9. **General description or background of proposed request. Attach executive summary if more space needed:**

Amending the contracts for an additional five-year term is in the best interest of the airport to maintain continuity of service on the 7th Runway program. The current consultant teams bring critical institutional knowledge of the project's history, technical work, stakeholder coordination, and regulatory requirements background, which would be lost or significantly disrupted through a re-procurement process. Extending the 7th Runway program management contract directly supports DEN's Vision 100 pillar of Growing Our Infrastructure by advancing the work needed to deliver critical airfield infrastructure that will meet future passenger and operational demand.

Extending the contracts allows the program to move forward without delays, reduces transition risks, and maintains schedule certainty for key milestones, including NEPA and design advancement. It also supports cost efficiency by minimizing ramp up time and duplication of effort, while ensuring consistent delivery from teams already aligned with DEN's standards, processes, and project goals.

10. **City Attorney assigned to this request (if applicable):** David Steinberger

11. **City Council District:** Council District 11
