Near Southeast Area Plan (2023)

Land Use Recommendations

- Land Use 1 – Direct growth to regional centers, community centers, and community corridors with improved infrastructure and design.
 - Strategy B – Ensure community centers and corridors where additional height is recommended have adequate mobility infrastructure to support development. Proposed applicant driven rezonings to increase allowed height should go through an established coordinated review process. Proposed rezonings with minimal infrastructure impact, such as small lots, may be determined not to require additional review. For other proposal, the review process should require an adequate mobility infrastructure analysis prior to approval of the proposed rezoning (p. 40)

Near Southeast Area Plan (2023)

Land Use Recommendations

- Land Use 2, Strategy A – Transform centers and corridors into safe, welcoming pedestrian-oriented places
 - Strategy A1 – Locate new buildings closer to the street to create a sense of enclosure and human scale in mixed-use areas (p.44)
 - Strategy B1A – Prohibit auto-oriented building forms, such as drive thrus, car washes, and gas stations (p. 45)
