Thank you again for reading through the information about the ballot measure...As mentioned before, a possible ballot measure would reduce the maximum time that the mayor, city council members, clerk and recorder, and city auditor could stay in office from three four-year terms to two four-year terms. This would mean that these elected officials could serve for at most eight years. The reduced term-limits would not apply to any currently serving elected officials.	109

Table 8

As you may know, there has recently been some discussion among Denver’s City Council members and the charter review committee about a possible ballot measure that would reduce the time elected officials in Denver can stay in office. Before we continue, you should know that there have been no decisions made about whether to place this ballot measure before voters this November. However, your participation in this survey will be an important part of the decision-making process. Let’s continue the survey now.

T6. A possible ballot measure would reduce the maximum time that the mayor, city council members, clerk and recorder, and city auditor could stay in office from three four-year terms to two four-year terms. This would mean that these elected officials could serve for at most eight years. The reduced term-limits would not apply to any currently serving elected officials. If an election were being held today, would you vote yes and approve or vote no and reject a ballot measure to reduce the term limits for the following Denver elected officials from three terms to two terms?

Table 8

As you may know, there has recently been some discussion among Denver’s City Council members and the charter review committee about a possible ballot measure that would reduce the time elected officials in Denver can stay in office. Before we continue, you should know that there have been no decisions made about whether to place this ballot measure before voters this November. However, your participation in this survey will be an important part of the decision-making process. Let’s continue the survey now.

T6. A possible ballot measure would reduce the maximum time that the mayor, city council members, clerk and recorder, and city auditor could stay in office from three four-year terms to two four-year terms. This would mean that these elected officials could serve for at most eight years. The reduced term-limits would not apply to any currently serving elected officials. If an election were being held today, would you vote yes and approve or vote no and reject a ballot measure to reduce the term limits for the following Denver elected officials from three terms to two terms?

Table 9

T6. A possible ballot measure would reduce the maximum time that the mayor, city council members, clerk and recorder, and city auditor could stay in office from three four-year terms to two four-year terms. This would mean that these elected officials could serve for at most eight years. The reduced term-limits would not apply to any currently serving elected officials. If an election were being held today, would you vote yes and approve or vote no and reject a ballot measure to reduce the term limits for the following Denver elected officials from three terms to two terms?

Table 10

T6. A possible ballot measure would reduce the maximum time that the mayor, city council members, clerk and recorder, and city auditor could stay in office from three four-year terms to two four-year terms. This would mean that these elected officials could serve for at most eight years. The reduced term-limits would not apply to any currently serving elected officials. If an election were being held today, would you vote yes and approve or vote no and reject a ballot measure to reduce the term limits for the following Denver elected officials from three terms to two terms?

Table 11

T6. A possible ballot measure would reduce the maximum time that the mayor, city council members, clerk and recorder, and city auditor could stay in office from three four-year terms to two four-year terms. This would mean that these elected officials could serve for at most eight years. The reduced term-limits would not apply to any currently serving elected officials. If an election were being held today, would you vote yes and approve or vote no and reject a ballot measure to reduce the term limits for the following Denver elected officials from three terms to two terms?

Table 12

We will now share some information from supporters and opponents of shorter-term limits for elected officials, the history of term limits in Denver, and more about why this ballot measure is being discussed. After reading the information, please indicate if you are more likely to vote yes and approve the ballot measure or if you are more likely to vote no and reject it. Let's get started:

T7. In 1994, Colorado voters approved an amendment to the state constitution that limited local elected officials to two terms in office. In 2000, Denver voters approved a measure to allow the city's elected officials to serve for three terms or 12 years. This ballot measure would change the limit back to two terms. Denver Term Limits Survey, 1,595n, +-2.45 MoE, May 8-13, 2024, Weighted Crosstabs

Table 12

We will now share some information from supporters and opponents of shorter-term limits for elected officials, the history of term limits in Denver, and more about why this ballot measure is being discussed. After reading the information, please indicate if you are more likely to vote yes and approve the ballot measure or if you are more likely to vote no and reject it. Let's get started:
 T7. In 1994, Colorado voters approved an amendment to the state constitution that limited local elected officials to two terms in office. In 2000, Denver voters approved a measure to allow the city's elected officials to serve for three terms or 12 years. This ballot measure would change the limit back to two terms. Knowing this information, are you:

Table 18

Thank you again for reading through the information about the ballot measure...As mentioned before, a possible ballot measure would reduce the maximum time that the mayor, city council members, clerk and recorder, and city auditor could stay in office from three four-year terms to two four-year terms. This would mean that these elected officials could serve for at most eight years. The reduced term-limits would not apply to any currently serving elected officials.

T13. If an election were being held today, would you vote yes and approve or vote no and reject a ballot measure to reduce the term limits for the following Denver elected officials from three terms to two terms?
Mayor

Table 18

Thank you again for reading through the information about the ballot measure...As mentioned before, a possible ballot measure would reduce the maximum time that the mayor, city council members, clerk and recorder, and city auditor could stay in office from three four-year terms to two four-year terms. This would mean that these elected officials could serve for at most eight years. The reduced term-limits would not apply to any currently serving elected officials.

T13. If an election were being held today, would you vote yes and approve or vote no and reject a ballot measure to reduce the term limits for the following Denver elected officials from three terms to two terms?
