

## DEPARTMENT OF AVIATION CITY COUNCIL ORDINANCE REQUEST SUMMARY ECONOMY PARKING LOT PAVEMENT REHABILITATION - PHASE I

### Purpose and Use of Agreement

The proposed request is for a resolution approving a contract to rehabilitate the existing asphalt pavement in the East Economy Parking Lot at Denver International Airport (DEN). The condition of the asphalt pavement in the East Economy Parking Lot is declining rapidly. The frequency in which this parking lot is used, and the harsh elements exhibited in Colorado, continuously deteriorate the asphalt. Rehabilitating the parking lot with a concrete overlay will efficiently extend the life of the pavement. Construction is anticipated to be completed by the end of 2023, during which time the southern half of the East Economy Parking Lot will be closed. Simultaneously, repairs will be made to the shuttle routes, shuttle stops, and pedestrian access and wayfinding within the geographic boundaries of the project. The project will also add two snow storage pads to improve snow clearing operations.

### Contract Description

**Contract Project Name:** Economy Parking Lot Pavement Rehabilitation Phase I, RFP No. 202265100

**Term Including Options Years:** Notice to Proceed (NTP) plus 233 calendar days.

**Maximum Contract Liability:** \$11,155,331.32

### Vendor

IHC Scott, Inc.

### DSBO Goals

DSBO established 19% MWBE Participation Goal. IHC Scott, Inc. has committed to meeting 19.06% MWBE Participation
