E. This is a non-exclusive Contract. In the City's best interests, the City reserves the right to purchase the same materials and services through other procurements. The City also reserves the right to purchase from other sources those items which are required on an emergency basis and cannot be supplied immediately from stock by the vendor.

SECTION 3 - TERM

3.01 TERM

The term of this Contract shall commence on January 1, 2016 and shall terminate December 31, 2016, unless terminated earlier in accordance with this Contract. It is also a specific provision of this Contract that the CEO in her discretion (or her designee) may renew and continue the Contract under the same terms and conditions as the original contract for up to two (2) additional years in increments of one or two years. Though multiple extensions may be granted, in no event shall the total extensions total more than two years. In addition, the term of this Contract may be extended in the CEO's discretion, by written notice from the City to the Contractor, to allow the completion of any work which has been commenced prior to the date upon which this Agreement otherwise would terminate. However, no extension of the Contract Term shall increase the Maximum Contract Amount stated herein; such amount may be changed only by a duly executed written amendment to this Contract.

SECTION 4 – COMPENSATION AND PAYMENT

4.01 COMPENSATION

The City hereby agrees to pay the Contractor, and the Contractor agrees to accept as its sole compensation for its complete costs incurred and services rendered under this Agreement, an amount negotiated for individual tasks included in the project's scope of work as set forth in **Exhibit B -- Rates and Charges**.

4.02 SCHEDULING, PROGRESS REPORTS, AND INVOICES

A. Payments shall be made to the Contractor based upon monthly invoices and receipts submitted by the Contractor, which invoices have been approved by the City, and subject to the maximum contract liability.

B. Invoices shall include sufficient documentation for the City to verify transportation times, volumes pumped and disposed/recycled, dates, precise location of any maintenance activities conducted, and any repair work approved and conducted by the City. Failure to include sufficient documentation with the invoice will result in the denial of all or part of the billing. The City reserves the right to reject and not pay any invoice or part thereof where the CEO determines that the amount invoiced to date exceeds the amount which should be paid based upon its determination of the work which has been performed. Disputes concerning payments under the provisions of this contract shall be resolved by administrative hearing pursuant to the procedures of Section 5-17, Denver Revised Municipal Code.

C. **Payments:** Payments will be made to Consultant in accordance with the City's Prompt Payment Ordinance, Denver Revised Municipal Code ("D.R.M.C.") §20-107, et. seq., subject to the Maximum Contract Amount set forth below. 4.03 MAXIMUM LIABILITY

A. Any other provision in this Agreement notwithstanding, in no event shall the City be liable for payment under this Agreement for any amount in excess of One Million Four Hundred Thirteen Thousand Dollars and Zero Cents (**\$1,413,000.00**). All payments under this Agreement shall be paid solely and exclusively from the "City and County of Denver, Airport System Operation and Maintenance Fund" or from the "City and County of Denver Airport System Capital Improvement and Replacement Fund". The City is under no obligation to make any future apportionments or allocations to said fund.

B. It is agreed and understood that this Agreement is a one year agreement (with two one year options) with only partial funding authorized at the commencement of the term of this Agreement, such partial funding consisting of the approved and/or encumbered amount of Four Hundred Seventy One Thousand Three Hundred Fifty Five Dollars and Fifty Cents (**\$471,355.50**). The City reserves the right to direct the Contractor to perform only limited portions of the work described in **Exhibit A** and the Contractor agrees that it shall not continue work in excess of approved and encumbered amounts without a written Notice from the City stating the funding limit and term. If the Contractor chooses to proceed with work prior to receiving such a written Notice, then the Contractor shall do so at its own risk without any liability for payment by the City. The City's written Notice must be signed by the Senior Vice President and by the Department of Aviation's CFO, otherwise it is invalid and the Contractor is without authority to proceed. Payments hereunder will be made subject to the multi-year conditions stated above.

