

Xcel Energy Franchise & Energy Partnership Agreement

Budget & Policy Committee

June 8, 2026

Council & Community Priorities Update

What We Heard

What's New

Engage City Council and the community in the process

- Xcel Energy initiated a city-wide community engagement process, including RNO presentations, stakeholder group convenings, and a City Council listening tour
- City launched a working group with two appointed City Council members and broad community representation (e.g., labor, environmental justice, housing, affordability)

Leverage the Energy Partnership Agreement to advance the City's energy goals:

1. Affordability
2. Reliability
3. Sustainability

- Alignment of Energy Partnership Agreement with City's energy goals
- Inclusion of City and Xcel Energy energy transition goals

Advance community priorities:

1. Shareholder contributions
2. Energy assistance support
3. Pilots
4. Substation design
5. Reporting and transparency

- Negotiating for inclusion or strengthening of community priorities in the Energy Partnership Agreement

Energy Partnership Agreement Improvements

(Formerly the Energy & Infrastructure Agreement)

Negotiated Items (Bold → notable advancements since August 2025)	Standard	Boulder	Denver
Strengthened recognition of and commitment to the City's energy goals	✗	✓	✓
