Executive Summary

The Division of Community Corrections/Electronic Monitoring Program is requesting an ordinance to approve a contract amendment with Alcohol Monitoring Systems (AMS) to provide monitored sobriety services utilizing transdermal technology. This amendment extends the term of the contract through October 31, 2013 and seeks to add an additional \$300,000.00 which exceed the provisions contained in Section 3.2.6(E) of the Charter.

The Denver Electronic Monitoring Program provides electronic monitoring services to clients sentenced by the courts or referred as a condition of probation.
