5. General description or background of proposed request. Attach executive summary if more space needed:

To provide on-call construction services as needed for construction work on municipal buildings. It is in the best interests of the Department of Transportation and Infrastructure and the City at large to extend these contracts beyond the standard three (3) years. All of these on-call agreements were procured together and awarded at the same time.

The vendors that have been providing Large On-Call Construction Services for The City and County of Denver have been performing well and provide an important resource for the City to implement construction projects. The current contract durations for the Large On-Call Construction Services vendors are set to expire on 6/26/2022. Under analysis of the remaining capacity of the current contracts, it is recommended to extend these contracts for an additional 2 years, + \$10M additional capacity added to each contract, with the removal of the \$5M work order limit, and removal/striking of the last sentence of this Term clause in the existing Large On-Call Construction Services contract (see page 3, and Fig. 1 below): "However, in no event shall the Term of this Agreement be extended by Work Order or Work Order Change for more than a year beyond the initial three-year term." The reasoning for the extension includes economic uncertainty in the mid-term making re-procurement scope unclear, and current vendors are well performing and progressing toward meeting DSBO goals. Formal procurement for the Large On-Call Construction Services will be set to issue new contracts once the extended contracts expire on 6/26/2024.
