RE: Official Zoning Map Amendment Application #2015I-00151 – 3801 Himalaya Road
Rezoning from B-2 with Waiver and Conditions to S-MX-3

Staff Report and Recommendation

Based on the criteria for review in the Denver Zoning Code, Staff recommends approval for Application #2015I-00151 for a rezoning from B-2 with Waiver and Conditions to S-MX-3 for the property located at 3801 Himalaya Road.

Request for Rezoning

Application: #2015I-00151
Address: 3801 Himalaya Road
Neighborhood/Council District: Gateway / Green Valley Ranch / Council District 11

RNOs: Far Northeast Neighbors, Inc.
Montbello 20/20
GVR Metropolitan District
Green Valley Ranch Citizen's Advisory Board
Inter-Neighborhood Cooperation (INC)
Northern Corridor Coalition
Denver Neighborhood Association, Inc.

Area of Property: Total: 4.0 Acres

Current Zoning: B-2 with Waiver and Conditions
Proposed Zoning: S-MX-3
Property Owner(s): HC Land Investments, LLC
Owner Representative: Layla Rosales

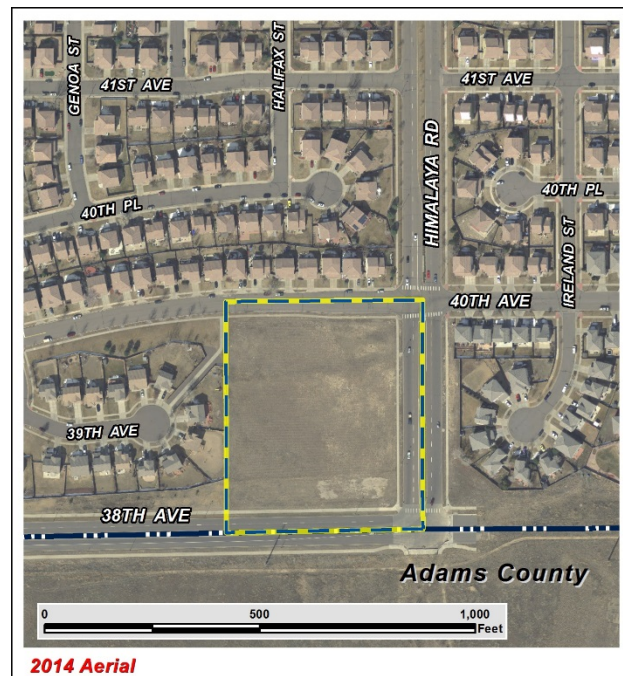

Summary of Rezoning Request

Located in northeast Denver in Council District 11, this property lies between 38th Ave and 40th Avenue along Himalaya Road, and lies at the boundary of Denver and Aroura along 38th Avenue. The surrounding area north of 38th Avenue in Denver is predominantly single family residential in a suburban context, while the property south of this arterial street in Aurora / Adams County is developing as commercial industrial park.

The property owner seeks to rezone the property with the intent of developing residential townhomes at this corner site. The requested zone district is S (Suburban) – MX (Mixed Use) – 3 (3 Story Maximum).

The Mixed Use building form is intended to promote safe, active, pedestrian-scaled diverse areas, and to ensure that new development contributes positively to established residential neighborhoods and character, and improves the transition between commercial development and adjacent residential neighborhoods within the character of the Suburban Neighborhood Context. Mixed use districts are appropriate along corridors and at major intersections. Further details of the zone districts can be found in Article 5 of the Denver Zoning Code (DZC).