C. The City's payment obligation, whether direct or contingent, extends only to funds appropriated annually by the Denver City Council, paid into the Treasury of the City, and encumbered for the purpose of the Agreement. The City does not by the Agreement irrevocably pledge present cash reserves for payment or performance in future fiscal years, and the Agreement does not and is not intended to create a multiple-fiscal year direct or indirect debt or financial obligation of the City. The City is not under any obligation to make any future encumbrances or appropriations for this contract nor is the City under any obligation to amend this Agreement to increase the Maximum Contract Liability above.

4.04 TIME OF PAYMENT / PROMPT PAYMENT

Terms shall be subject to the City's Prompt Payment Ordinance D.R.M.C. 20-107 *et-seq.* subject to the Maximum Contract Liability set forth herein. The Contractor agrees that interest and late fees shall be payable by the City hereunder only to the extent authorized and provided for in the City's Prompt Payment Ordinance. For any subcontractor engaged by Contractor under this Agreement, the Contractor is subject to Section 20-112, D.R.M.C., requiring the Contractor to pay its subcontractors in a timely fashion. A payment is timely if it is mailed to the subcontractor no later than seven days after receipt of any payment from City. Any late payments by Contractor are subject to a late payment penalty as provided for in Section 20-112, D.R.M.C.

SECTION 5 – CONTRACTOR'S PERFORMANCE

The Contractor shall be responsible for the conduct of all the Contractor's personnel at all times.

B. The Contractor shall remove from the Airport work site any Contractor employee on, or invited by it onto, the Airport, when the CEO notifies the Contractor in writing that such person: (a) is, in the sole opinion of the CEO or his/her designee, incompetent, unfit or disorderly; or (b) has used profane or abusive language or behavior toward any person at the Airport. The Contractor's employees are responsible for having the proper identification at all times. The Contractor and any subcontractors are responsible for obtaining DEN badges for site personnel at no expense to the City. In addition, if badges are lost or misplaced the Contractor or subcontractor is responsible for replacement. Proper ID is to be worn on the outside garment or in compliance with DEN Badge requirements. Failure to do so may result in the Contractor being prohibited from performing the required services.

B. The Contractor, promptly upon notice of award of this Contract, shall meet with the Airport's Assistant Security Manager to establish badging and vehicle permit requirements for Contractor's operations under this Contract. The Contractor shall obtain the proper access authorizations for all of its employees, subcontractors and vendors who will enter the Airport to perform work or make deliveries, and shall be responsible for each such person's compliance with all Airport rules and regulations, including without limitation those pertaining to security. Any person who violates such rules may be subject to revocation of his/her access authorization. The failure of the Contractor or any subcontractor to complete any required services hereunder shall not be excused on account of the revocation for good cause of access authorization of any person.

C. The security status of the Airport is subject to change without notice. If the security status of the Airport changes at any time during the term of this Contract, the Contractor shall take immediate steps to comply with security modifications which occur as a result of the changed status. The Contractor may at any time obtain current information from the Airport Security Office regarding the Airport's security status in relation to the Contractor's operations at the Airport.

D. 5.04 SAFETY

A. The Contractor shall operate at all times under this Contract in compliance with the Occupational Safety and Health Act.

B. For all operations requiring the placement and movement of the Contractor's equipment, Contractor shall observe and exercise and compel its employees to observe and exercise all necessary caution and discretion so as to avoid injury to persons, damage to property of any and all kinds, and annoyance to or undue interference with the movement of the public and City personnel.

5.05 LAWS, REGULATIONS, TAXES AND PERMITS

A. The Contractor, at all times, shall observe and comply with all applicable federal, state, county, city, Airport, and other laws, codes, ordinances, rules and regulations in any manner affecting the conduct of the work, including without limitation the Williams-Steiger Occupational Safety and Health Act of 1970 (Public Law 91-596).

B. The Contractor shall procure all federal, state, local, and airport permits, licenses, or approvals necessary to perform the Scope of Work, and shall comply with all requirements of the same. All costs thereof shall be deemed to be included in the prices proposed for the work.

C. Without limiting the foregoing, the Contractor shall establish appropriate procedures and controls so that services under this Contract will not be performed by using any alien who is not legally eligible for such employment under United States Immigration laws. Failure to satisfactorily comply with this condition may cause the City to terminate this Contract.

