2 ORDINANCE NO. \_\_\_\_\_  
3 SERIES OF 2024

COUNCIL BILL NO. CB24-0331  
COMMITTEE OF REFERENCE:  
4 Land Use, Transportation & Infrastructure

5 **ABILL**

6 **For an ordinance designating the University Park Historic District as a district**  
7 **for preservation.**

8 **WHEREAS**, pursuant to Section 30-4, Denver Revised Municipal Code, the Landmark  
9 Preservation Commission has transmitted to the Council a proposed designation of a district for  
10 preservation; and

11 **WHEREAS**, the Planning Board has recommended approval of the same; and

12 **WHEREAS**, based upon evidence received by the Landmark Preservation Commission at a  
13 hearing on March 5, 2024, the staff report, and evidence received at the hearing before City Council on  
14 April 15, 2024 the University Park Historic District meets the criteria for designation as a district for  
15 preservation as set out in Section 30-3, Denver Revised Municipal Code, as amended, by maintaining  
16 its integrity, being more than 30 years old, and meeting the criteria in the following four categories from  
17 Section 30-3(3):

18 *a. Having direct association with a significant historical event or with the historical*  
19 *development of the city, state, or nation;*

20 The University Park Historic District (“District”) is associated with the development of the University of  
21 Denver and adjoining residential neighborhood that happened in the late 1800’s. As part of this  
22 development the university acquired land east of its new campus and platted residential blocks as part  
23 of the University Park subdivision. These developments laid the groundwork for residential development  
24 in the University Park area. However, due to water shortages, a remote location, and inconsistent  
25 streetcar connections from Denver, the University Park residential neighborhood grew slowly, following  
26 a pattern of large residences built by DU and its strong supporters, scattered around the neighborhood’s  
27 blocks closest to DU. The neighborhood began to grow again steadily as a Denver streetcar reached  
28 the neighborhood and it became more independent from DU. The investments by DU’s residential  
29 proponents to build infrastructure and community in University Park laid the groundwork for tremendous  
30 residential development both in University Park itself but also in surrounding South Denver  
31 neighborhoods in the early- to mid-20th century.

32 *b. Having direct and substantial association with a recognized person or group of persons*  
33 *who had influence on society;*

1 The greater University Park neighborhood was established in the 1880s by a cadre of Methodist  
2 educators and supporters associated with the Colorado Seminary and DU. These included multiple  
3 professors, deans, and administrators, such as Professor Herbert Alonzo Howe and his wife Fannie  
4 Shattuck Howe, the daughter of Methodist educator and DU supporter Joseph C. Shattuck. Dr. Howe  
5 was a nationally recognized astronomer instrumental in the development of Observatory Park, and in  
6 the design, location, and oversight of DU's Chamberlin Observatory. Others who had an influence in  
7 University Park's history were Henry W. Warren and Henry A. Buchtel. Warren was the first Colorado  
8 Methodist Episcopal bishop, served on the DU Board of Trustees along with his wife, Elizabeth Iliff  
9 Warren. Buchtel, a Methodist minister, became DU Chancellor in 1900 and was offered the Republican  
10 nomination for Colorado governor, winning the election in 1906. His home in University Park was used  
11 as the Governor's mansion during his time in office.

12 University Park supported an unusually large number of progressive and highly accomplished women  
13 residents, many of whom owned and built houses in the neighborhood, such as Elizabeth Iliff Warren  
14 whose offer to endow a school of theology for the University of Denver was conditioned upon a  
15 permanent university location away from downtown Denver, and led to the institution's relocation to the  
16 Hilltop campus southeast of Denver in 1886.

17 *c. Embodying distinctive visible characteristics of an architectural style or type;*

18 The District embodies the distinctive visible characteristics of several architectural styles including  
19 Victorian-era models of the late 1880s with versions of the Queen Anne style in brick with fine stone  
20 and wood details, Richardsonian Romanesque, early versions of foursquares, Craftsman Bungalow  
21 house types, as well as Romantic-revival and Modern styles. The long buildout of the neighborhood  
22 and resulting scattered and mixed examples of successive architectural styles make University Park  
23 unique in Denver.

24 *f. Representing an established and familiar feature of the neighborhood, community, or*  
25 *contemporary city, due to its prominent location or physical characteristics;*

26 The District represents an established and familiar feature of the neighborhood due to its physical  
27 characteristics. The relocation of the University of Denver from downtown Denver to its current  
28 location in 1886 resulted in University Park's remote location and sparse population. The University  
29 and other early builders of homes in University Park also tended to build homes with generous  
30 spacing that allowed owners to have large gardens and livestock such as goats, cattle, and chickens  
31 to support their families and could also accommodate DU staff and students.

32 Due to individual owner development, greater diversity of architectural styles and more one-of-a-kind  
33 houses in University Park were constructed relative to other early neighborhoods in Denver.

1 The majority of contributing residences in the neighborhood are 2-story homes that are physically  
2 prominent, recognizable and familiar features of contemporary southeastern Denver. And because  
3 of University Park’s slow and dispersed development history, the properties in this historic district  
4 stand out and are physically distinguished from the rest of the neighborhood.

5 The District also includes non-residential properties that are established and familiar features of the  
6 neighborhood including Observatory Park, the Richardsonian Romanesque former home of  
7 Elizabeth Iliff and Henry Warren now serving as the private Accelerated Schools’ and University Park  
8 United Methodist Church.

9 All these properties occupy prominent locations in the neighborhood and are established and well-  
10 known features that contribute to the identity of the University Park neighborhood and South Denver.

11 **NOW, THEREFORE, BE IT ENACTED BY THE COUNCIL OF THE CITY AND COUNTY OF**  
12 **DENVER:**