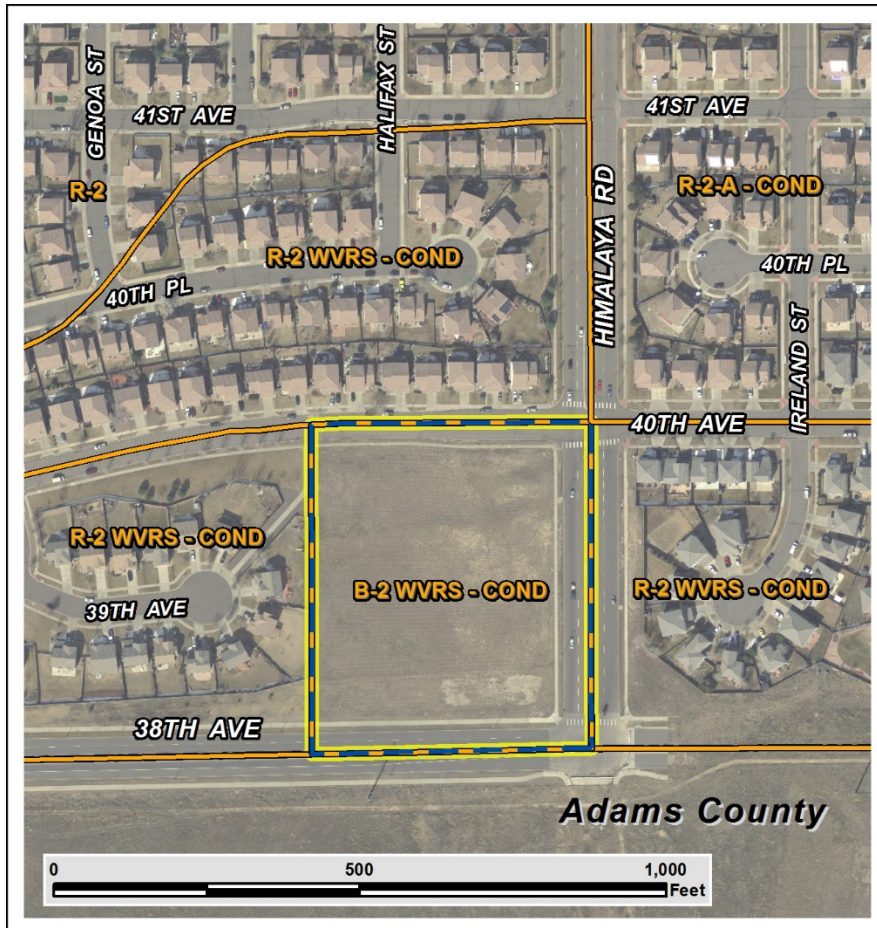

Existing Context

The property lies at a transition in land use from commercial industrial park fronting an arterial street to the south, to lower scale, suburban residential homes to the north.

The following table summarizes the existing context proximate to the subject site:

	Existing Zoning	Existing Land Use	Existing Building Form/Scale	Existing Block, Lot, Street Pattern
Site	B2 w W/C	Vacant	N/A	The property lies at the intersection of two arterial streets, including 38 th Ave. and Himalaya Road. 38 th Ave is the boundary between Denver and Aurora, and divides commercial arterial uses to the south (in Aurora) from residential uses to the north in Denver). 38 th currently dead ends at Himalaya road. Suburban single family homes in Denver back to Himalaya Road, and are directly accessed by local streets that connect to the arterial streets via collector streets along 40 th Ave and Ensenada St.
North	R-2 w W/C	Single Family Homes	1 ½ - 2 Stories	
South	(Aurora City Industrial Zoning)	Commercial Industrial	1 – 2 Stories (with tall ceiling heights)	
East	R-2 w W/C	Single Family Homes	1 ½ - 2 Stories	
West	R-2 w W/C	Single Family Homes	1 ½ - 2 Stories	

1. Existing Zoning

The zoning of B-2 with Waivers and Conditions allows for business uses intended to provide services and goods to satisfy the needs of surrounding residential neighborhoods. It also allows for single family residential dwelling units, but the multiple family residential dwelling units have waived. The property rezoned from B-4 to B-2 with waivers and conditions in 2000 based on changing conditions and the general agreement at the time that a business park was no longer feasible in this area. The waivers exclude multi-unit residential and drive through services. Conditions require a 30 ft. landscaping strip along 38th Avenue.

2. Existing Land Use Map

3. Existing Building Form and Scale

Site at 38th Ave and Himalaya Road (vacant land)

North – Single family residential (1.5 to 2 stories)

West (left side of image)– Single family residential (1.5 to 2 stories). Homes back to Himalaya with a substantial landscape setback between homes and the arterial street. **South (right side of image)** – Emerging commercial industrial / warehouse development in Aurora (1 – 2 tall ceiling stories).

East – Single family residential at the corner of 38th Ave and Himalaya St. (1.5 to 2 stories). Homes back to Himalaya with a substantial landscape setback between homes and the arterial street.

Summary of City Agency Referral Comments

As part of the DZC review process, the rezoning application is referred to potentially affected city agencies and departments for comment. A summary of agency referral responses follows:

Parks and Recreation: Approved – No Comments

Public Works – City Surveyor: Approved no Comments

Public Review Process

- CPD staff provided informational notice of receipt of the rezoning application to affected members of City Council and registered neighborhood organizations on March 15th, 2016.
- The property has been legally posted for a period of 15 days announcing the July 6th, 2016 Denver Planning Board public hearing, and written notification of the hearing has been sent to all affected registered neighborhood organizations and City Council members.
- A Council Planning and Neighborhood Committee review was held on July 20th, 2016 was noticed on July 5th.
- The **August 29th, 2016**, City Council Public hearing was published with a 21 day notice.
- **Applicant Outreach to Registered Neighborhood Organizations (RNOs)**
 - The applicant has reached out to the applicable neighborhood organizations listed on the cover page of this report, and held outreach meetings to engage surrounding residents and discuss development and rezoning proposals. Staff attended one of the meetings to respond to questions related to zoning and the rezoning process.
 - Three letters of support have been received, and two email strings of opposition plus one additional letter of opposition from one household of the opposing group.
 - Letters of support express support for the rezoning based on developer commitments to specific development features / design standards, and support based on a desire to see the vacant corner use for compatible residential townhome use.
 - Opposing emails raise concern about increasing density from a single family use to a townhome development density, and that this development would add too much traffic to the neighborhood. The current B-2 Zoning with W/C is preferred to allow for desired commercial uses (and ratio of open space).

- **Planning Board Hearing**

Three residents spoke at the planning board hearing on July 6th, one in support and two in opposition. A resident living next to the site spoke in support of a residential townhome project, suggesting that this was less impactful than a possible retail / business use on the site. Two opposing neighborhood residents cited concerns related to traffic impacts, spill over parking and over all intensity compared to the preferred development of single family homes. These residents spoke in support of neighborhood services / businesses (with preferred lower intensity) or single family homes rather than townhomes.

