DATE: November 6, 2014
RE: Official Zoning Map Amendment Application #2013I-00056 (revised)
6200 Leetsdale Drive
Rezoning from PUD 584 to S-CC-3x

Staff Report and Recommendation

Based on the criteria for review in the Denver Zoning Code, Staff recommends approval for Application #2013I-00056 for a rezoning from PUD 584 to S-CC-3x.

Request for Rezoning

| | |
|--------------------------------|--|
| Application: | #2013I-00056 |
| Address: | 6200 Leetsdale Drive |
| Neighborhood/Council District: | Washington Virginia Vale / Council District 6 |
| RNOs: | South Hilltop Neighborhood Association; Virginia Vale Community Association; Denver Neighborhood Association, Inc.; Inter-Neighborhood Cooperation |
| Area of Property: | +/- 40,201 square feet |
| Current Zoning: | PUD 584 |
| Proposed Zoning: | S-CC-3x |
| Property Owner(s): | Paul Naftel, Leetsdale Commons LLC |
| Owner Representative: | Bob Gollick, Robert J. Gollick, Inc. |

Summary of Rezoning Request

- The site is located in east Denver, in Council District 6, within the Washington Virginia Vale Statistical Neighborhood, on the south side of Leetsdale Drive at the northwest corner of Exposition Avenue.
- The rezoning is comprised of a single vacant parcel.
- The property owner, through his representative, is requesting rezoning in order to change the mix of uses allowed on the property.
- The current Former Chapter 59 Planned Unit Development (PUD) 584 applies to both the subject parcel and the adjacent parcel at 6150 Leetsdale Drive, owned by CubeSmart LP. Under the PUD, both property owners must consent to rezoning. If this rezoning is approved, the CubeSmart property will remain in PUD 584 while the subject property at 6200 Leetsdale will be rezoned to S-CC-3x in the Denver Zoning Code, thus separating the two parcels for zoning purposes.

Revision to Original Rezoning Request

This application was originally submitted as a request for a Denver Zoning Code PUD (planned unit development) zone district. The proposed PUD was based on the S-CC-3x zone district, with deviations to reduce height, limit some uses, and prohibit some uses. CPD staff provided informational notice of receipt of the PUD rezoning application to affected members of City Council and registered neighborhood organizations on July 3, 2014.

