6. General description of proposed ordinance including contract scope of work if applicable:

Request to purchase capital equipment from current appropriation:

Type Quantity

- | | | |
|---------------------------------|----------|--|
| Software | 2 | Data Management Software - helps us manage how data is stored and protected on the large disk drives. The software helps us archive, backup and track where the information is stored. |
| Software | 1 | Storage Area Network Software - helps us connect the hard drives from one location to another |
| Storage hard drive unit | 2 | These hard drive units are for large disk drives that store data or information from multiple servers. By purchasing large disk drives we can consolidate and manage that data versus having the information spread across multiple servers. |
| Storage hard drive unit | 2 | These hard drive units help us connect the disk drives in different data centers or rooms so that we can mirror that information from place to another. This way if we have a fire or disaster in one room that data would reside in the other room. |
| Sweepers | 2 | |
| Pre-Conditioned air unit | 1 | |