Criteria for Review / Staff Evaluation

The criteria for review of this rezoning application are found in DZC, Sections 12.4.10.7 and 12.4.10.8, as follows:

DZC Section 12.4.10.7

1. Consistency with Adopted Plans
2. Uniformity of District Regulations and Restrictions
3. Public Health, Safety and General Welfare

DZC Section 12.4.10.8

1. Justifying Circumstances
2. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

1. Consistency with Adopted Plans

The following adopted plans apply to this property:

- Denver Comprehensive Plan 2000
- Blueprint Denver (2002)

Denver Comprehensive Plan 2000

The proposal is consistent with many Denver Comprehensive Plan strategies, including:

Environmental Sustainability Strategies: 2-F: Promoting infill development within Denver at sites where services and infrastructure are already in place

Land Use Strategies: 3-B: Encourage quality infill development that is consistent with the character of the surrounding neighborhood that offers opportunities for increased density and more amenities.

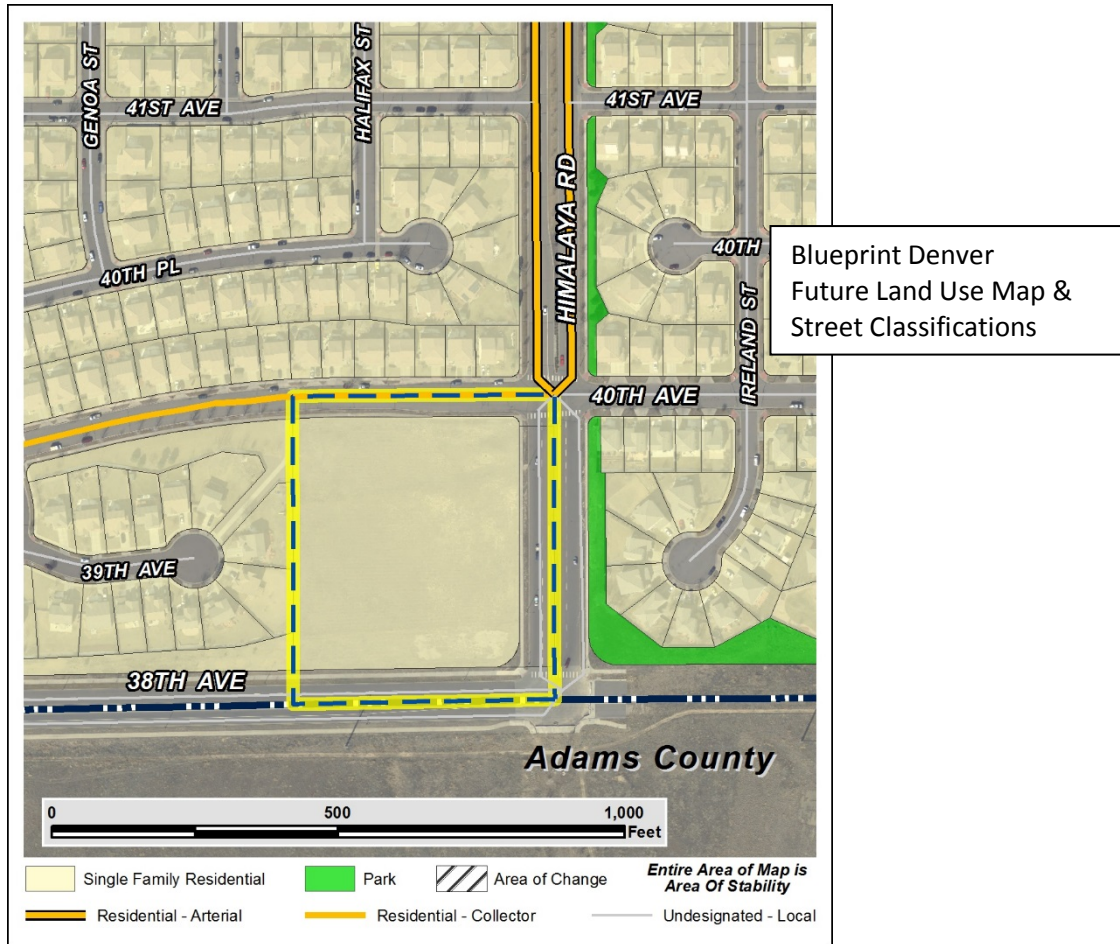

Neighborhood Strategies: 1-F – Invest in neighborhoods to help meet citywide goals and objectives for a range of housing types and prices, community facilities, human services and mobility.

The proposed map amendment will enable residential development at an infill location where services and infrastructure are already in place and to enable new development contributes positively to established residential neighborhoods and character, and that improves the transition between commercial development and adjacent residential neighborhoods within the character of the Suburban Neighborhood Context. The rezoning is consistent with these plan recommendations.

Blueprint Denver

According to the Plan Map adopted in Blueprint Denver, this site has a concept land use of Single Family Residential and is located in an Area of Stability.