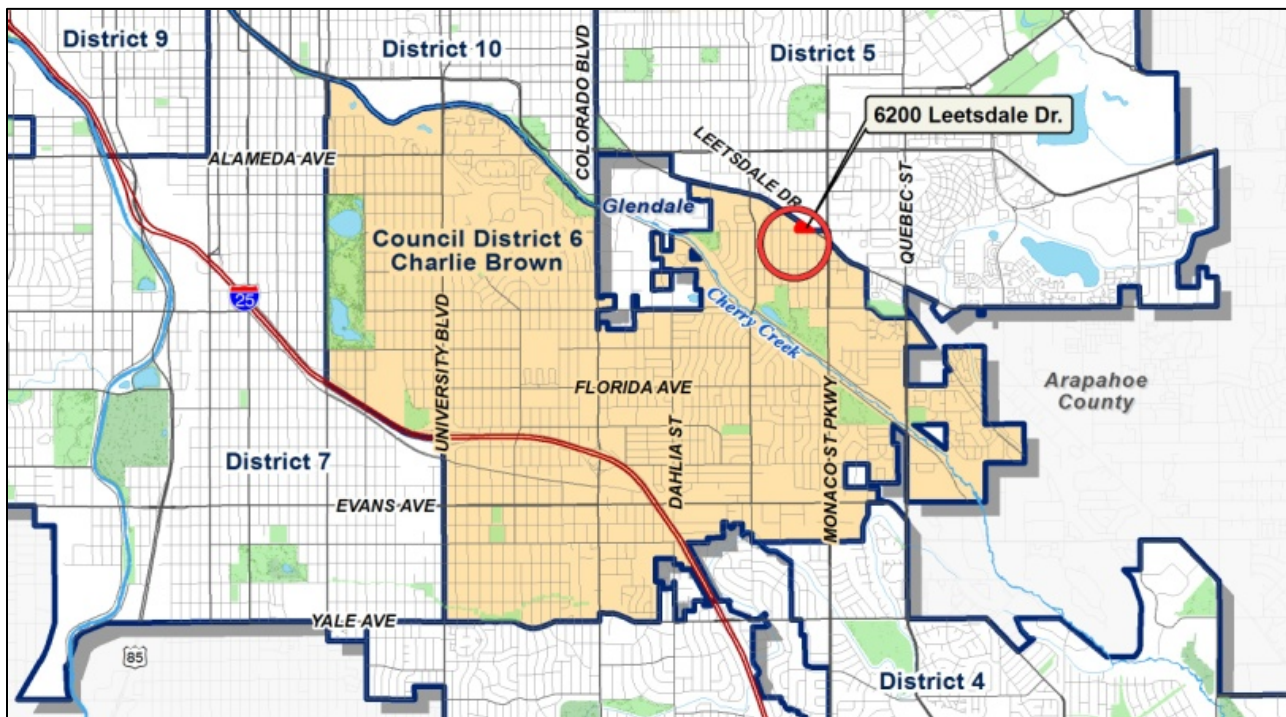

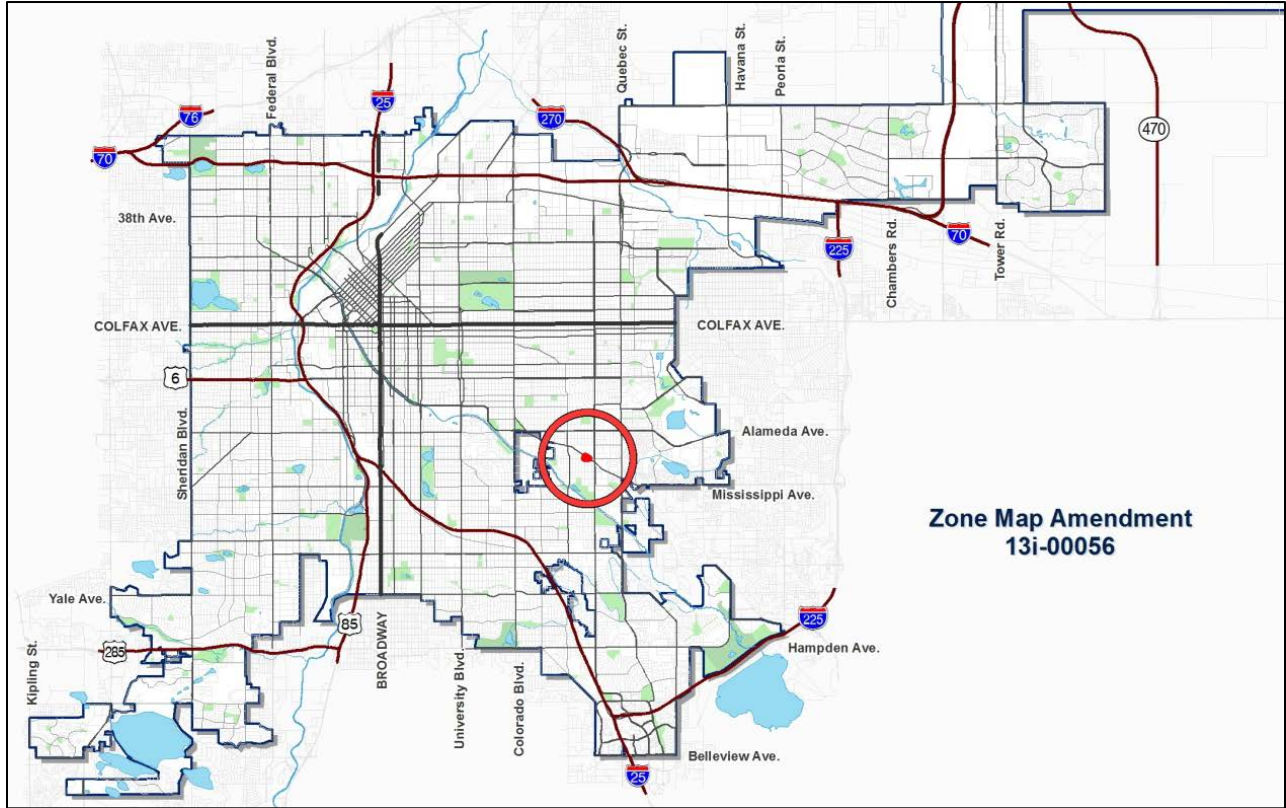

A Denver Planning Board public hearing was held on the PUD request on September 3, 2014, following proper 15-day posted notification and written notification sent to all affected registered neighborhood organizations and City Council members (on August 19, 2014). The Planning Board heard testimony from staff, the applicant, and six members of the public. The Planning Board voted 8-0 in favor of recommending approval of the application.

The application proceeded to a meeting of the Neighborhoods and Planning Committee of City Council on October 15, 2014, following proper written notification sent to all affected registered neighborhood organizations and City Council members (on October 1, 2014). Members of the Neighborhoods and Planning Committee expressed concern over the use of a PUD instead of a standard Denver Zoning Code zone district. They suggested, and the applicant agreed, to change the rezoning request to S-CC-3x (instead of a PUD based on S-CC-3x with deviations). The committee voted 6-1 to hold the rezoning bill in committee in order to allow the applicant to change their rezoning request to the S-CC-3x zone district.

Written informational notice of receipt of a revised application for S-CC-3x, instead of a PUD, was sent to all affected registered neighborhood organizations and city councilmembers on October 21, 2014. The application was also re-referred to agencies for comment.

Because the Denver Planning Board did not make a recommendation regarding S-CC-3x zoning, this case was re-referred to the Planning Board for a public hearing and recommendation on November 5, 2014. Following the Planning Board public hearing and vote, the rezoning is returning to the Neighborhoods and Planning Committee, and then continue through the usual rezoning process.

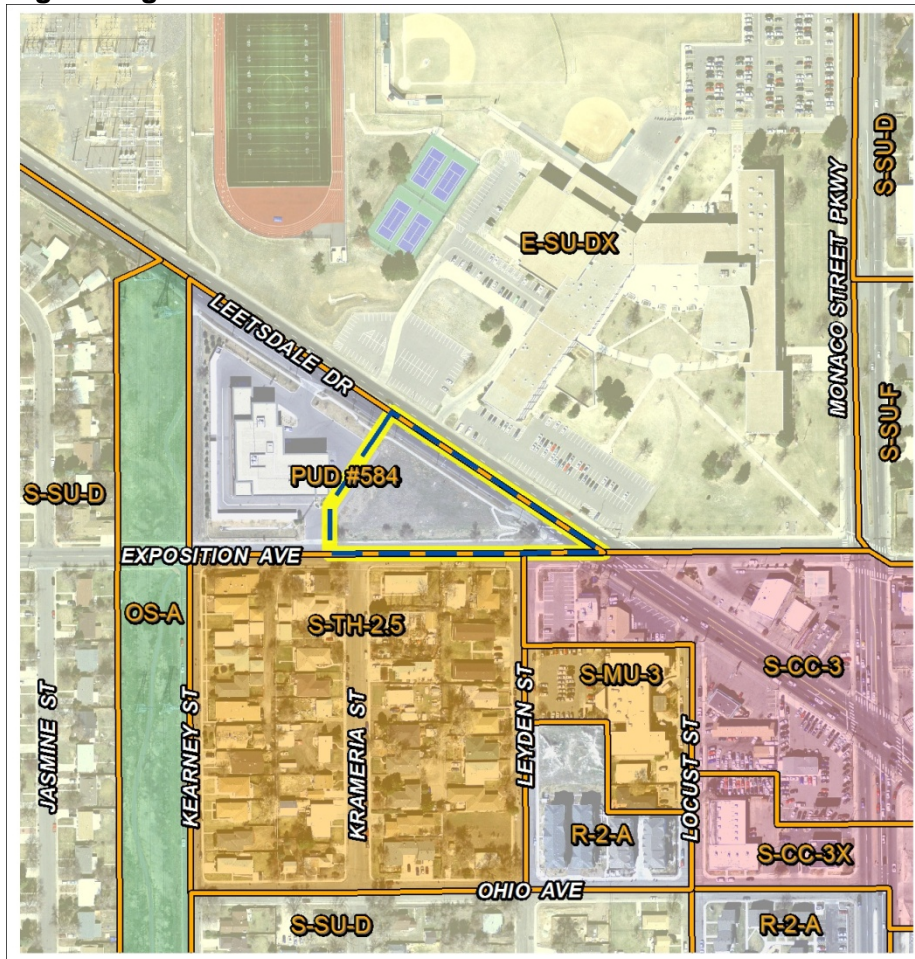

Existing Context

The following table summarizes the existing context proximate to the subject site:

| | Existing Zoning | Existing Land Use | Existing Building Form/Scale | Existing Block, Lot, Street Pattern |
|----------------|---------------------|-----------------------------|---|---|
| Site | PUD 584 | Mini-storage and vacant | 3- story building surrounded by drive and storage units; vacant | Generally regular grid of streets to the south; grid is broken by GW High School and Leetsdale Drive to the north. |
| North and East | E-SU-DX | High school | 4-story with deep setbacks and surface parking | |
| South | S-CC-3; S-TH-2.5 | 1- to 4-unit residential | Mostly 1-story and some 2-story residential buildings, typically with 20' front setbacks. | |
| West | OS-A | Utility/open space corridor | No buildings in the utility/open space corridor. Buildings farther west are typically one-story single-family structures. | In the neighborhood to the south, on-site vehicle parking is either not present, or typically to front of buildings, but occasionally from an alley. Most areas do not have alleys. |

The site is located at the northwest corner of Leetsdale and Exposition, across Leetsdale Drive from George Washington High School to the northeast. Immediately west is a 3-story mini-storage facility, and to the west of that is a utility line and open space corridor. The two blocks immediately south of Leetsdale, between Kearney and Leyden, are characterized by mixed lower scale residential including single family, duplexes, and multi-unit buildings. On blocks farther south and west, the neighborhood becomes predominately single-family residential. Retail and commercial uses predominate along the Leetsdale corridor, though other uses are mixed in some locations. RTD buses serve Leetsdale Drive as well as Monaco Street Parkway, one block east.

