Members of Denver City Council

dencc@denvergov.org

Denver, CO

Members of Denver City Council:

I am writing in support of the proposed rezoning at 1001 & 1003 S. Pearl St. in Denver. The property owner's request to create a PUD to allow the church building to be repurposed is a great solution to maintain neighborhood character and provide additional office space.

The property owner has spent nearly two years working closely with our community and I support the list of additional uses for the property as they will add to the vitality and walkability

of the neighborhood. Seeing the space be utilized for the newly proposed uses would bring additional revenue to our neighborhood and sounds like some great services as well.

Please vote in favor of the rezoning.

Sincerely,

Adam Donald

Members of Denver City Council,

I am writing in support of the proposed rezoning at 1001 and 1003 S. Pearl St. in Denver. The property owner's request to create a PUD to allow the church building to be repurposed is a great solution to maintain neighborhood character and provide additional office space.

The property owner has spent nearly two years working closely with our community and I support the list of additional uses for the property. They will add to the vitality and walkability of the neighborhood and stave off yet another opportunity for high rise apartment development with inadequate parking/infrastructure in an already over developed City.

Please vote in favor of the rezoning.

Respectfully,

Jill Christensen and Rachel Ledesma
