MISSION

Our mission is to enrich the lives of present and future generations through the acquisition, presentation, and preservation of works of art, supported by exemplary scholarship and public programs related to both our permanent collections and temporary exhibitions.

VISION

We work together to build a world where art sparks creativity, and connects, inspires and empowers people and communities.

DAM's Collections reflect the region and world cultures—and provide invaluable ways to learn about other cultures and engage with objects and stories that define our shared humanity.

DAM believes that arts and culture are critical to the **well-being** of our communities, and that creativity should be accessible to all and is vital at all ages.

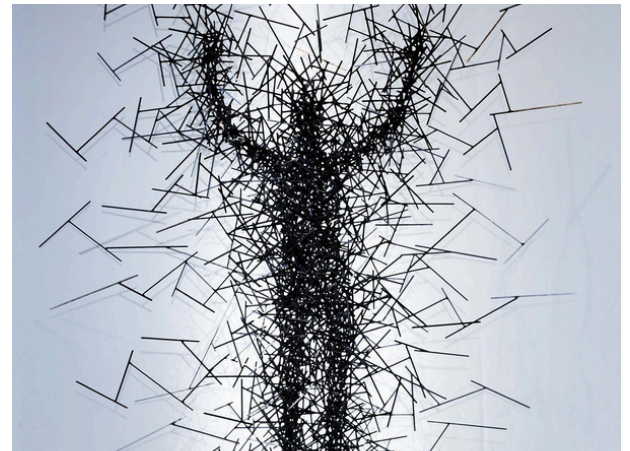

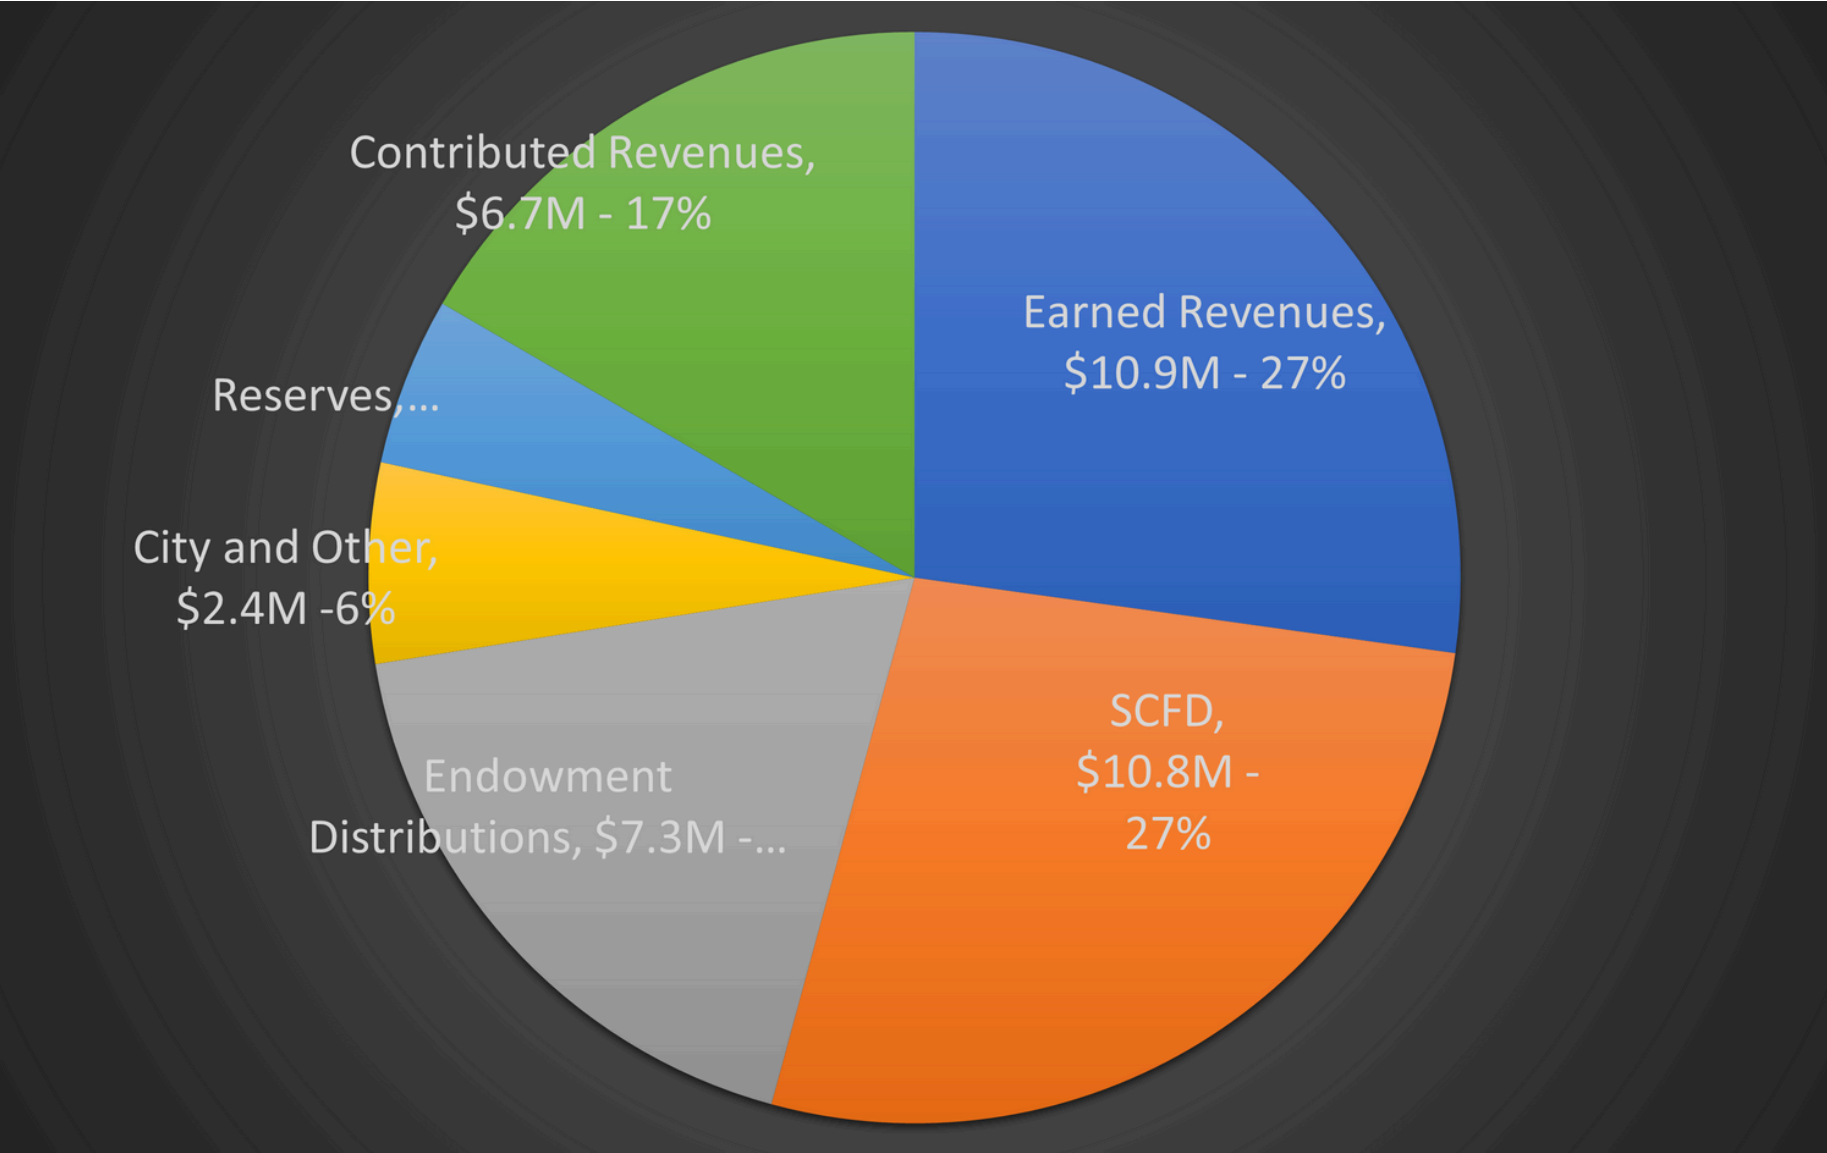

DAM is home to 70,000+ artworks

- Climate and humidity controlled art storage spaces in three museum buildings
- Collections staff are experts in art storage, cataloging & preservation
- Purpose-built conservation labs