Future Land Use

The Blueprint Denver Future Land Use for the property is 'Single Family Residential' in an 'Area of Stability.' Single family homes are the predominant residential type in this Land Use Area, (pgs 41-42), with neighborhood-wide densities averaging less than 10 units per acre, and often less than six units per acre. Single family neighborhoods are defined under a broader category of Residential Areas and Neighborhoods, which Blueprint Denver states: "A neighborhood is an area that consists primarily of residential land uses. A city should contain neighborhoods that offer a variety of housing types, as well as complementary land-use types such as stores, parks and schools that provide the basic needs of nearby residents . . . Neighborhoods are primarily residential but vary in density, size and adjacency of non-residential uses" (Page 41).

When paired with Blueprint Denver and City of Denver Street Classifications the proposed S-MX-3 zone district is compatible with the single family residential land use designation because of the greater

intensity and capacity of streets fronting the subject site. 40th Avenue is classified as a Residential Collector Street in Blueprint Denver Himalaya Road and 38th Avenue are classified as arterial streets by Denver Public Works (see map above and section on pg. 10, below).

The S-MX-3 zone district is intended to enable new development contributes positively to established residential neighborhoods and character, and that improves the transition between commercial development and adjacent residential neighborhoods within the character of the Suburban Neighborhood Context. The zone district allows for a variety of lower-scale general and residential building forms that enable the variety of types and density called for by Blueprint Denver. The S-MX-3 zone district is especially appropriate along arterial streets at an intersection that serves residential and emerging commercial industrial uses. S-MX-3 would provide a transitional mixed use between the intensity of commercial industrial uses to the south (as well as arterial streets on the south and east), and the single family residential to the north, west and east of the site.

Area of Change / Area of Stability

The site lies within in an Area of Stability. Blueprint Denver's Areas of Stability are intended to maintain the character of an area while accommodating some new development and redevelopment. The rezoning application is consistent with the Blueprint Denver Areas of Stability because it will enable minor infill development that is compatible with the existing residential character of the neighborhood to the east, and transition to the commercial industrial development south of 38th Ave.

Street Classifications

The property fronts Franklin Street to the north, a Residential Collector Street, as well as 38th Avenue and Himalaya Road which are classified by Denver Public Works as arterial streets. According to Blueprint Denver, "collectors are designed to provide a greater balance between mobility and land access within residential, commercial and industrial areas (pg 51). A residential collector streets is designed to emphasize walking, bicycling and land access over mobility. Residential streets are intended to be pedestrian oriented, giving a higher priority to landscaped medians, tree lawns, sidewalks, on-street parking and bicycle lanes.

Arterial streets connect neighborhoods to regional destinations and corridors of travel. Himalaya Road connects north to Green Valley Ranch Boulevard and 56th Avenue, while 38th Avenue connects west to Tower Road and Pena Boulevard via 40th Avenue. These corridors of travel provide convenient connections to DIA and I-70. 38th Avenue is shown connecting east to Picadilly Road in the Denver Strategic Transportation Plan on pgs. 33 and 34 as a future project. It is also shown in Aurora's Travel Framework Plan as a future major arterial street connection.

The S-MX-3 zone district is consistent with the Blueprint Denver future street classification of 40th Avenue as a residential Collector Street and 38th Ave and Himalaya Road as arterial streets. The proposed map amendment will support appropriate infill development in an area that Blueprint Denver identifies as single family residential, yet is bounded by Collector and arterial streets at the land use transition from residential to commercial industrial uses south of 38th Avenue.

Gateway Concept Plan (1990, Amended in 1993)

The Gateway plan map shows a concept land use of Office Research Park between 38th Ave and 40th Ave

Montbello / Green Valley Ranch Neighborhood Plan (1991)

The neighborhood existing zoning map (below) from pg. 12 shows B-4 between 38th Ave and Himalaya Road, with R-2 and R-2-A north of 40th Ave.

- B-4 is described as General Business District, intended for a variety of consumer and business services adjacent to arterial streets and abutting residential districts.
- R-2 is defined as Single and Multi-Unit Dwellings, Low Density at 14.5 DU's / acre.
- R-2-A is described as Multi-Unit Dwellings, Medium Density at 21.8 to 29 DU's / acre, depending on open space requirements.

The S-MX-3 zone district is consistent with these plan recommendations given the permitted mix of commercial and residential uses that are well-suited along arterial collector streets, and that are

intended to support a land use transition from more intensive commercial areas and arterial streets to residential areas.

2. Uniformity of District Regulations and Restrictions

The proposed rezoning to S-MX-3 will result in the uniform application of zone district building form, use and design regulations.

3. Public Health, Safety and General Welfare

The proposed official map amendment furthers the public health, safety, and general welfare of the City primarily through implementation of the City's adopted land use plans.

4. Justifying Circumstance

The application identifies several changed or changing conditions as the Justifying Circumstance under DZC Section 12.4.10.8.A.4, "The land or its surrounding environs has changed or is changing to such a degree that it is in the public interest to encourage a redevelopment of the area or to recognize the changed character of the area." This is an appropriate justifying circumstance for the proposed rezoning.

