| Email: scott.mcfarland@denvergov.org michele.foust@denvergov.org | Email: Alaina.McWhorter@denvergov.org |

5. General description or background of proposed request. Attach executive summary if more space needed:

Due to the number of deferred mechanical projects throughout the City, DOTI awarded two Mechanical Contractors (MC) the Integrated Mechanical Services for Deferred Maintenance Projects contract. Each MC will develop and initiate solutions to each project. With the use of two integrated mechanical services contracts, the goal is to complete the current and future mechanical deferred maintenance projects over a three-year term.

The MCs will become the single points of responsibility for the preconstruction, engineering, budgeting, investigations, cost control, installation coordination with all other disciplines and customer, schedule commitment, and start-up/commissioning for each project. Most projects are deferred maintenance and include equipment replacement or facility improvements, Examples of projects might include: heating water boiler replacement, steam and condensate piping repair, steam to water heat exchanger replacement, pump replacement, air handling unit replacement, BAS upgrades and/or replacement, converting multizone air handling units to VAV with reheat, water heater replacement, plumbing pipe repair/replacement, rooftop unit replacement, projects to analyze and contribute to Energize Denver.

This integrated mechanical services contract is awarded to U.S. Engineering Construction, LLC for \$15,000,000.00 for a three-year term.

6. City Attorney assigned to this request (if applicable): Carmen Jackson Brown

7. City Council District: citywide

8. ****For all contracts, fill out and submit accompanying Key Contract Terms worksheet****
