**5. Describe the proposed ordinance, including what the proposed ordinance is intended to accomplish, who's involved**

**a. Scope of Work**

The original contract amount for CE 83108 was \$1,277,440.00. The previous amendment (CE 83108-1) to this contract stated the total contract amount as \$1,401,764.00, which instead was the amount of the increase. The total contract amount in the contract should have stated \$2,679,204.00, the total of the two amounts. This proposed ordinance is to correctly state the total contract amount in the contract. The increased amount of \$1,401,764.00 is for three years of renewed software maintenance for the Denver Police Department Records Management System (RMS). The RMS application is used primarily for Police record keeping and case management. This maintenance and support contract provides the City with regular software updates and support with issues that may arise with the software.

**b. Duration**

11/01/11 to 10/31/14

**c. Location**

Citywide

**d. Affected Council District**

All

**e. Benefits**

**Records Management Software (RMS) is used by the Denver Police Department (DPD) for managing criminal activity records. The maintenance contract for the RMS software is essential to support proper functioning of the software for the Denver Police Department**

**f. Costs**

**\$1,401,764.00. Total contract amount is \$2,679,204.00**

**6. Is there any controversy surrounding this ordinance, groups or individuals who may have concerns about it? Please explain.**