The following changed or changing conditions to the site and surrounding area apply:

- New commercial industrial uses have recently developed south of 38th Ave, with additional projects underway as part of an industrial business park in Aurora.
- The site has remained vacant since the development of single family residential occurred to the west, north and east from 1999 until 2002. The emergence of commercial industrial land to the south does not further support local demand for neighborhood serving commercial uses on the site.

5. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

The Suburban Neighborhood Context is characterized by single-unit and multi-unit residential, commercial strips and centers, and office parks. Commercial buildings are typically separated from residential, with single-unit residential uses that are primarily located away from arterial streets. The street and block pattern consists of block shapes surrounded curvilinear streets within a modified or non-existent grid, sometimes with cul-de-sacs and typically no alleys. Commercial buildings may have varying orientation and typically have deep front and side setbacks to accommodate landscaping and parking. The proposed rezoning to S-MX-3 is consistent with the Suburban neighborhood context description.

The Suburban context associated with the S-MX-3 zone district is intended to provide transitional mixed uses between the intensity of commercial uses, such as from commercial industrial uses to the south (and arterial streets on the south and east), to the single family residential to the north, west and east of

the site. The S-MX-3 zone district is intended to promote safe, active, pedestrian-scaled diverse areas, and to ensure that new development contributes positively to established residential neighborhoods and character. See DZC Section 3.2.4.1.

The Suburban Gateway Concept Plan and the Montbello / Green Valley Ranch Neighborhood plans encourage commercial and/or mixed use residential development between 38th Ave and 40th Ave. Blueprint Denver recognizes the potential for a variety of housing types and complementary land-use types, including complementary stores, parks and schools that provide for the needs of nearby residents. Blueprint Denver also provides a street classification for 40th Ave of Residential Collector which is intended to balance mobility with adjacent land use access, while 38th Ave and Himalaya Road are recognized by Public Works as Arterial Streets. The concept land use of these plans, the street classifications, and the existing land use context of commercial industrial uses at the intersection of 38th Ave and Himalaya Road are consistent with the purpose and intent of the S-MX-3 zone district as described in Article 3.1 of the Denver zoning Code.

Staff Recommendation

Based on the analysis set forth above, CPD staff finds that the application for rezoning the property located at 3801 Himalaya Road from B-2 with Waivers and Conditions to S-MX-3 meets the requisite review criteria. Accordingly, staff recommends that Planning Board recommend *approval of this rezoning application to City Council*.

Planning Board Recommendation

Following the public hearing, the Planning Board voted 8 in favor, 2 opposed (C. Smith and F. Schultz). The opposing votes were based on discomfort with the description of Blueprint Denver Areas of Stability and Single Family Residential concept land use within the surrounding land use context, and the potential commercial uses and scale of U-MX-3 at this location.

If the proposed Insured has or acquired actual knowledge of any defect, lien, encumbrance, adverse claim or other matter affecting the estate or interest or mortgage thereon covered by this Commitment other than those shown in Schedule B hereof, and shall fail to disclose such knowledge to the Company in writing, the Company shall be relieved from liability for any loss or damage resulting from any act of reliance hereon to the extent the Company is prejudiced by failure to so disclose such knowledge. If the proposed Insured shall disclose such knowledge to the Company, or if the Company otherwise acquires actual knowledge of any such defect, lien, encumbrance, adverse claim or other matter, the Company at its option may amend Schedule B of this Commitment accordingly, but such amendment shall not relieve the Company from liability previously incurred pursuant to paragraph 3 of these Conditions.
3. Liability of the Company under this Commitment shall be only to the named proposed Insured and such parties included under the definition of Insured in the form of policy or policies committed for and only for actual loss incurred in reliance hereon in undertaking in good faith (a) to comply with the requirements hereof, or (b) to eliminate exceptions shown in Schedule B, or (c) to acquire or create the estate or interest or mortgage thereon covered by this Commitment. In no event shall such liability exceed the amount stated in Schedule A for the policy or policies committed for and such liability is subject to the insuring provisions and Conditions and the Exclusions from Coverage of the form of policy or policies committed for in favor of the proposed Insured which are hereby incorporated by reference and are made a part of this Commitment except as expressly modified herein.
4. This Commitment is a contract to issue one or more title insurance policies and is not an abstract of title or a report of the condition of title. Any action or actions or rights of action that the proposed Insured may have or may bring against the Company arising out of the status of the title to the estate or interest or the status of the mortgage thereon covered by this Commitment must be based on and are subject to the provisions of this Commitment.
5. *The policy to be issued contains an arbitration clause. All arbitrable matters when the Amount of Insurance is \$2,000,000 or less shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. You may review a copy of the arbitration rules at <<http://www.alta.org/>>.*

All notices required to be given the Company and any statement in writing required to be furnished the Company shall be addressed to it at P.O. Box 2029, Houston, Texas 77252.

RE: 3801 Himalaya Road Rezone Application

Dear Mr. Watkins,

Terracina Design is pleased to present an application for the Rezone of 3801 Himalaya Road. The following narrative is in response to the Review Criteria of the application.

Consistency with Adopted Plans

Blueprint Denver and the Green Valley Ranch Neighborhood Plan support the rezone of this property from B2 to S-MX-3. Blueprint Denver designates this property as Single Family Residential in a "context" area of stability. In Blueprint Denver, Single Family Residential is defined as a neighborhood where "single family residences are the predominant residential type".