D. Contractor agrees that he, or any subcontractor under him, will pay all sales and use taxes levied by the City and County of Denver on any tangible personal property built into the work. These materials are exempt from Colorado State Taxes per CRS 1973 39-26-114 Rev. It shall be the responsibility of the Contractor to obtain a Certification of Exemption from the State of Colorado Department of Revenue prior to the purchase of any materials to be built into the work. A copy of the certificate shall be furnished the City prior to final payment.

A. The Contractor in conducting any activity on the Airport shall comply with all applicable local, state and federal environmental rules, regulations, statutes, laws and orders (collectively "Environmental Requirements"), including but not limited to Environmental Requirements regarding the storage, use and disposal of Hazardous Materials or Special Wastes to the environment. For purposes of this Agreement the terms "Hazardous Materials" shall refer to those materials, including without limitation asbestos and asbestos-containing materials, polychlorinated biphenyls (PCBs), oil or any other petroleum products, natural gas, source material, pesticide, and any hazardous waste, toxic substance or related material, including any substance defined or treated as a "hazardous substance," "hazardous waste" or "toxic substance" (or comparable term) in the Comprehensive Environmental Response, Compensation and Liability Act (42 U.S.C. This obligation is continuing for the term of this Agreement, and the Contractor shall provide updated MSDSs and MSDSs for new chemicals, as such information is updated and as new chemicals or detergents are placed into use, as applicable.

D. The Contractor agrees to ensure that its operations hereunder are conducted in a manner that minimizes environmental impact through appropriate preventive measures. The Contractor agrees that it shall be responsible for any notice of violation from CDPHE, the City and County of Denver or the EPA. The Contractor further agrees that it is responsible for the health and safety of its personnel in connection with such environmental requirements.

E. In the case of a release, spill or leak as a result of the Contractor's activities, the Contractor shall immediately control and remediate the contaminated media to applicable federal, state and local standards. The Contractor agrees that in such event it will immediately clean up all spills and the cleanup material must be disposed of offsite at the Contractor's sole expense. The Contractor agrees that it shall reimburse the City for any penalties and all costs and expenses, including without limitation attorney's fees, incurred by the City as a result of the release or disposal by the Contractor of any pollutant or hazardous material on or about the Airport.

F. The materials listed in **Exhibit C**, attached hereto, and products containing those materials are prohibited from procurement and use on City property under this Agreement due to significant negative impacts to human health and the environment.

The Contractor shall also provide temporary services to maintain uninterrupted use of the facilities.

All costs involved in making repairs and restoring disrupted service shall be borne by the Contractor, and the Contractor shall be fully responsible for any and all claims resulting from the damage.

SECTION 6 – INDEMNITY, INSURANCE, RECORDS, BONDS

6.01 INSURANCE

Contractor hereby agrees to defend, indemnify, reimburse and hold harmless City, its appointed and elected officials, agents and employees for, from and against all liabilities, claims, judgments, suits or demands for damages to persons or property arising out of, resulting from, or relating to the work performed under this Agreement (“Claims”), unless such Claims have been specifically determined by the trier of fact to be the sole negligence or willful misconduct of the City. This indemnity shall be interpreted in the broadest possible manner to indemnify City for any acts or omissions of Contractor or its subcontractors either passive or active, irrespective of fault, including City’s concurrent negligence whether active or passive, except for the sole negligence or willful misconduct of City.

B. Contractor’s duty to defend and indemnify City shall arise at the time written notice of the Claim is first provided to City regardless of whether Claimant has filed suit on the Claim. Contractor’s duty to defend and indemnify City shall arise even if City is the only party sued by claimant and/or claimant alleges that City’s negligence or willful misconduct was the sole cause of claimant’s damages.

C. Contractor will defend any and all Claims which may be brought or threatened against City and will pay on behalf of City any expenses incurred by reason of such Claims including, but not limited to, court costs and attorney fees incurred in defending and investigating such Claims or seeking to enforce this indemnity obligation. Such payments on behalf of City shall be in addition to any other legal remedies available to City and shall not be considered City’s exclusive remedy.