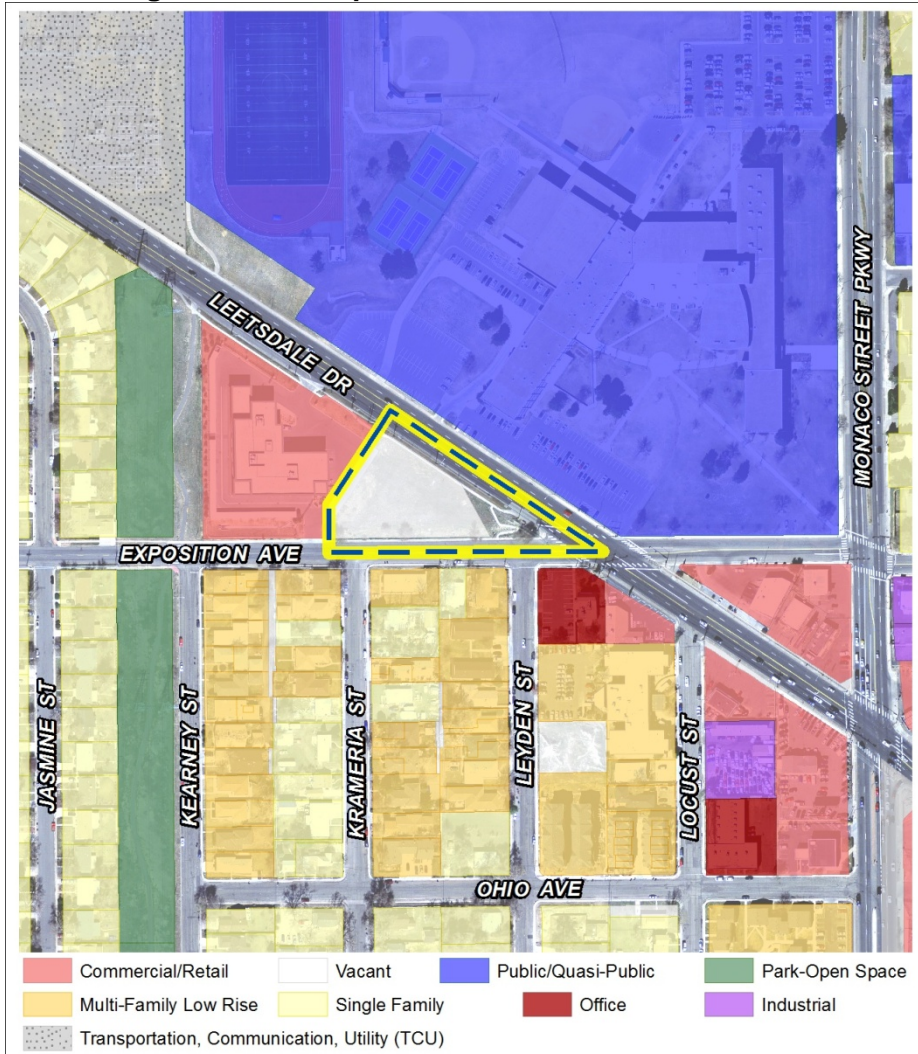

1. Existing Zoning

The existing PUD 584 zone district generally allows a mini-storage facility on the larger west parcel, which has been built. On the smaller east parcel, the subject of this rezoning, PUD 584 allows only B-1 zone district uses, which generally include residential, office, various institutional and utility uses and very limited specific small scale retail uses including banking, art gallery, apothecary, hearing aid store, optician, limited fabrication of orthopedic and prosthetic devices, and photographic studio. Building height on the subject site is limited to 2 stories and 32 feet. A maximum of 19,500 square feet of B-1 uses is allowed. The PUD also sets out parking,

landscaping, and other zoning requirements. The official copy of the PUD is on file with the Denver City Clerk.

2. Existing Land Use Map

Uses along Leetsdale Drive are typically retail or other commercial including some office, though utility and school uses are located along this stretch of Leetsdale as well. Two of the other three corners of this intersection include commercial/retail and office uses. Uses to the south are mixed single family and multi-family residential.

3. Existing Building Form and Scale (Google Maps images)

Subject site, looking west from Leetsdale Drive. Mini-storage is at center-right. Residential is at left across Exposition.

George Washington High School, across the street from the subject site, looking northeast.

Mini-storage facility immediately west of the subject site.

Residential buildings to the south, looking south from Exposition Avenue

Commercial/retail and office located on southwest corner of Exposition and Leetsdale.

Summary of City Agency Referral Comments

As part of the DZC review process, the rezoning application is referred to potentially affected city agencies and departments for comment. A summary of agency referral responses follows:

Asset Management: “Approved – No Comments.”

Development Services – Project Coordination: “Approve Rezoning Only - Will require additional information at Site Plan Review”

Development Services – Transportation: “Approve Rezoning Only - Will require additional information at Site Plan Review”

Development Services – Wastewater: “Approved - Comments are provided independent of any concept plans provided to the City. There is no objection to the rezone, however applicant should be under notice that the Public Works will not approve any development of this property without assurance that there is sufficient sanitary and storm sewer capacity. A sanitary study and drainage study may be necessary. These studies may results in a requirement for the developer to install major infrastructure improvements or a limit to development if current infrastructure is insufficient.”

Parks and Recreation: “Approved – No comments.”

Public Works – City Surveyor: “Approved – No comments.” The legal description dated September 2, 2014, was approved.

