5. General description or background of proposed request. Attach executive summary if more space needed:

The Valverde storm project will improve drainage conditions in Basin 0064-02 by installing a 42" diameter storm pipe in W. Alameda Ave. and abandoning an existing undersized drainage system consisting of failing corroded metal pipe outside of the City ROW without easements. The project will convey storm water from the sumps on Decatur St., Dale Ct., and Clay St., to W. Alameda Ave. The 42" storm pipe will tie into the existing storm system near Bryant St. Other areas of work include water utility relocations, restoration of paving, landscaping and flatwork where storm system construction impacts existing improvements.