The Green Valley Ranch Neighborhood Plan identifies this site as being within a Neighborhood Business District; however the plan itself does not identify this site as an area to 'encourage retail business development'. Existing conditions are that all adjacent land within the City of Denver has been developed as residential.

The streets bordering the site; specifically 38th Avenue and Himalaya Road are classified as 'Mixed Use Arterial and Residential Collector respectively. East 40th Avenue borders the site to the north and serves residential areas within the immediate vicinity.

Rezoning this property reconciles any discrepancy in existing plans without detrimental changes to the allowed uses or additional impacts to existing neighborhoods. The proposed S-MX-3 zoning category is a mixed use category, allowing residential uses consistent with the Single Family Residential "context" of 'Blueprint Denver', the developed conditions of the surrounding residential areas and the existing B2- 'Neighborhood Business District'. In effect the rezoning removes the current 'waivers' that significantly restrict this site from developing in a manner most consistent with the existing plans. Furthermore the '*Design Standards in Business Zone Districts*' in the Green Valley Ranch Neighborhood Plan encourage pedestrian friendly site planning with buildings along the streets and parking in the rear, a development standard shared with the S-MX3 Zone District.

Uniformity of District Regulations and Restrictions

The current Zoning Code was adopted in 2010 and with it came the remapping of a majority of the City. Since its adoption the City has expressed a desire to build more conformity within the city by converting as much land as feasible over from the Section 59 zoning to current standards. Rezoning of this parcel from the current 'B2 with waivers' to the requested S-MX-3 will accomplish the aforementioned City goal and thereby entitle the use of the property as currently proposed and consistent with current regulations and restrictions.

Public Health, Safety and General Welfare

The proposed map amendment promotes the Public Health, safety and Welfare by aligning the use and development regulations for the property with those in the general area. The proposed zoning and use is

compatible with the existing area uses, is responsive to current market demands, and is not anticipated to generate impacts detrimental to the welfare of the area.

Justifying Circumstances

3801 Himalaya Road is located on the northwest corner of 38th Avenue and Himalaya Road. This site is midway along the the southern edge of the Green Valley Ranch community; surrounded on three sides by single family detached residential development and City of Aurora light industrial development to the south. The southern property line is bounded by 38th Avenue (Mixed Use Arterial) which provides a physical barrier between the residential uses in the Green Valley Ranch neighborhood and those existing light industrial uses to the south, essentially creating a transitional area appropriate for mixed use.

Current Zoning of 'B2 with Waivers' is a Business District that allows a variety of residential and business uses; such as but not limited to: senior center, religious assembly, retail, eating establishments, but excluding attached residential development. The proposed S-MX-3 zoning allows very similar uses, including attached residential development. The latter is the impetus for the requested zoning change.

City regulations state "The land or its surroundings has changed or is changing to such a degree that it is in the public interest to encourage a redevelopment of the area to recognize the changed character of the neighborhood." as a condition which justifies a change in zoning. As noted, the adjacent land within the City of Denver has developed as single family detached residential, leaving this site as a small satellite parcel, zoned to encourage commercial development, but without any opportunity for supporting commercial uses within a half mile or more. The likelihood of a successful commercial use on this site is low and furthermore would encourage incoming destination traffic into a predominantly residential pedestrian oriented neighborhood.

The adopted Green Valley Ranch Neighborhood Plan and the Development Regulations for S-MX-3 zoning both and encourage and specify pedestrian oriented, street facing development with parking internal to the site. Attached residential development can easily accommodate these requirements on a small site and within an enclave development that maintains the pedestrian scale and residential feel of the neighborhood, thus providing a proper transition between the light industrial uses to the south, the existing streets and the existing residential community.

Housing demand, and therefore housing cost is significantly high, with a market demand for affordable, low maintenance, lifestyle and pedestrian oriented living environments. Attached single-family homes, as an alternative to multi-family and single family detached residences are in high demand. The existing development within a half mile of this site is ideal for this market sector. The two elementary schools, acres of parkland and the connecting open space and trails support zoning that allows relatively higher density residential.

The classification and anticipated traffic of the adjacent roads is such that the site is less appropriate for traditional single family detached residential development with street facing garages; however the same infrastructure is ideal for supporting of the proposed zoning, specifically the relatively higher density of attached residential development that is best served by a proximity to these higher classification streets.

Consistency with Proposed Zone District

Neighborhood Context Description

The Suburban Neighborhood Context is characterized by single unit and multi-unit residential, commercial strips and centers and office parks. Single unit residential consists typically of Suburban House forms with street-facing garages. The Suburban Neighborhood Context consists of an irregular pattern of block shapes surrounded by curvilinear streets within a modified grid, with cul-de-sacs and typically no alleys.

Green Valley Ranch is clearly considered suburban due to the curvilinear pattern of the streets and dominant Suburban House form with street-facing garages.

General Purpose

- A. *The Mixed Use Zone Districts are intended to promote safe, active, pedestrian-scaled, diverse areas and enhance the convenience and ease of walking, shopping and public gathering within and around the city's neighborhoods.*

This property is located at the intersection of a residential collector and an arterial roadway making it an optimal location for a mixed use enclave, well suited to accommodate a small attached residential development.