D. Insurance coverage requirements specified in this Agreement shall in no way lessen or limit the liability of the Contractor under the terms of this indemnification obligation. The Contractor shall obtain, at its own expense, any additional insurance that it deems necessary for the City’s protection.

E. This defense and indemnification obligation shall survive the expiration or termination of this Agreement.

6.03 INSPECTION OF RECORDS:

The Contractor further agrees that such records will contain information concerning the hours and specific tasks performed along with the applicable federal project number.

B. The Contractor agrees that until the expiration of three (3) years after the final payment under this Agreement, any duly authorized representative of the City, including the CEO or City Auditor or their representatives, shall have access to and the right to examine any directly pertinent books, documents, papers and records of the Contractor involving transactions related to this Agreement, without regard to whether the work was paid for in whole or in part with federal funds or was otherwise related to a federal grant program.

6.04 PAYMENT AND PERFORMANCE BOND

A. A Performance, Payment, and Guarantee Bond satisfactory to the City and County of Denver on the form required by the City, in an amount not less than One Hundred Thousand Dollars and Zero Cents (\$100,000.00) is required of the Contractor to guarantee that it will perform the work in strict accordance with Agreement Documents and shall pay all debts incurred under this Agreement. The Surety named in the Bond must be authorized to do business in the State of Colorado.

B. This Bond must be either renewed annually by the Surety named in the Bond or replaced with an identical Bond covering the subsequent year of the Agreement issued by another Surety which has been approved in advance by the CEO. If the CEO does not receive written notice from the Surety in the manner provided in the Bond at least one-hundred and twenty (120) days before it expires or does not receive a substitute Bond in the form required by the City from an approved Surety at least one-hundred and twenty days (120) before the Bond expires, then the Contractor shall be in default of this Agreement and the CEO may immediately terminate this Agreement by giving the Contractor written notice of such default. If the City elects to extend the Agreement for additional periods at the same prices, terms and conditions pursuant to Section 3.2 of this Agreement, the Contractor shall obtain and submit either an extension of the existing Performance, Payment and Guarantee Bond or the an identical Bond from another Surety that is acceptable to the City.

C. Under no circumstances shall the City be liable to the Contractor for any costs incurred or payments made by the Contractor to obtain an extension of an existing Bond or a new Bond.

D. The only acceptable alternative to a Performance, Payment, and Guarantee Bond is an Irrevocable Unconditional Letter of Credit from a local financial institution acceptable to the City and County of Denver in the amount of One Hundred Thousand Dollars (\$100,000). Renewal of said Irrevocable Unconditional Letter of Credit during the term and any one-year extensions of the Agreement shall be as set out above with respect to the Performance, Payment, and Guarantee Bond.

E. The City's forms of Performance, Payment and Guarantee Bond or Irrevocable Unconditional Letter of Credit must be used. Those forms are attached to this Agreement and incorporated herein as **Exhibit F**. Attorneys-in-Fact who sign Performance, Payment, and Guarantee Bonds must file with such Bonds a certified copy of their Power-of-Attorney to sign such Bonds that is certified to include the date of the Bond.

The Contractor shall make available to each proposed subcontractor, prior to the execution of the subcontract, copies of the Contract. In addition, all work performed for the Contractor by a subcontractor shall be pursuant to an agreement between the Contractor and the subcontractor which shall contain provisions that:

A. Preserve and protect the rights of the City and its funding agencies under the Contract with respect to the work to be performed so that the subcontracting thereof will not prejudice those rights; and

7.04 NO CONTRACTUAL RELATIONSHIP

The City does not intend that this Section 7, or any other provision of this Contract, be interpreted as creating any contractual relationship between the City and any subcontractor. The City does not intend that its approval of a subcontractor will create in that subcontractor a right to any subcontract. The City's approval of a subcontractor does not relieve the Contractor of its responsibilities to the City for the work to be performed by the subcontractor.

