

ON-CALL TECHNICAL SERVICES LOGISTICAL PLANNERS, LLC. 201207312-01, AMENDMENT 1

MARK BAKER
ACTING SENIOR VICE PRESIDENT OF AIRPORT INFRASTRUCTURE MANAGEMENT
JULY 2016

CONTRACT DESCRIPTION

- DEN presently has an on-call technical services contract to support the baggage system and the automated people mover (concourse train) with Logistical Planners, LLC (Logplan)
 - Services provided include design, construction management and operations and maintenance support related to these two important airport systems

REASON FOR CONTRACT AMENDMENT

- Anticipating a large number of upcoming airport projects that will impact both baggage and train systems
- Projects include:
 - System efficiency improvements to baggage system
 - Bag system equipment upgrade and replacement
 - Improvements to international bag handling
 - Additional train cars and train platform redesign
 - Train maintenance facility expansion
- Provide continuity of technical knowledge and services
- Contract capacity will be used within next 9 months

DESCRIPTION OF FIRM

- Respected local firm that provides highly specialized technical services
- Company headquartered in Denver, with offices internationally
- Works with local engineering and architectural firms
- Competitively selected originally
- Currently meeting MBE/WBE goal of 4.348%

CONTRACT TERM AND AMOUNT

- This is an existing on-call professional services contract
 - Current contract capacity: \$12 million
 - Amending to provide \$9 million in additional contract capacity for a new contract capacity of \$21 million
 - No additional time requested as the present contract contains capability for two one-year extensions