- B. *The Mixed Use districts are appropriate along corridors, for larger sites and at major intersections.*

This property is located at the intersection of a collector and an arterial roadway making it an optimal location for the development of a mixed use enclave.

- C. *The building form standards of the Mixed Use Zone Districts balance the importance of street presence and provision of adequate parking through build-to requirements, ground story activation and parking lot screening along the right-of-way. Standards offer predictable flexibility consistent with the variety of mixed use development found in the Suburban Neighborhood Context.*

This site has frontage onto 38th Avenue and Himalaya Road making it well suited for a transitional density of residential development with a strong street presence to serve as a gateway into the Suburban Neighborhood Context.

- D. *The Mixed Use Zone District standards are also intended to ensure new development contributes positively to established residential neighborhoods and character, and improves the transition between commercial development and adjacent residential neighborhoods.*

Providing for attached residential uses on this site will allow it to develop in a manner consistent with the adjacent properties, neighborhood and citywide plans.

Specific Intent

S-MX-3 applies to areas or intersections served primarily by local streets or collector streets where a building scale of 1 to 3 stories is desired.

The Himalaya site is located at the intersection of an arterial and collector roadway making it an optimal location for the development of a relatively higher density residential product. The scale of 1 to 3 stories is consistent with adjacent development which is predominantly two story single family homes.

RE: 3801 Himalaya Road Townhome Development

To Whom it May Concern,

Over the past few months, Terracina Design has held several neighborhood meetings and addressed our shared concerns via phone and e-mail regarding the rezone and site plan for the development of townhomes on the vacant property located on the northwest corner of 38th and Himalaya. The neighbors have been provided a 'Neighbor Agreement' that addresses additional commitments the developer has made that are outside of the City's requirements. In summary I understand that:

- The site plan includes 48 townhome units with a maximum building height of 35 feet.
- Units/Buildings facing Himalaya Road will be limited to two (2) stories.
- The developer will provide a new fence along the west property line, with the fence to be maintained by the Home Owner's Association of the new development.
- Parking will be located on the east side of the western access drive on the site – as depicted on the Conceptual Site Plan.

Given the above commitments I support the rezoning of the property to S-MX-3 to allow for the development of townhomes per the Conceptual Site Plan presented.

Sincerely,

RE: 3801 Himalaya Road Townhome Development

To Whom it May Concern,

As a property owner and resident of Green Valley Ranch, I have reviewed the current proposal to allow townhomes at the northwest corner of 38th Avenue and Himalaya Road. Given the type of existing development in the area and appreciating the current demand for housing alternatives I can fully support this project.

I believe this residential project is compatible with the area and an appropriate use of a site that has otherwise sat vacant for many years. Therefore, I am voicing my support of the rezoning of the parcel to S-MX-3 to allow for the development of townhomes per the Conceptual Site Plan reviewed.

Sincerely,

Stephanie Sanchez

RE: 3801 Himalaya Road Townhome Development

To Whom It May Concern,

In regards to the Townhome Development Proposal at 38th and Himalaya, I give my full support. I own property and live in Green Valley Ranch; I've noticed growth over the years and believe this is a good thing. As a member of this community I don't only want to see it grow, but I want to see it thrive. I believe that a Townhome Development in place of a vacant lot achieves this goal. Again, I give my full support to rezone the parcel in order to allow the Townhome Development at 38th and Himalaya.

Subject: Re: Neighbors concern on townhouse development

Dear Stacie, Magen, John (GVR Chair), and Layla,

We, the neighbors, have been exchanging our concerns with regard to the proposed rezoning of the vacant land in 38th and Himalaya rd. Here is the summary of it:

1. The neighborhood is developed in early 2000s and the current zoning (B-2) of the vacant space is done with the intention of making convenience stores and other personal services available within walking distance. It greatly benefits all of us that it is used for the designated purposes. Moreover, we do not see the need for rezoning in such a short period of time.
2. The current zoning stipulates that any development should be consistent with the level of density and height of the existing residential neighborhood. The proposed rezoning and townhouse development has a very high density that it will compromise the integrity and ambiance of the the neighborhood. In fact, there is no any development in GVR with a with a similar density (not even close).
3. By comparison, the newly built Church in Himalaya rd and Green valley, not only is consistent with the B-2 zoning types of services, but also the ratio of built space to open space is proportionally maintained that it does not impose any shadow on the neighbors. The built space is surrounded by ample open space on all sides.
4. The warehouse development has already started to increase truck traffic to 38th. With the growing traffic in 38th and Himalaya, and a near future extension of 38th to Piccadilly, the newly built 48 units will add a huge traffic to the neighborhood. Moreover, garbage collection and other services to additional 48 units will unduly inconvenience and worsen traffic condition.
5. The neighbors adjacent to the vacant land have made their purchase decision based on the current zoning. The proposed rezoning will put us at a great disadvantage in terms of livability, desirability, and possible loss of value in the future.

For all these reasons, we do not support the proposed rezoning. We hope the city council, the GVR advisory board, and the developer understand the concerns of the neighbors and seriously consider the proposal.

