CITY COUNCIL ORDINANCE REQUEST SUMMARY – IBM Maximo & Tririga Hosting Services 1ˢᵗ Amendment

Name: PLANE-202158113-01 / Alfresco 201628452-01 – IBM Maximo & Tririga Hosting.
Term: 5 years original, with option to extend by one period for two (2) years
Amount: $5,288,972.00 (original contract value)

Scope of work: This amendment requests that the term be extend for two (2) years as allowed in original contract language via amendment. An additional $1,131,028 are being added to the contract.

This request is for a 1st Amendment to the International Business Machines Corporations (IBM) Maximo & Tririga Implementation Phases 2-5 and Hosting Services contract at Denver International Airport (DEN). IBM Maximo is DEN's Asset Management System and is used to track assets, schedule maintenance, maintain inventory for replacement parts, issue work orders, and produce reports for the critical infrastructure at DEN. The continuation of this project provides DEN with a hosting environment to run the Maximo application, as well as the required software licensing. The project also enables the development of additional software solutions based on the Maximo platform to meet the needs of DEN in Asset Management and critical infrastructure maintenance.