SECTION 8 – WAGES AND SALARIES

8.01 PAYMENT OF PREVAILING WAGES

A. Pursuant to Section 20-76 of the Denver Revised Municipal Code, the Contractor and each of its subcontractors shall pay every worker, laborer or mechanic employed by it directly upon the site of the work under this Contract the full amounts accrued at the time of payment, computed at wage rates not less than those shown on the current prevailing wage rate schedule for each class of employees performing work for the Contractor and its subcontractors under this Agreement. The wages shall be those prevailing as of the date of this Contract, and the Contractor shall post in a prominent and easily accessible place in its work area at the Airport, a copy of the wage rates for the positions or positions to which the prevailing wage ordinance applies. All construction workers, mechanics and other laborers shall be paid at least once per week; non-construction workers such as janitorial or custodial workers shall be paid at least twice per month.

B. The Contractor shall furnish to the City Auditor or his authorized representative, each week during which work is performed under this Contract, a true and correct copy of the payroll records of all workers employed to perform the work, to whom the prevailing wage ordinance applies. All such payroll records shall include information showing the number of hours worked by each worker, the hourly pay of such worker, any deductions made from pay, and the net amount of pay received by such worker for the period covered by the payroll. The payroll record shall be accompanied by a sworn statement of the Contractor that the copy is a true and correct copy of the payroll records of all workers performing such work, either for the Contractor or a subcontractor, that payments were made to the workers as set forth in the payroll records, that no deductions were made other than those set forth in such records, and that all workers were paid the prevailing wages as set forth in this Contract.

C. If the term of this Contract extends for more than one year, the minimum City prevailing wage rates which contractors and subcontractors shall pay during any subsequent yearly period or portion thereof shall be the wage rates in effect on the yearly anniversary date of this Contract which begins such subsequent period. Decreases in prevailing wages subsequent to the date of this Contract shall not be effective except on the yearly anniversary date of this Contract. In no event shall any increases in prevailing wages result in any increased liability on the part of the City and the possibility and risk of any such increase is assumed by the Contractor.

D. If the Contractor or any subcontractor fails to pay such wages as required herein, the City Auditor shall not approve any warrant or demand for payment to the Contractor until the Contractor furnishes to the Auditor evidence satisfactory to the Auditor that such wages so required by this Contract have been paid. The Contractor may utilize the procedures set out in D.R.M.C. §20-76(d)(4) to satisfy the requirements of this provision.

E. If any worker to whom the prevailing wages are to be paid, employed by the Contractor or any subcontractor to perform work hereunder, has not been or is not being paid a rate of wages required by this Section 8, the CEO may by written notice to the Contractor, suspend by a stop-work order or terminate the Contractor's services hereunder, or the part of such services performed by such workers. The issuance of a stop-work order shall not relieve the Contractor or its sureties of any obligations or liabilities to the City under this Contract, including liability to the City for any extra costs incurred by it in obtaining substitute services for the removal of rubber and paint from Airport facilities while any such stop-work order is in effect or following termination for such cause.

F. In the event the unsatisfactory performance is not corrected within the time specified above, the City shall have the immediate right to complete the work to its satisfaction and shall deduct the cost to cover from any balances due or to become due the vendor. Repeated incidences of unsatisfactory performance will result in cancellation of the agreement for default.

Time is of the essence of this Agreement. All work shall be accomplished in an orderly and responsible manner in accordance with recognized standards and the plans and specifications.

Premises shall be kept clean and neat. Materials, scrap and equipment not having further use at the site shall be promptly removed from the job site. Disposal of contractor waste materials in the City's containers or anywhere on DEN property is prohibited unless prior permission has been granted.

3. MANDATORY REQUIREMENTS

The Contractor shall provide all personnel assigned to this contract, vehicles, equipment, tools, materials, supervision, all service items, necessary escorting, and all other items necessary to perform required maintenance of pretreatment devices along with the associated drain lines servicing common use areas. The critical areas where such contracted maintenance is to occur shall include but may not be limited to trunk drain lines, sand traps, grease traps and associated drain lines at all locations flowing to active grease traps and/or active sand traps (collectively called pretreatment devices).