NB: I tried to summarize the main points of the email discussions. Please add if I have missed anything.

Best regards,
Ermias

I hate to be blunt, but as an elected city council member, I expect you to represent the

residents that voted you in to office and can also vote you out of office next term, not the elite corporations who will make \$\$\$\$ at the cost of current residents and then move on. It seems like the current property owner should have not acquired the property if it wasn't zoned for their intended use.

I am not interested spending a significant amount of time fighting against zoning change or trying to compromise with Layla. I understand you may not be able to tell us how you will vote now, but if my view (and it seems like the majority's view) is not reflected in your city council vote, I will simply vote against you 2019.

I can hear from all view points though and I would suggest you reach out directly to Layla to share all your concerns. I'm not sure how many of the below emails have been shared with her to help frame a good information exchange about this topic.

You bring up good questions, I think it's fair to ask her to respond to them. Thanks for sharing your concerns.

Hi all,

I do not support the re-zoning as well. I cc'ed chair@mygvr.org, as well as, Stacie Gilmore. It sounds like the GVR Citizens Advisory Board does not have a position ya or nay and I am not sure if Stacie does. Please email chair@mygvr.org to let them know your position to help represent us as a whole.

Some concerns I have about the re-zone, other then I don't feel it will benefit the community, is if the re-zone does happen, is the current property owner committed to build or can they then sell the property with the re-zone without resident input on what would be developed by the new owner.

Hi,

I will not support the rezoning because it will not benefit the existing community but will have some negative impact. However, I don't think we are in a good position to oppose it without more people and a well crafted letter explaining how the current zoning is a better fit. I am not interested in taking a lead role in our rag tag resistance, but if someone else is, I will be happy to assist.

Attached are several documents (some of which you may already have). I also have the complete Denver Zoning Code, but the file is a bit large. Here are some links I found:

The more I look at it, the more I do NOT think it will benefit our neighborhood - fact it will make it worse.

I asked Layla about "where trash would go" and her reply was "at the end of the driveways". That I do not see working out well at all.

I agree with you that this will add to traffic 3-fold and it is already a dangerous intersection as it is.

I'm with Ermias and will NOT support this project.

I took the emails from the last email sent by Layla and added a couple of emails of our neighbors. Please feel free to add emails of other neighbors that are not included in the email list.

These are my concerns in brief.

1. The neighborhood is developed in early 2000s and the zoning of the (current) open space is done with the intention of making convenience stores available to the neighborhood. It benefits all of us that it is used for the designated purpose. See attached under B-2 zoning.
2. The proposed townhouse has a very high density that it will compromise the integrity and ambiance of the the neighborhood. I checked in GVR area, there is no any place with a similar density (not even close).

4. With the growing traffic in 38th and Himalya, and a near future extension of 38th to Piccadilly, the newly built 48 units will add a huge traffic to the neighborhood.

5. I spoke with few of the owners, there is a concern that such development will lower the value of existing properties in the immediate neighborhood.

For these reasons, I do not believe it is to our best interest to support the proposed development. Please chime in and share your concerns.

If you think it is better to meet in person, we can set a date/time/place and meet for 1 hour.

B-2 Neighborhood Business District:

This district provides for the [retailing of commodities classed as “convenience goods,” and the furnishing of certain personal services, to satisfy the daily and weekly household or personal needs of the residents](#) of surrounding residential neighborhoods. This district is located on collector streets, characteristically is small in size, usually is entirely surrounded by residential districts and is located at a convenient walking distance from the residential districts it is designed to serve. [The district regulations establish standards comparable to those of low density residential districts](#), resulting in similar standards. Building floor area cannot exceed the site area.

August 24, 2016

Dear City Council Members,

Our names are Mark & Molly McDonald. We have lived at 20726 E 39th Ave, Denver Colorado 80249 since 2001. We are writing to oppose the re-zoning of the 3801 Himalaya property.

It is our opinion that the re-zoning and intended development of multi-story high density attached housing would not be consistent with the surrounding single family detached housing, which would impact our neighborhood in a negative manner and rob us of a possible senior center, childcare center, religious assembly, or eating establishment, in which this property was originally intended for.

We believe that if the property owner did not want to use the property the way it was originally zoned, they should have not acquired the property. As residents of Green Valley Ranch, we acquired our property for its intended use and researched surrounding property for its intended use to ensure we were comfortable with the surrounding area and how it would be developed, according to development plans.

This is the second attempt by the current property owner to use the property for

something other than the intended use of the property. The first attempt to build storage units was abandoned after an HOA discussion occurred with the community voicing opposition. It is becoming increasingly frustrating to have to repeatedly fight against proposed rezoning changes when the neighborhood has not been fully developed and 39th Avenue has not been completely developed.

In addition, the property owner has stated that they have been unable to sell the property for its intended use, which suggests that they acquired the property knowing they would attempt to change the zoning. We have never seen any for sale signs or proof of advertising the sale of the property for its intended use, along with sale price information.

These are the primary reasons we oppose the re-zoning of the property at 3801 Himalaya

and ask that these concerns be considered by city council and a resulting “no” vote for rezoning the property at 3801 Himalaya.

Sincerely,

Mark & Molly McDonald