Public Review Process

- Please see the section “Revision to Original Rezoning Request” on page 2 for details of the review process prior to this Planning Board public hearing.
- The property was posted for a period of 15 days announcing the November 5, 2014, Denver Planning Board public hearing, and written notification of the hearing was sent to all affected registered neighborhood organizations and City Council members on October 21, 2014.
- **Registered Neighborhood Organizations (RNOs)**
 - Virginia Vale Community Association correspondence
 - An email in support of the earlier PUD request from Paul Aceto, representing the RNO, was submitted with the application.
 - A subsequent email identifying the concerns of residents in proximity to the site was sent by Paul Aceto, representing the RNO. Concerns included the topics of noise, litter, pedestrian and vehicle traffic, and intersection congestion. This email was also sent prior to the rezoning request changing to S-CC-3x.
 - An email in opposition to the rezoning request dated October 30, 2014, accompanied by petitions signed by 42 people, was submitted by Paul Aceto.
 - South Hilltop Neighborhood Association
 - An email from Re’uben Drebenstedt, representing the RNO, stated that the association was not contacted by the applicant but did not express a position on

the earlier PUD request. The applicant affirms that he did speak with Mr. Drebenstedt and submitted a copy of a letter sent to Mr. Drebenstedt on February 21, 2013 to advise him of the proposal. Mr. Drebenstedt followed up with a phone call to express that he could not recall previously speaking with the applicant.

- A later email from Re'uben Drebenstedt, representing the RNO, expressed concerns about the rezoning request, including the topics of vehicle and pedestrian traffic, noise, lighting, on-street parking, loitering, intersection congestion, and the number of businesses that could be located on the site. This email was also sent prior to the rezoning request changing to S-CC-3x.
- The other RNOs identified on page 1 were also notified of this application. At the time of this staff report, no further RNO correspondence had been received.
- **Other Public Comment**
 - Two emails were received from nearby resident Frank Petrine expressing concern regarding the addition of a fast food restaurant, which would be allowed under the proposed rezoning. Mr. Petrine also expressed concern about vehicle traffic.
 - One email was received from Amanda Pinsker expressing concern about the safety of children playing outside if a restaurant is opened and more vehicle traffic results.
 - Multiple emails were received from nearby resident John Sturtz expressing opposition to the proposed rezoning. Many of the concerns, which were also expressed by Mr. Sturtz and others at the Planning Board hearing, are opposition to the introduction of retail and eating and drinking establishments as allowed uses. Mr. Sturtz and others at the Planning Board hearing expressed concerns about the change in allowed uses potentially increasing vehicle traffic in their neighborhood to the south and on Leetsdale Drive, and congestion at the intersection of Leetsdale and Exposition. Concerns were expressed about pedestrian traffic crossing Leetsdale Drive from George Washington High School. Mr. Sturtz also expressed concern regarding the existing off-site driveway on the property immediately west of the site to be rezoned, which is a matter addressed by fire department and public works standards (which require the access). Mr. Sturtz also submitted a petition signed by others which expresses opposition to the rezoning, retail development, a fast food drive-thru restaurant, and traffic, and expresses concerns about safety, traffic, litter, noise, littering, students crossing Leetsdale Drive, vehicle traffic, and hours of operation.
 - An email was received from Holly Winter Huppert expressing opposition to the rezoning and concerns regarding increased traffic.
 - For further detail, all correspondence is attached to this staff report.

Criteria for Review / Staff Evaluation

The criteria for review of this rezoning application are found in DZC, Sections 12.4.10.7 and 12.4.10.8, as follows:

DZC Section 12.4.10.7

1. Consistency with Adopted Plans
2. Uniformity of District Regulations and Restrictions

3. Public Health, Safety and General Welfare

DZC Section 12.4.10.8

1. Justifying Circumstances
2. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

1. Consistency with Adopted Plans

The following adopted plans apply to this property:

- Denver Comprehensive Plan 2000
- Blueprint Denver (2002)

Denver Comprehensive Plan 2000

The proposal is consistent with many Denver Comprehensive Plan strategies, including:

- Environmental Sustainability Strategy 2-F – *Conserve land by promoting infill development within Denver at sites where services and infrastructure are already in place; designing mixed use communities and reducing sprawl so that residents can live, work and play within their own neighborhoods.*
- Land Use Strategy 3-B – *Encourage quality infill development that is consistent with the character of the surrounding neighborhood; that offers opportunities for increased density and more amenities; and that broadens the variety of compatible uses.*
- Mobility Strategy 4-E – *Continue to promote mixed-use development, which enables people to live near work, retail and services.*
- Economic Activity 4-B – *Continue to strengthen and, where necessary, revitalize Denver’s commercial corridors.*

The proposed map amendment will promote infill development and broaden the variety of uses allowed, while maintaining compatibility with the surrounding neighborhood (further detailed below). The proposal is consistent with Comprehensive Plan 2000.

Blueprint Denver

According to the 2002 Plan Map adopted in Blueprint Denver, this site has a concept land use of Commercial Corridor and is located in an Area of Stability.

Future Land Use

According to Blueprint Denver, Commercial Corridors “are linear business districts primarily oriented to heavily used arterial streets. They share similarities with pedestrian shopping corridors but are larger and accommodate more auto traffic.” The mix of uses is primarily commercial, with periodic residential nodes. They are generally at least five blocks long. In the case of Leetsdale Drive, the Commercial Corridor and Mixed Use concept land use designations can be found for half a mile on either side of this site, and commercial corridor-type zoning is typical.