The frequency of all maintenance activities including, but not limited to, grease line maintenance (jetting) and grease trap and sand trap maintenance (pumping) is based on the results of DEN's inspection and maintenance program. The Contractor shall provide a service schedule 24-hours prior to the contract compliance supervisor for all regularly-occurring bid items, including all quarterly, tri-annual, and biannual scheduled pretreatment devices. The contract compliance supervisor, or his/her designee, shall notify the Contractor to schedule service for all bid items maintained on an "As-needed basis" only. The Contractor shall be responsible for coordinating all maintenance activities. Whenever onsite, the contractor shall notify the Maintenance Control Department at (303) 342-2800. The Maintenance Control Department shall notify the Contract Compliance Technician ("CCT") on-duty, and the CCT shall verify the work has been completed satisfactorily by signature. Only invoices that contain detailed information including grease and/or sand trap location, quantity pumped, pump and jet dates, and copies of all service slips signed by a CCT, will be eligible for payment for that billing period.

When grease and sand traps are pumped out, they shall be pumped dry. The Contractor will be responsible to wash all sides of the trap and clean with water when available and upon the request of the DEN contract compliance supervisor or his/her designee (see **3. MANDATORY REQUIREMENTS**, paragraph 6).

All the contents of the grease and sand traps will be taken off airport property and properly disposed of in an appropriately permitted facility. At no time will the contents of the grease and sand traps be recycled and dumped back into a pretreatment device located on DEN. The Contractor shall provide the DEN contract compliance supervisor with a receipt for the content disposal from the wastewater reception facility or disposal facility monthly upon request.

Any spillage that may occur while pumping pretreatment devices must be cleaned up using degreaser or an equally effective product. All costs associated with the cleanup and disposal of materials that are the result of Contractor activities shall be borne by the Contractor. Any cleaner proposed for this activity must be approved by the DEN contract compliance supervisor prior to use. **All spillage shall be reported immediately to the Denver International Airport Maintenance Control Center, 303-342-2800.**

At the request of DEN, the Contractor shall conduct confined space entry ("CSE") for inspection or cleaning, at the unit rates provided herein. CSE shall be conducted in accordance with all applicable airport, local, state, OSHA, and federal rules, regulations, statutes, laws, and orders (Environmental Requirements). Contractor shall receive prior approval for all CSE. Other system maintenance items will be conducted as requested by DEN and will be invoiced pursuant to the unit rates provided herein.

4. GREASE LINE MAINTENANCE

The Contractor will be responsible for providing the services required to ensure the proper operation of the trunk lines and associated infrastructure leading to the grease traps at DEN,

including the line between the primary and secondary grease traps. The preferred maintenance approach is jetting, however other methods may be proposed by the Contractor and accepted by the contract compliance supervisor, such as snaking/routing.

The Contractor shall implement corrective actions as appropriate to ensure proper operation of the system.

Tenants are responsible for ensuring the proper operation and maintenance of the grease lines leading from their area of operation to the trunk line.

DEN will be responsible for servicing the exit lines.

5. GREASE TRAP MAINTENANCE

When grease trap maintenance is required, the contractor shall break up the grease cap and mechanically stir the grease within the trap. All grease trap maintenance shall be conducted between 10 pm and 6 am unless otherwise authorized by the DEN contract compliance supervisor or his/her designee.

6. SAND TRAP MAINTENANCE

All sand trap maintenance on the concourse ramp level shall be conducted between 10 pm and 6 am unless otherwise authorized by the DEN contract compliance supervisor or his/her designee.

7. SPECIALIZED EQUIPMENT REQUIREMENT

Contractor shall be required to have a minimum of one (1) piece of pumping equipment/unit capable of servicing the parking structures and tunnels and shall not exceed eight (8) feet in height.

SECTION B: SERVICE REQUIREMENTS

1. STANDARD WORK HOURS

Standard work hours are defined typically as being between the hours of 10 pm and 6 am excluding Saturdays, Sundays, and Federal Holidays. However, work can be scheduled at any time per the direction of the DEN contract compliance supervisor at the Regular Service Rates.

2. REGULAR SERVICE

Regular Service means any inspection, repair, maintenance, and pumping activities that are scheduled in advance and are not the result of "emergency service." Regularly scheduled line maintenance and grease trap and sand trap pumping may begin as early as 10 pm Monday and end as late as 6 am Friday, or as deemed appropriate by the DEN contract compliance supervisor to accommodate the flying public, DEN, and DEN's business partners. Regular scheduled service must be pre-approved by the DEN contract compliance supervisor or his/her designee.

