PROFILE

My career has developed through a variety of industries ranging from aviation to cultural non-profits to a social enterprise focusing on multicultural workforce development to public transportation. The three shared competencies of my professional path have been program development, relationship building and languages.

CORE COMPETENCIES

- Bilingual public relations and public information
- Community engagement
- Internal and external communications
- Relationship management
- Program development
- Non-profit organizations

CAREER HISTORY

North Denver Cornerstone Collaborative, City and County of Denver – Denver, CO **02/2017 – Present**
Director of Communications

The North Denver Cornerstone Collaborative (NDCC), an initiative of Mayor Hancock, is a coordinated effort among city departments and community partners to ensure integrated planning and deliberate connections among the converging projects taking place in Denver's Globeville, Elyria, Swansea (GES), and River North (RiNo) communities. I lead the agency's communications initiatives including media relations, marketing, internal and external communications, community communications, and all aspects of communications strategy and planning.

- Efficient use of communications channels to ensure transparent, accurate, and timely information to our diverse and bilingual audiences. After an assessment of our communications channels at the beginning of February 2017, we modified our strategy to increase amount of information pushed, include more Spanish language, share news of our community partners, and redesign our e-newsletter. NDCC's Facebook and Twitter experienced a growth in followers of 265% and 170% respectively between February and December 2017; while NDCC's news web section published 23 more articles than the previous year, and our e-newsletter achieved a 37% opening average.
- Strive to understand the communities we serve and reach them where they are with what they need. In collaboration with the NDCC team, we have resumed, and expanded, our presence in the community through open houses, participation in community-organized events, bringing city resources critical to those living in the GES neighborhoods; and expanding our financial support to community partners through sponsorships.
- Build partnerships to achieve a better understanding of NDCC's work. Working with NDCC's community relations director, we research, identify, and approach community partners- businesses, residents, and nonprofit organizations- whose goals we can support and whom can help us further our mission. One of our efforts to be a supportive partner is our "Community Spotlight," where we use our communications platforms and feature an article about one of our partners.
- Responsible for production of all print collateral (English and Spanish), web and social media content; script and produce video materials in collaboration with Channel 8; develop communications plans that support the NDCC's initiatives, prepare presentations for city agencies, City Council, and external organizations as needed; ensure Spanish translation and interpretation; write media advisories and news releases, replied to media inquiries and CORA requests; manage communications consultants, develop and manage communications operational budget.
