**5. General description or background of proposed request. Attach executive summary if more space needed:**

The initial project; S Broadway Wedge Ramp; was procured following the Brooks Act in 2016 to meet FHWA & CDOT requirements and design the scope proposed in the 2016 TIP. FHU was awarded the design contract during the initial procurement. As a result of early design efforts, it was determined that additional elements were necessary for safe conveyance of the traveling public.

The Project Team within Denver Department of Transportation and Infrastructure requested that Felsburg Hold & Ullevig, Inc. (FHU), prepare an Amendment to their contract for the I-25 & Broadway Interchange Reconstruction project to provide professional services for additional improvements related to the overall project. These additional improvements were identified through a yearlong study by a multi-departmental task force, to optimize the functionality and benefits of the project to the Public.

Funding for the original contract improvements was largely secured through the 2016 – 2021 DRCOG TIP program. Supplemental funding for the additional improvements was secured through the 2021 – 2023 DRCOG TIP program, and discretionary CIP funding through the City.