3. EMERGENCY SERVICE

The Contractor must be able to provide emergency maintenance services based upon specific DEN needs 24 hours per day, 7 days a week, and 365 days per year. Emergency maintenance response time for any pretreatment device, from initial notification (via phone call or voicemail) to arrival

onsite, shall be no more than three hours. The Contractor shall identify at least one individual with a local telephone number and a local emergency response number for a pager or cell phone to contact in the event of an emergency (24/7/365 availability). All requests for emergency service(s) from Contractor and subcontractors shall be placed initially with the Contractor and the Contractor will be responsible for coordinating with subcontractor(s) for service. Only those activities that are deemed as an “emergency” by the contract compliance supervisor or his/her designee, and conform to the three hour response time, can be billed as “emergency” services. If the Contractor does not respond within three hours of initial notification the City reserves the right to pay the Contractor at the Regular Service rate and/or call an outside vendor to perform the service(s) at the Contractor’s sole expense. Scheduled services, regardless of the time of day, shall not be considered “emergency services.”

4. REPORTS

Annually, the Contractor shall furnish to the DEN contract compliance supervisor reports that summarize all services from the previous contract year. A separate report for each pretreatment device will be prepared that includes the specific information for the materials collected from DEN. The report must show at a minimum:

- a. Reporting period
- b. Number of occurrences that each location was pumped and/or jetted
- c. Description and total quantity of each item recycled/processed during the period
- d. Total hours and total dollars billed.

Additionally, the Contractor shall provide the following documentation annually:

- a. An updated emergency contact list, including subcontractors
- b. Required training documentation as required by the DEN Environmental Management System (EMS)

The City reserves the right to request additional information, if required, when reviewing contract activity.

Monthly, the Contractor shall furnish to the DEN contract compliance supervisor a report showing the maintenance activities that occurred. At a minimum, the monthly report will include the following:

- a. Type of pretreatment device
- b. Location of device
- c. Description of work
- d. Date maintenance performed
- e. Number of hours to pump each sand or grease trap
- f. Gallons removed from the device
- g. Copies of service slips signed by a CCT
- h. Substantiating documentation justifying emergency service
- i. Additional comments with respect to trap issues, complaints, etc...

5. ADDITIONAL INVOICING INSTRUCTIONS

Invoices shall include all sufficient documentation in order for the City to verify transportation times, volumes pumped and disposed/recycled, dates, precise location of any maintenance activities conducted, and any repair work approved and conducted by the City. Failure to include sufficient documentation with the invoice shall result in the denial of all or part of the billing.

6. DISPOSAL

The Contractor and/or subcontractor will dispose of all non-recyclable materials covered under this Contract in strict accordance with applicable environmental regulations. The proposed disposal locations for the wastes generated from these activities must be approved by the City. Executive Order 115 specifies that all wastes generated from City owned facilities must be disposed of at the Denver Arapahoe Disposal Site (DADS) which is a City-owned Subtitle D landfill. Since this type of waste is typically treated at the Contractor's facility, this Executive Order does not directly apply. However, it is the desire of DEN to have the wastes from DEN disposed at DADS if possible and if acceptable by DADS.

7. INITIAL MEETING

The Contractor and Subcontractors shall attend a kick-off meeting prior to initiating any work. The Contractor and Subcontractors will be required to attend meetings at the request of the DEN contract compliance supervisor at any time during the term of this agreement.

8. WORK REVISIONS TO THE SPECIFICATION

The Contractor agrees that the City may at any time require deletions, additions, or modifications to the work, hereinafter referred to as "Work Revisions" without invalidating the Contract. Work revisions will be issued, in writing, and signed by the Manager of Aviation or his/her designee. The Parties agree that any modifications to the work (i.e. Work Revisions) that do not increase the Maximum Contract Liability shall not require a formal amendment to the contract.

