally the tallest of the residential places in this context
- **Street types**
 - Wewatta Way: Local or Undesignated
 - Denargo St: Mixed Use Collector
 - Broadway/Brighton Blvd: Mixed Use Arterial

Reminder: Evaluating whether the proposed zone district is consistent with the Future Street Classification, but not to assess the traffic impacts of a specific development proposal.

Growth Area Strategy:
High & high-medium residential areas in D- and C- contexts

- 15% of new housing
- 5% of new employment

Most growth is guided to regional centers, community centers and corridors, select districts and high and medium-high intensity residential areas. Other areas of the city are still expected to see some growth, however more limited.

Consistency with Adopted Plans: River North Plan (2003)

Land Use Concept

- Plan recommends Residential Mixed-Use zoning, Commercial Mixed-Use zoning or a combination of both
- Vision to create a compact, mixed-use, pedestrian friendly environment