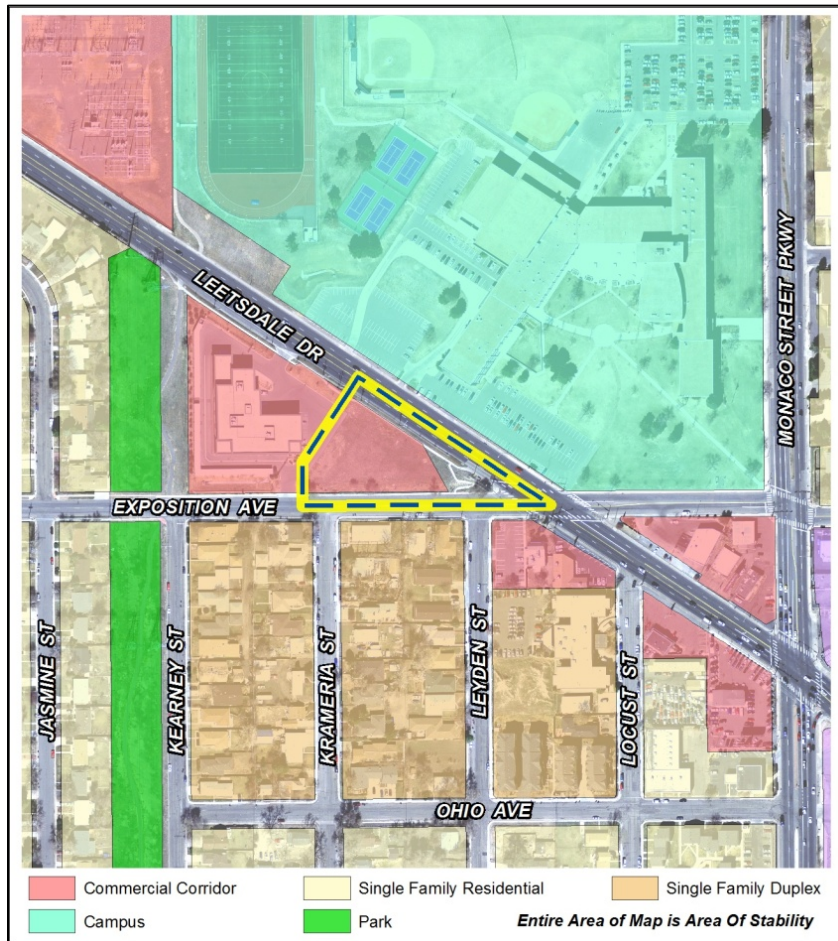

The S-CC-3x zone district stands for Suburban Neighborhood Context, Commercial Corridor, 3 story height maximum, with less intense uses. This “CC” zone district is perfectly matched to the Blueprint Denver classification of commercial corridor. The expansion of primarily commercial uses

implements the plan designation. Denver Zoning Code building form standards are better tuned to the needs of pedestrians than the Former Chapter 59 (for example, through build-to and entrance requirements), while still respecting the suburban nature of the commercial corridor area.

Area of Change / Area of Stability

The site is in an Area of Stability. In general, “The goal for Areas of Stability is to identify and maintain the character of an area while accommodating some new development and redevelopment” (p. 120). Blueprint Denver identifies several strategies in Areas of Stability, including revitalizing neighborhood centers and providing basic services, and compatibility between existing and new development (p. 25).

The proposed S-CC-3x zone district would improve the potential for development of a vacant parcel to provide neighborhood-serving retail and services, while being compatible in terms of building form with existing development. As an undeveloped site, this is an appropriate location for new development consistent with the character of the area.

Street Classifications

Blueprint Denver classifies Leetsdale Drive as a Commercial Arterial street. These are the most widespread commercial street types. “These arterials typically serve commercial areas that contain many small retail strip centers with buildings set back behind front parking lots” (p. 58). They have many accesses to adjacent businesses, and are challenged to accommodate walkers and bicyclists. Further, “Arterials are designed to provide a high degree of mobility and generally serve longer vehicle trips to, from, and within urban areas (p. 51).” Movement of people and goods is the primary function on these streets. Rezoning to a Commercial Corridor “CC” zone district is appropriate along a Commercial Arterial street.

In Blueprint Denver, Exposition Avenue is an undesignated Local street. Specific guidance is not provided in Blueprint Denver for these streets. Blueprint Denver says local streets are “influenced less by traffic volumes and tailored more to providing local access. Mobility on local streets is typically incidental and involves relatively short trips at lower speeds to and from other streets.”

2. Uniformity of District Regulations and Restrictions

The proposed rezoning to S-CC-3x will result in the uniform application of zone district building form, use and design regulations within the entire zone district.

3. Public Health, Safety and General Welfare

The proposed official map amendment furthers the public health, safety, and general welfare of the City primarily through implementation of the city’s adopted comprehensive plan and land use and transportation plan, as detailed above. Issues of safety raised by some members of the public are addressed through the development standards that apply at the time a development is proposed (for example, public works transportation standards regarding traffic), or by other city code sections (for example, noise control and speeding of vehicles). The public health, safety, and welfare is also promoted by rezoning out of the Former Chapter 59 zoning code and into the Denver Zoning Code, the purpose of which is to “implement Denver’s Comprehensive Plan and guide orderly development of the City that preserves and promotes the public health, safety, prosperity, and welfare of its inhabitants” (Sec. 1.1.1).

4. Justifying Circumstance

The application identifies several changed or changing conditions as the Justifying Circumstance under DZC Section 12.4.10.14.A.4, “The land or its surrounding environs has changed or is changing to such a degree that it is in the public interest to encourage a redevelopment of the area or to recognize the changed character of the area.” The application identifies changes in the surrounding area, including the redevelopment of Lowry, as creating an increased demand for neighborhood commercial service uses, such as retail and restaurant. Since the time of the PUD adoption, the mini-storage facility has been built, development trends have changed, and the new zoning code has been adopted. Changing the zoning will respond to these changing conditions.

5. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

Neighborhood Context Description

The S-CC-3x zone district is in the Suburban Neighborhood Context. Commercial development in the Suburban Neighborhood Context is characterized by commercial strips and centers, and office parks. Commercial buildings are typically separated from residential. The context consists of an irregular pattern of block shapes. Building height is typically low, except for some mid- and high-rise structures, particularly along arterial streets.

The neighborhood context surrounding this site consistent with the code's description of the Suburban Neighborhood Context. The block shapes are irregular in pattern with some grid elements and some broken grids and curvilinear streets. Building heights are generally low. The proposed S-CC-3x is consistent with this neighborhood context description.

Zone District Purpose and Intent

According to DZC 3.2.3.2.A, the general purpose of the suburban commercial corridor zone districts is to address development opportunities adjacent the city's most auto-dominated corridors, balancing the need for safe, active, pedestrian-scaled, diverse areas with the need for convenient automobile access. They allow flexibility in building form standards. They "are intended to ensure new development contributes positively to established residential neighborhoods and character, and improve the transition between commercial development and adjacent residential neighborhoods."

According to DZC 3.2.3.2.B, the specific intent of the S-CC-3x zone district is as follows: "S-CC-3x applies primarily to auto-oriented arterial street corridors where a building scale of 1 to 3 stories is desired with less intense uses than S-CC-3."

Leetsdale Drive is one of the city's most auto-dominated corridors, both in terms of vehicular traffic and in terms of the orientation of buildings and uses along the corridor. The S-CC-3x zone district is the lowest scale of the standard Suburban Commercial Corridor zone districts in terms of both building form standards and allowed uses, providing a good transition between the corridor and adjacent residential neighborhoods. The proposed S-CC-3x zone district is consistent with the zone district purpose and intent.

Planning Board Recommendation

The Planning Board held a public hearing on November 5, 2014, regarding the revised application for the S-CC-3x zone district. Following a staff report and presentation by the applicant, the Planning Board heard testimony from nine individuals, all opposed to the application. Many of the concerns echoed those expressed in written comments, as described above. There were also concerns expressed that the current PUD had been negotiated by agreement between the owner and neighbors, and that agreement should not be changed. After questions and deliberation, the Planning Board voted 9-0, with one abstention, to recommend approval of the application.

Staff Recommendation

Based on the review and analysis set forth above, CPD staff finds that the application for rezoning the property located at 6200 Leetsdale Drive to the S-CC-3x zone district meets the requisite review criteria.

