**VAMOS**

Complete bike network in Denver for people  
of all ages and abilities.

Version 1.0: \$5 million in 3 years.

Sound familiar? Lots of support in the last election.

Encouraged by the response we're getting  
from the Mayor's Office.

Broad support: 50 leaders across Denver signed a letter asking the Mayor to take the next step.

*Dear Mayor Johnston:*

*In your 2027 budget, I encourage you to take the next step on VAMOS.*

**THE FUTURE WITH VAMOS**

CALL YOUR MOTHER

1291

Voters in Denver have wanted biking  
to be possible for a long time.

Low-cost, healthy transportation for all.

Fastest way to make Denver more affordable.

Great for local business & downtown.

# **THE CLASSIC PROBLEM**

Disconnected network built one bikeway at a time.

Too slow, too expensive, too much conflict.

**VAMOS IS THE SOLUTION**

How we actually implement Denver Moves Bikes.

Denver has all the ingredients.

Quiet neighborhood streets.

Designs for low-cost changes that  
reduce cut-through traffic.

Materials people like:  
pre-cast concrete, signs, paint.

A map of all the chill bike routes in Denver.

Precedent: Temporary Shared Streets.

The result: a complete v1.0 network  
in 3 years for \$5 million.

# **PROPOSAL TO THE MAYOR**

Don't build the complete network. Yet.

Current diverter pilot program: atomic unit.

Take an incremental step in 2027: molecular units.

Establish a proof-of-concept.

Show that people use it, neighbors love it,  
and the math works.

Consider building the complete network in 2028.

# **OPPORTUNITY FOR DENVER**

Deliver affordable transportation — savings of up to  
\$15,000 per year per family.

Increase access to local businesses and downtown.

Be a national leader. Deliver abundance.
