Albus,

I absolutely support a smoking ban on 16th street (and all public spaces). Similar to NYC and other cities around the country Denver needs to create safe and healthy public spaces for individuals and families. As one of the healthier states I'm shocked this hasn't already happened. Our parks, our plazas, our streets should be a place all feel welcome and not filled with carcinogens.

Please let me know next best steps and what I can do to help with this effort.