Accordingly, staff recommends the rezoning application be moved out of committee for full City Council consideration.

EXHIBIT "A": DESCRIPTION OF CONSISTENCY WITH ADOPTED PLANS
(DRMC 12.4.10.13(A, B & C))

REVIEW CRITERIA

The proposed map amendment is consistent with the following four adopted plans.

- 1. Denver Comprehensive Plan 2000,**
- 2. Blueprint Denver,**

PROPOSED MAP AMENDMENT SUMMARY

- The subject property is located at the northwest intersection of Leetsdale Drive and Exposition Avenue, across Leetsdale Drive from George Washington High School to the northeast. Adjacent to and along the west property line is a 3-story mini-storage facility, and to the west of that is a utility line and open space corridor. Retail and commercial uses exist along the Leetsdale corridor, a commercial corridor..
- The intent of the proposed S-CC-3X zoning map amendment is to provide the appropriate entitlement mechanism for development of a 0.92± acre parcel along the Leetsdale Drive commercial corridor. The current PUD limits the allowable uses to “old zoning” Chapter 59 B-1 uses. The proposed S-CC-3X allows uses more compatible with a commercial corridor such as Leetsdale.
- The property enjoys over 230 lineal feet of frontage, as well as access, along Leetsdale Drive, an established commercial corridor, and is directly across Leetsdale from George Washington High School.
- The proposed S-CC-3X is in consistent with Denver Comprehensive Plan 2000 and Blueprint Denver and will be the catalyst for appropriate, mixed-use development to occur.
- The current PUD allows only Chapter 59 B-1 uses which are for the most part limited to residential, office, institutional and very limited retail. The PUD is too restrictive for development along the Leetsdale commercial corridor.
- Leetsdale Drive in this area is an Enhanced Transit Corridor as established in Blueprint Denver.

REVIEW CRITERIA 1. Denver Comprehensive Plan 2000
CHANGES, CHALLENGES and OPPORTUNITIES

Environmental Sustainability Chapter

Objective 2: Stewardship of resources

Strategy 2-F Conserve land by:

- Promoting infill development within Denver at sites where services and infrastructure are already in place.
- Create more density at transit nodes.
- Designing mixed-use communities and reducing sprawl, so that residents can live, work and play within their own neighborhoods. (page 39)

Objective 4: The Environment and the Community

Strategy 4-A Promote the development of sustainable communities and centers of activity where shopping, jobs, recreation and schools are accessible by multiple forms of transportation, providing opportunities for people to live where they work. (page 41)

LAND USE CHAPTER

Objective 1: Citywide Land Use and Transportation Plan

Objective 3: Residential Neighborhoods and Business Centers

Strategy 3-B:

Encourage quality infill development that is consistent with the character of the surrounding neighborhood; that offers opportunities for **increased density** and more amenities; and that broadens the variety of compatible uses. (Page 60)

Mobility Chapter

Objective 4: Changing Travel Behavior

Explore and then use a wide variety of mechanisms to reduce the number of vehicle miles traveled, especially at peak times. (page 78)

Objective 4 Changing Travel Behavior

Explore and then use a wide variety of mechanisms to reduce the number of vehicle miles traveled, especially at peak times.

Strategy 4-E: Continue to **promote mixed-use development**, which enables people to live near work, retail and services. (page 78)

Legacies Chapter

Challenges

Neighborhood Character

Strategy 2-E

Ensure that the Zoning Code reinforces quality urban design. (page 99)

Objective 3 Compact Urban Development

Strategy 3-A: Identify areas in which **increased density and new uses are desirable** and can be accommodated. (page 99)

Objective 4 Strong Connections

Strategy 4-B Focus incentives and design controls on private development fronting major new, existing and historic roadway corridors, including parkways, **boulevards** and avenues citywide. Specifically recognize and address significant intersections and gateways to the city. (Page 99)

ECONOMIC ACTIVITY CHAPTER

Objective 3: Expand Economic Opportunity

Strategy 3-B. Support retention and expansion of businesses in industries historically important to Denver, including small business, health care, manufacturing, and federal and state government.

Business Centers

Strategy 4-B. Enhance existing business centers and establish new business centers in a manner that offers a variety of high-quality uses that support Denver's business environment, complements neighboring residential areas, generates public revenue, and creates jobs. Consider the following key strategies as top priorities:

- Continue to strengthen and, where necessary, revitalize Denver's commercial corridors, such as East and West Colfax, Broadway, Colorado Boulevard, East Evans and South Federal.

Strategy 5-A. Support small-scale economic development in neighborhoods using the following key strategies:

- Support development of neighborhood business centers that serve adjacent residential areas in existing neighborhoods and new neighborhoods within development areas.

SUMMARY: *As listed above there are several Objectives and Strategies contained in Denver Comprehensive Plan 2000 that are supportive of the proposed map amendment. In particular, the Land Use Chapter in it's detailed description of infill development.*

REVIEW CRITERIA 2: Blueprint Denver

Blueprint Denver has designated the subject property as an **Area of Stability** with a concept land use designation of **Commercial Corridor**, both of which are defined (in *Blueprint Denver*) as follows:

U

According to *Blueprint Denver*, Commercial Corridors “are linear business districts primarily oriented to heavily used arterial streets. They share similarities with pedestrian shopping corridors but are larger and accommodate more auto traffic.” The mix of uses is primarily commercial, with periodic residential nodes. They are generally at least five blocks long. The S-CC-3X zone district, which standards for Suburban Neighborhood Context, Commercial Corridor, 3 story height maximum, with less intense uses. This suburban zone district is **perfectly matched to the *Blueprint Denver* classification of commercial corridor**. The expansion of primarily commercial uses implements the plan designation. Denver Zoning Code building form standards are better tuned to the needs of pedestrians than the Former Chapter 59 (for example, through build-to and entrance requirements), while still respecting the suburban nature of the commercial corridor area.

