5. General description or background of proposed request.

In partnership with Denver Climate Action, Sustainability and Resiliency (CASR), Denver Economic Development & Opportunity's Workforce Development Division was awarded a State Opportunity Now grant in the amount of \$1,538,593.00 to increase the education and training capacity for electric vehicle maintenance technicians in the Metro Denver region.

Dollars will be distributed to 3 educational institutions including Red Rocks Community College, Pickens Technical College and Ohm on the Range. These organizations will implement these funds to allow them to enhance and expand automotive training classes' focus on electric vehicles.

The 3 organizations receiving funds are part of the Zero Emission Vehicles in Colorado Partnership (ZEVCP) who, as a group, identified the desire to pursue these funds with DEDO being the eligible backbone organization. Other Metro Denver educational organizations providing automotive training were invited to join this group when it first began and have been involved over the past 24 months.

This amendment extends the period of performance 6 months through October 31, 2026 and rescinds \$262,082.84 due to two less sub-contractors than anticipated partnering on this work.

6. **City Attorney assigned to this request:** Brian Martin

7. **City Council District:** Citywide
