5. Describe the proposed ordinance, including what the proposed ordinance is intended to accomplish, who's involved

a. Scope of Work

The proposed ordinance is for the design and construction of a new Data Center at the Airport. The selected Design-Build Contractor, under a new \$10,000,000 contract, will provide comprehensive design-build services for the design and construction the new DIA Data Center. Such design-build services include, but are not limited to, the design and construction of the data center facility including site development, facility and system commissioning, sustainable design and construction, LEED® administration and certification, facility certification by governing code authorities, the facility operational start-up, and project contract closeout.

b. Duration

20 Months

c. Location

DIA

d. Affected Council District

11

e. Benefits

DIA's existing data center spaces are approaching the service capacity in both electrical and mechanical availabilities. These capacity issues will reduce DIA Technologies Division's ability to effectively address all future internal and external customer requirements within the existing data center facilities.

f. Costs

\$10,000,000

6. Is there any controversy surrounding this ordinance, groups or individuals who may have concerns about it? Please explain.
