Project Summary

On behalf of ColRich Communities, SBSA Inc. is pleased to submit this Zone Map Amendment for the purpose of rezoning the zone lot containing the Woodstream Village Apartments and Dayton Crossing Apartments from R-2-A to S-MU-8 for Woodstream Village and S-MU-5 for Dayton Crossing. The existing zone lot is open-space rich, however the existing Planned Building Group (PBG) prohibits any redevelopment of the site which adds additional housing units, based on an imposed maximum of 633 units for the Zone lot, and also based on required land area and permitted density requirements in the Former Chapter 59 R-2-A zoning. Since the two existing 2 level parking garage structures on the Woodstream Village parcel are in need of structural repair and functional rehabilitation, ColRich is

interested in exploring removing and replacing one or both of these garages with new parking beneath or adjacent to a new apartment unit building, following rezoning approval.

- Land Use Strategy 4-A – *Encourage mixed-use, transit-oriented development that makes effective use of existing transportation infrastructure, supports transit stations, increases transit patronage, reduces impact on the environment, and encourages vibrant neighborhoods.*
- Housing Strategy 6-E – *Identify and capitalize on opportunities to develop housing along transit lines.*
- Economic Activity Strategy 1-H - *Support a variety of housing opportunities for Denver’s current and future workforce.*
- Neighborhoods Strategy 1-A - *Accommodate appropriate infill and development.*
- Neighborhoods Strategy 1-F - *Invest in neighborhoods to help meet citywide goals and objectives for a range of housing types and prices.*
- General - *Manage growth and change through effective land use policies to sustain Denver’s high quality of life.*

- General - *Expand housing options for Denver’s changing population.*
- General - *Compact Urban Development: Achieve a higher concentration and more diverse mix of housing options in identified areas of the city.*
- General - *Support addition of housing in expansion and infill development.*
- General - *Preferred Housing Development: Encourage housing development along transit lines.*

• Blueprint Denver 2002

The proposed Zone Map Amendment is consistent with many Blueprint Denver 2002 objectives, including:

- *Neighborhood reinvestment and character preservation creates stability in residential areas.*
- *Appropriately located and attractive density stimulates positive change and development in areas with strong links to transit.*

- *Future Development will be directed to areas where land use is closely linked to transportation.*
- *Reinvest in deteriorating infrastructure (i.e. on-site parking garages).*
- *Land Use Concept: Single Family/Duplex Residential includes a mixture of housing types, including single family homes, duplexes, townhouses and apartment buildings.*
- *Future Street Classification: S. Havana St. as Commercial Arterial.*
- *Future Street Classification: S. Dayton Way, E. Yale Ave. and E. Iliff Ave as Residential Collectors.*
- *Enhanced Transit Corridors (ETC): S. Parker Road & S. Havana St.*
- *ETC Quarter Mile Buffer includes 10050 & 10150 E. Harvard Ave. properties.*

• **Denver Transit Oriented Development Strategic Plan 2014**

The Proposed Zone Map Amendment is consistent with many Denver Transit Oriented Development Strategic Plan goals, including:

- *Connect: First/Last Mile - walk, bike, bus to the station*
- *Connect: Access to All – connect to new and existing neighborhoods*
- *Place: Vibrant – bring together people and activities*
- *Mix: Choice – housing, jobs, shopping, transit options*

Review Criteria: Uniformity of District Regulations

• **Current Zone District: R-2-A (Multi-Unit Dwellings, Medium Density)**

General Requirement:

- 2,000 square feet of land required for each dwelling unit unless site plan is submitted under the Planned Building Group (PBG) provisions, in which case 1,500 square feet of land is required for each unit. Home occupations are allowed by permit. Density = 21.8 dwelling units/acre (29 units/acre under PBG, depending on the open space requirements).

Existing Context: Land Use

- Multi-Unit Residential
- Adjacent to other Multi-Unit Residential and Office

Existing Context: Zone Lot / PBG

- 1 Zone Lot/PBG with two Assessor's Parcels: 10050 + 10150 E. Harvard Avenue & 2570 S. Dayton Way, Denver CO (both Parcels owned by ColRich Communities, San Diego, CA)

Existing Context: Highlights of Existing PBG/Zone Lot

- The PBG currently restricts the maximum building height to 68 feet and the maximum number of dwelling units to 633. The Woodstream Village Apartments parcel currently includes two 7-story apartment building and two 2-story parking garages.
- The number of required parking spaces for the PBG is 950 with 1148 provided.

- **Proposed Zone District for Woodstream Village: S-MU-8 (Suburban, Multi Unit, 8 stories Maximum)**

Specific Intent: Multi Unit 8 (S-MU-8)

- S-MU-8 is a multi-unit district and allows suburban house, duplex, town house, garden court, and apartment building forms up to 8 stories in height.

- **Proposed Zone District for Dayton Crossing: S-MU-5 (Suburban, Multi Unit, 5 stories Maximum)**

Specific Intent: Multi Unit 5 (S-MU-5)

- S-MU-5 is a multi-unit district and allows suburban house, duplex, town house, garden court, and apartment building forms up to 5 stories in height.

Review Criteria: Justifying Circumstances

- Reinvestment and beneficial infill redevelopment is occurring in the neighborhood of the Woodstream Village and Dayton Crossing Apartment properties - along the East Illif Avenue, South Parker Road and South Havana Street corridors. A photo survey of the existing Woodstream Village and Dayton Crossing Apartment properties, as well as examples of recent neighborhood development, are included at the end of this Application Attachment.
- Demand exists in the area for work force housing, including the Woodstream Village & Dayton Crossing Apartment complexes.
- Blueprint Denver identifies South Parker Road and South Havana Street as Enhanced Transit Corridors (ETC), and the Woodstream Village Apartments site is within the ETC Quarter Mile Buffer.
- The existing PBG is obsolescent in that it prohibits any redevelopment of the site which adds additional housing units, based on an imposed maximum of 633 units for the Zone lot, and also based on required land area and permitted density requirements in the Former Chapter 59 R-2-A zoning.
- Since the existing R-2-A zone lots surrounding the Woodstream Village/Dayton Crossing zone lot are Protected Districts, building heights within a 175 feet setback from the Woodstream Village/Dayton Crossing boundary line will be limited to 75 feet, which is only 7 feet higher than the 68' height limit imposed by the current PBG.
- The 8 story height limit for the proposed S-MU-8 Zone District for Woodstream Village is compatible with the existing 7 story Apartment building forms within that parcel.
- The 5-story height limit for the proposed S-MU-5 Zone District for Dayton Crossing is compatible with the existing 3 story Apartment building forms within that parcel.

Review Criteria: Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

- The properties adjacent to the existing Dayton Crossing and Woodstream Village parcels are a mix of multi-unit apartment buildings, office buildings, and structured parking. The existing PBG restricts the maximum building height to 68 feet. The intent of the Denver Residential zone districts is to promote and protect residential neighborhoods within the character of the Suburban Neighborhood Context.
- The proposed map amendment is consistent with the Suburban Neighborhood Context. Multi-unit building forms allowed in the proposed S-MU-8 zone district include mid to high rise Apartment building forms. Multi-unit building forms allowed in the S-MU-5 zone district include low to mid rise Apartment building forms.