If prior to formal issuance of a Work Revision the Contractor and the City can agree to a service price adjustment for the change, that agreement will be expressed in the Work Revision. Any work revision that will increase the Maximum Contract Liability may only be done by amendment to the Contract.

Even if agreement between the City and Contractor on price adjustments cannot be reached at the time the Work Revision is issued, the Contractor shall complete the work as necessary to accomplish the work required by the revisions. In such event, the Contractor shall be paid for the actual quantity or quantities of such work whether increased or decreased.

9. APPROVED AND LICENSED CONTRACTOR LIST

The Contractor and subcontractors for the pretreatment device pumping activities must be an approved and licensed contractor on the pre-approved City and County of Denver, Department of Public Works, Wastewater Management Division List.

10. AUTHORIZATION

The Contractor shall receive written authorization for any and all services provided that is not specifically detailed in the contract.

Pricing for the line items below, see Exhibit A-1: SAND AND GREASE TRAP LOCATIONS, are to reflect the use of one truck to provide services. If another truck is used then the vendor will charge the same price schedules for such use.

SECTION C: CONTRACTOR RELATIONSHIP WITH DENVER INTERNATIONAL AIRPORT

1. IDENTIFICATION REQUIREMENTS

The Contractor's representative is responsible for having all proper identification at all times. The Contractor and any subcontractors are responsible for obtaining DEN badges for site personnel at no expense to the City. In addition, if badges are lost or misplaced the Contractor or subcontractor is responsible for replacement.

Proper ID is to be worn on the outside garment or in compliance with DEN Badge requirements. Failure to do so may result in the Contractor being prohibited from performing the required services.

2. AUTHORITY AND DUTIES OF DEN CONTRACT MAINTENANCE DEPARTMENT

The day-to-day administration of the resulting contract to this scope of work is vested in the Manager of Aviation who has designated this authorization to the DEN contract compliance supervisor. The DEN contract compliance supervisor is a member of the DEN Contract Maintenance Department.

The DEN contract compliance supervisor and/or contract compliance coordinator is to decide all questions that may arise as to the interpretation of the Contract Documents as they relate to the scope of work as detailed herein.

The DEN contract compliance supervisor or his/her authorized representative is to determine the amount and quality of the work performed as it relates to this scope of work and the materials furnished which are to be paid for under the terms and conditions of the resulting contract.

The DEN contract compliance supervisor is to make temporary changes in the assignments, tasks, task frequencies or methods if such changes do not require additional equipment, chemicals, supplies or man-hours. Such changes shall not be considered modifications of the resulting Contract and shall not affect the amount of payment to Contractor.

The DEN contract compliance supervisor may appoint individuals such as CCTs to monitor and inspect the performance of the scope of work. The CCT shall be employees of DEN.

The CCTs are not authorized to revoke, alter or waive any requirements of this contract. The CCT are authorized to call the attention of the Contractor to any non-performance of the scope of work.

The CCTs are to have the authority to suspend work until any questions at issue can be referred to and decided on by the contract compliance supervisor.

CCTs shall conduct inspections of all work performed and shall have the authority to approve or disapprove such work and require that it be completed satisfactorily.

The CCT shall in no case act as a foreman or perform other duties for the Contractor nor interfere with the management of the work by the latter. Any advice and or direction given by the Contractor shall in no way be construed as binding to the City, or releasing the Contractor from fulfilling all requirements /aspects of the resulting contract.

SUSTAINABILITY POLICY AND GUIDANCE:

The City & County of Denver, through its Office of Sustainability and Executive Order 123, is committed to protecting the environment, and the health of the public and its employees. In accordance with this policy, City agencies are directed to procure cost-competitive products and services that minimize resource consumption and negative impacts on the environment and human health.

In requesting proposals for the City when specifically required in the evaluation criteria, expects all responsive proposers to demonstrate commitment to and experience in environmental sustainability and public health protection practices applicable to their line of services. The City during its evaluation processes will actively assess the quality and value of all proposals

Vendors, when applicable, are to follow standards and recommendations of the United States Environmental Protection Agency EPP program, the Green Seal organization, and standards and practices specified by the U.S. Green Building Council, including the Leadership in Energy and Environmental Design (LEED) program.