Areas of Stability

The goal for the Areas of

Stability is to identify and maintain the character of an area while accommodating some new development and redevelopment. (page 25)

Within Areas of Stability there may be places such as **stagnant commercial centers** where **reinvestment would be desirable** to make the area an asset to and supportive of the surrounding neighborhood. **Page 23** (*The existing property is stagnant with no potential for development due to the limited allowed uses*)

As stated in *Blueprint Denver*, much of Denver’s growth will be accommodated by infill **development on vacant land** or through **redevelopment** of existing sites. **Page 118** (*The proposed map amendment will meet that statement by providing the entitlement ability to develop a potential mixed-use project on a vacant parcel located along a *Blueprint Denver* designated Enhanced Transit Corridor.*)

Compact development: “...improve neighborhood cohesion, reduce urban sprawl and residents more directly connect to services and amenities within their immediate living environment.” **Note:** *Development of the subject property may “connect” residents with the services and amenities the proposed Commercial Corridor zoning provides without the necessity of driving.* **Page 16**

The (*Blueprint Denver*) Plan Map types (land use and transportation) do not simply describe the typical existing characteristics of each land use or street in the city today; instead, they define the

ideal **future land use**, rapid transit corridors, and multi-modal street characteristics. Thus the description of types is **intended as a guide for future development** to demonstrate patterns that build upon the best existing characteristics of the neighborhoods and city. **Page 34**

Blueprint Denver expects an additional 30,000 jobs and 15,000 new housing units in the remaining Areas of Change by 2020. If growth is redirected from the Areas of Stability to the Areas of Change, the model results are positive — **less development intrusion and traffic in the neighborhoods and more redevelopment along corridors** (*Note: the subject site is along the Leetsdale Drive Commercial Corridor.*) and near transit stations with little or no increase in traffic. Slight reductions in traffic may even result where land uses are mixed and highly coordinated with transit access. **Page 22** (Development of the subject property, which is along a transit corridor may meet this objective without intrusion into the adjacent neighborhood)

SUMMARY: *The subject property has a land use designation of Commercial Corridor. This is precisely the intent of the proposed S-CC-3X zoning and the effect approval will have on the neighborhood by providing more neighborhood serving commercial services.*

Exhibit "B":**Section "A" Description of Justifying Circumstances****(DRMC 12.4.10.14(A & B))**

The land or its surrounding environs has changed or is changing to such a degree that it is in the public interest to encourage a redevelopment of the area or to recognize the changed character of the area.

The property proposed for rezoning within this application consists of a 0.923 ± acre parcel of vacant land along Leetsdale Drive at Exposition Avenue. Phase I of the PUD #584 consists of approximately 95,897 sf of land), and has been previously developed as a storage facility (currently Cube Smart). As far as this portion of the PUD is concerned, there will be no changes whatsoever to the Phase I project portion of the PUD.

The subject property is Phase II of PUD 584 is vacant and proposed to be amended to allow for appropriate commercial corridor uses.

Conditions have changed greatly and are continuing to change in this area, which provides the legal basis for this proposed map amendment. The development of the former Lowry Air Force Base along with development of the former Stapleton International Airport has provided several thousand residential units along with numerous small businesses within proximity of the subject site. This has created demand for a variety for neighborhood commercial service uses, such as retail and restaurant. The existing use of the property is limited to B-1 uses, for which there is little demand, given the overall office vacancy rate in Denver being 25—30% ±.

The proposed zoning will permit a needed use that will be more responsive to the needs of the area and provide a necessary service to Denver residents and in the public interest make the map amendment necessary.

- Designation of the site in Blueprint Denver with a concept land use of **Commercial Corridor**,
- The adoption of the 2010 Zoning Code, which provides “form-based”, zoning tools to address the development goals of the City and the neighbors for infill sites as stated in the West Colfax Plan, and

In summary, the subject parcel is currently zoned as a PUD. The allowed uses cannot meet the development needs for this site or provide the City and area residents the quality and assurances that are necessary for such an important site. The proposed S-CC3X zone district which is also “form based” provides the assurance that the structure(s) and allowed uses will meet the expectations of the area residents and the City. Design elements such as how the

building relates to the street, the maximum height, build to lines as well as parking controls provide assurances for a structure that will be an asset to the neighborhood.

The area conditions have changed significantly, providing the legal basis for this zone change request and make the proposed amendment reasonable and necessary to the promotion of the public health, safety and general welfare. The public interest for the citizens of Denver is best served by adoption of this map amendment, which will provide support for the services, amenities, employment opportunities and provide residential and commercial development necessary for positive planned growth to occur and the Leetsdale Drive corridor area to thrive.

Section “B” Neighborhood Context

The proposed S-CC-3X zone district, which is in the Suburban Neighborhood Context. Commercial development in the Suburban Neighborhood Context is characterized by commercial strips and centers, and office parks (this is identical to the subject parcel). Commercial buildings are typically separated from residential. The context consists of an irregular pattern of **block shapes**. Building height is typically low, except for some mid- and high-rise structures, particularly along arterial streets. The neighborhood context surrounding this site consistent with this description of the Suburban Neighborhood Context. The block shapes are irregular in pattern with some grid elements and some broken grids and curvilinear streets. Building heights are generally low. The proposed zoning is consistent with this neighborhood context description.

The effect of the proposed amendment will be immediate and positive. To sustain and thrive, the Leetsdale corridor needs development with increased density and more activity. Zoning proposals such as this one can be the catalyst for smart growth with density where it should be located. Development of the subject property under the guidelines of the form-based zoning will provide employment opportunities and retail at a highly visible location that is in need of development and street activation.

General Purpose A. The Commercial Corridor Zone Districts are intended to balance the need for safe, active, and pedestrian-scaled, diverse areas with the need for convenient automobile access. The Commercial Corridor Zone Districts address development opportunities adjacent to the city’s most auto-dominated corridors. (Leetsdale Drive corridor) Commercial Corridor building form standards have minimum setbacks to allow flexibility in building, circulation and parking lot layout. The Commercial Corridor district standards are also intended to ensure new development **contributes positively to established residential neighborhoods and character, and improves the transition between commercial development and adjacent residential neighborhoods.**

S-CC-3X applies primarily to **auto-oriented arterial street corridors** where a building scale of 1 to 3 stories is desired with less intense uses than S-CC-3.

Re: Proposed rezoning of 6500 Leetsdale Drive

February 21, 2013

I hope this correspondence finds all of you well.

The owner of the property located at 6500 Leetsdale drive, which is within your registered neighborhood association boundaries, and has retained my firm, Robert J. Gollick, Inc. to file and coordinate a zone map amendment or rezoning for that property. This is the triangular site that is on the north side of Exposition Avenue and south of Leetsdale Drive and is the location for Cube Smart Self-Storage. (See Graphic Below)

609 SOUTH GAYLORD STREET, DENVER, COLORADO 80209 303-722-8771 FAX 303-744-3243 BGOLLI@COMCAST.NET

The site is currently zoned as PUD No. 584. The reason for the proposed rezoning is that PUD 584 limits the allowed uses to the existing storage facility and B-1 uses that are from the "old" zoning code. As you may be aware, Denver adopted a new zoning code in 2010 thus eliminating the former Code. The owner would like to rezone the site to include uses more appropriate to a major arterial street such as Leetsdale drive. The intent is to develop the remaining easterly portion of the site. Community Planning And Development (City Planning) has suggested that we utilize the SCC3X zone district to stay compatible with the area uses. The SCC3 X is a **S**uburban **C**ommercial **3**-story zone district. The X means that the more intense uses, such as automotive, manufacturing, contractors, wholesale, ect, are not permitted. SCC3 already exists directly east of the property.

