

August 18, 2017

**Att. LUTI Committee & City Council**

*Packard's Hill proposed historic district, West Highland, Dist. 1*  
**This topic will be presented at LUTI on Tuesday, August 22.**

**Enclosed you will find signature sheets from 76 supportive owners of properties in the area.**

The neighborhood outreach team has done an incredibly thorough and exhaustive job reaching out to neighbors, fostering conversation, informing themselves and neighbors about the ins and outs of historic districts, as well as answering questions.

Among other efforts, volunteers have done numerous rounds of individual property door knocking, sent five mailings through the post, as well as organized several meetings and walking tours, including two full district informational public meetings.

*As a result, this effort has had an incredibly high response rate. As anyone knows who has knocked on doors and asked for a commitment, it's incredibly difficult to get to an over 60% response rate (incl. supportive, opposed, or other response).*

The neighborhood volunteers have been extremely stringent with owners who are in support, checking against the Denver Assessor's records both to ensure that signers are indeed owners, as well as demonstrating that all owners of a property signed (for instance, if two spouses own a property jointly, there are two signatures for that property, on the sheet). Volunteers have also checked periodically to make sure owners who sold their property were removed from the support group.

**The volunteers feel that this very high support level lends the effort great legitimacy. They appreciate the opportunity to bring this forward in a democratic effort with strong popular support among property owners.**

The property owners in support of the proposed designation area of Packard's Hill recognize that the neighborhood character and history form a large part of what they value about their homes, their location and their property. Supporters believe preservation & complementary development are good for homeowners. They also appreciate the special history, especially women's history, represented in the neighborhood, and the highly intact collection of historic architecture. We are excited for you to learn more about our neighborhood.

If you have any questions about the proposed district or the outreach effort, please feel free to contact Marie Benedix ([marie.benedix@gmail.com](mailto:marie.benedix@gmail.com)) as a liaison for the applicant team.

Submitted with great appreciation for your time and consideration.
