REVIEW CRITERIA - AFFIRM THE PROPOSED ADU REZONING COMPLIES WITH THE CRITERIA BELOW BY CHECKING THE BOX NEXT TO EACH CRITERION

<p>General Review Criteria: The proposal must comply with all of the general review criteria. (Check box to the right to affirm) DZC Sec. 12.4.10.7</p>	<p><input checked="" type="checkbox"/> Consistency with Adopted Plans: The proposed official map amendment is consistent with the City's adopted plans, or the proposed rezoning is necessary to provide land for a community need that was not anticipated at the time of adoption of the City's Plan.</p> <p>Denver Comprehensive Plan 2040 The proposed map amendment is consistent with the strategies in the adopted Denver Comprehensive Plan 2040, including:</p> <ul style="list-style-type: none"> • Goal 2, Strategy A. Equitable, Affordable and Inclusive – "Create a greater mix of housing options in every neighborhood for all individuals and families" (p. 28). The proposed zone district allows for an additional dwelling unit that is accessory to the primary single-unit dwelling use. Accessory dwelling units can provide housing for individuals or families with different incomes, ages, and needs compatible with the single-unit neighborhoods. • Goal 8, Strategy A. Environmentally Resilient - "Promote infill development where infrastructure and services are already in place" (p. 54). The proposed map amendment will allow an additional housing unit on the site of an existing home where infrastructure and services such as water, stormwater, and streets already exist. This allows Denver to grow responsibly and promotes land conservation. <p>Blueprint Denver The proposed map amendment is consistent with the applicable neighborhood context, places, street type, and strategies in <i>Blueprint Denver</i>, including:</p> <ul style="list-style-type: none"> • Policy 4, Strategy E - Diversify housing choice through the expansion of accessory dwelling units throughout all residential areas. <p>Neighborhood/ Small Area Plan (list all, if applicable): <u>Sunnyside / Sunnyside Neighborhood Plan (1992)</u></p>

RE: 4690 N. Clay Street – Rezoning Narrative – U-SU-C, CO-7 to U-SU-C1, CO-7

Thank you for consideration of this rezoning application. The following narrative describes the existing conditions, the proposed design and outlines the basis of our rezoning request.

4690 N. Clay Street is a corner lot at the southeast intersection of West 47th Avenue and North Clay Street in the Sunnyside neighborhood. The existing lot measures 125 feet by 50 feet and gently slopes from the front lot line along Clay down to the public alley along the east. The property is fenced and minimally landscaped. Built improvements are located in the rear third of the site. Both Clay and W. 47th are local residential streets.

There currently exists a one-story, 700 sf single family residence located along the rear lot line. This original wood-framed home was constructed in 1947 and appears to have generally conformed to development regulations in effect at the time. However, the existing house is non-compliant with regard to setbacks, its location at the rear rather than within the front half of the site, and the lack of pedestrian access from the front of the property. The only other structure on the site – a detached shed – was removed by the owners in 2022. Immediately north of the existing house is a small planter bed adjoining the attached sidewalk. Immediately south is a concrete parking pad with vehicular access from the alley.

The property is a conforming zone lot of 125' x 50' (6,250 sf) and is currently zoned U-SU-C, CO-7. This zone district allows for a variety of residential building forms including Urban House, Suburban House and Tandem House with bulk plane and height limits generally allowing for a two to two-and-a half story primary residence. A variety of attached and detached non-residential accessory uses are also allowed in the district, up to one story.

The owners wish to redevelop the property under zone district U-SU-C1, CO-7 in order to construct a new, larger primary residence that will better serve the needs of their growing family in tandem with a new detached accessory dwelling unit and garage providing valuable additional living space and covered parking. The proposed design is “use-by-right” and will better conform to all applicable regulations of the new zone district. This includes:

1. Proper location of the primary and accessory structures on the site,
2. Conformance to setbacks and property boundaries,
3. Provision for pedestrian access from the front sidewalk,
4. Improved architectural character.

In addition, the owners wish to time a rezoning approval with anticipated approval of Denver's ADU Overlay regulations.

This type of rezoning has ample precedence in the Sunnyside neighborhood, particularly on corner lots owned by families looking to grow while maintaining Denver residency. Reasons to use rezoning as a tool to expand the allowed residential uses on a property include adding more children, taking on an older family member, and the like.

Beyond this justifying social and economic circumstance, the rezoning of individual properties to U-SU-C1, CO-7 has proven to be consistent with residential district regulations, neighborhood context, and zone district purpose and intent. This includes the reinforcement of regular block patterns, the predominance of street facing single and two-family residences, and the use of alleys to access parking and to serve accessory uses.

The proposed rezoning is also consistent with several of the adopted Denver Comprehensive Plan and Blueprint Denver goals and strategies including:

- Equitable, Affordable and Inclusive Goal 2, Strategy A – “Create a greater mix of housing options in every neighborhood for all individuals and families.”
- Environmentally Resilient Goal 8, Strategy A – “Promote infill development where infrastructure and services are already in place.”
- Future Neighborhood Context – “Embedding small, multi-unit residential within typically single and two-unit residential areas...”
- Future Place Type, Residential (Low) – “Predominantly single and two-unit uses on smaller lots. Accessory dwelling units and duplexes are appropriate and can be thoughtfully integrated ... buildings are generally up to 2.5 stories in height ...”
- Growth Areas Strategy – “Other areas of the city are still expected to see some growth, however more limited ...”
- Land Use & Built Form Housing Policy 4, Strategy E – “Diversify housing choice through the expansion of accessory housing units throughout all residential areas ...” and “A citywide approach to enable ADUs is preferred. Until a holistic approach is in place, individual rezonings to enable ADUs in all residential areas, specifically where proximate to transit, are appropriate.”

Thank you again and we look forward to working with you on this request.

Sincerely,

A handwritten signature in black ink, appearing to read "Collin C. Kemberlin". The signature is fluid and cursive, with a prominent initial "C" and a long, sweeping tail.

Outreach Relating to the Rezoning of 4690 N Clay

- **Sunnyside RNO meeting earlier in 2022.** This was before hiring Kemberlin Architecture, therefore I did not have drawings. I did explain the project over Google Earth and there was support for our project. I will schedule another meeting with them so I can update the committee with a site plan and renderings
- **Email to Councilwomen Amanda Sandoval's office on 2-24-23.** We have not received a response yet, just the automatic reply saying they are dealing with a high volume of emails currently. We hope to receive a reply in March.
- **Outreach to Neighbors (August 2022) .** We have had conversations with our neighbors at 4686 Clay Street and 4707 Clay Street about our project. They have given their support verbally.