Before I get too far into the City zoning process, our team would like to meet with your Association to discuss this zoning request and listen to any suggestions you may have. However, if you do not wish to meet I understand and am available to discuss the proposal with you over a phone call. I have not yet submitted the zoning application to the City but would like to do so in the next few weeks for the City initial format review.

The zoning process requires approximately six months of review and meeting time prior to the City Council public hearing. However, I strongly feel that the best way to proceed with any zoning request is by early and ongoing contact with all neighborhood organizations. Your input is necessary for the public process to work.

If you have any questions please contact me via email or directly at 303 722-8771. I will meet with you individually or with your respective Association. If you feel I have missed anyone on the contact list for this letter let me know and I will call him or her.

I thank you for your interest and understanding of this zoning request.

Sincerely,

SENT VIA EMAIL

Robert J. Gollick, President

Community Planning & Development | City and County of Denver

Dear Mr. Dalton,

In regards to the rezoning for the above referenced property, I want to state, to the best of my knowledge, that I nor our association was contacted by the applicant to review and be advised what they wanted to do with the property. I regret our not having such opportunity.

It would have been most appropriate to have done so as the rezoning and any development most certainly will impact our neighborhood. We would have contributed our thoughts, desires and concerns.

Thank you for your consideration,

Re'uben Drebenstedt, President

October 13, 2014

Kyle A. Dalton, AICP | Senior City Planner
Community Planning & Development | City and County of Denver

Dear Mr. Dalton,

Our association along with Virginia Vale Community Association share the below 7 points of high concern regarding the development of the land, especially if the zoning would be changed to “permit” a high density PUD as proposed by the developer. Our meeting today with the developer and his architect lasted about 2.5 hours with a general consensus of the citizens against the project moving on as presented. Some people present were residents living in South Hilltop and Virginia Vale. There was also representation from the citizens living immediately South of this property up for possible zoning and development changes.

The major area of concern is the **sharp increase** to be generated in auto and people walking traffic. There would be increased access into and out of the property (largely to be caused by a planned fast food drive-up business) with major changes in the volume of cars on Exposition Ave. that borders the properties South border and into the immediate residential neighborhood. Plus causing increased traffic problems on Leetsdale. Which already is a nightmare in this part of Denver! Also there will be dangerously complicated student traffic from Washington High School disrespecting traffic and the areas of crossing Leetsdale, etc. as they go to the fast food outlet.

Thank you for your thoughtfulness and we hope you will share our concerns,

Re'uben Drebenstedt, President

MISSION:
TO SUPPORT NEIGHBORHOOD
COMMUNICATION

Neighborhood Association SHNA

Reference: 6500 Leetsdale drive

6500 Leetsdale Drive, Denver, CO

Hi neighbors,

Because of interest and concerns of neighbors regarding the proposed zoning and development plans for this property above I scheduled (negotiated) a time where the matter can be discussed with the owner/developer and his architect. Since there is a city council planning review for the property at 10:30 am on the 15th the time was short for a review for us to possibly provide input. I regret that there is no other choice at this time.

Please do come if at all possible.

The meeting will be at 393 S. Ivy Street, October 13 at 1 pm.

Thank you for your understanding and input regarding this matter.

It seems that these may be the main concerns:

- 1 High traffic on and off of Exposition and into the immediate neighborhood
- 2 Increased noise and bright lighting into adjacent neighborhood
- 3 Traffic back onto Leetsdale turning left (even if a sign says no); a real danger
- 4 Increased congestion into an already difficult intersection especially during peak traffic time of the day
- 5 School kids crossing Leetsdale through traffic, not using crosswalks. Danger to them and autos
- 6 Too many businesses located on a small plot
- 7 Sharp increase of parked cars on Exposition and loitering

Subject: New Formal Position of Virginia Vale Community Association
Date: Thursday, October 30, 2014 12:54:08 PM
Attachments: [petition 6200 Leetsdale rezoning.pdf](#)

Mr. Dalton.

As you know, VVCA had previously provided a letter in support of the rezoning application for 6200 – 6500 Leetsdale Dr.

Since that time, VVCA has received many objections from residents of The Virginia Vale Community expressing opposition of the rezoning due to likely increase to vehicle traffic, pedestrian traffic, noise, litter, loitering.

A petition has been received by VVCA from its residents expressing their strong opposition, signed by 42 residents.

That petition with signatures is attached.

The petition and a majority of the participating residents support the following position:

"We, the undersigned, are strongly opposed to the rezoning and retail development proposed by the developer, which would include a fast food drive-thru restaurant and a potentially high traffic business. We are concerned about issues of safety, traffic on our residential streets, an entry/exit onto E Exposition Ave, litter, noise, loitering, George Washington High School students crossing Leetsdale Dr, increase in traffic on Leetsdale Dr, lighting, and late night hours of operation. We are in favor of sensible, low traffic development and believe the existing PUD is appropriate. The property is currently an eyesore. We are opposed to a zoning change."

The Virginia Vale Community Association would like to request that the letter dated March 2, 2014 be rescinded and this new position be entered.

Please feel free to contact me with any questions or concerns.

Thank you.

Kyle A. Dalton, AICP | Senior City Planner
Community Planning & Development | City and County of Denver

Mr. Dalton,

As you know The Virginia Vale Community Association had previously approved of the rezoning application for the 6500 Leetsdale Dr. location owned by Leetsdale Commons.

Recently, there have been an outpouring of concern and objection by residents who live in the closest proximity to this project.

Unfortunately, these residents were not aware of the discussions that took place during 2013 about this topic and consequential approval letter by VVCA.

The primary concern by our residents is the increase in both pedestrian and vehicle traffic that a high volume eatery with a drive thru will cause. Residents throughout the East side of the community are concerned about the likelihood of noise, litter, high traffic, congestion problems along the light at E. Exposition Ave. and Leetsdale Dr. along with pedestrian traffic across Leetsdale by students of George Washington High School.

We appreciate your consideration of these concerns by the residents of Virginia Vale.

Thank you. The Virginia Vale Community Association.

Subject: 6500 rezoning
Date: Monday, September 01, 2014 11:32:54 AM

Dear Deborah,

I live at the corner of Leyden and Kentucky and am deeply concerned about the rezoning request at 6500 leetsdale. The traffic at my house is already pretty brisk and I feel the addition of a fast food restaurant at Leyden and Exposition would be devastating for the neighborhood. Please consider the effect this would have on the residents living here and turn this rezoning down.

Respectfully, yours,
Frank C.Petrine

Date: Friday, October 24, 2014 9:33:21 AM

Kyle,--

I would like to offer my strong objection to the change in zoning proposed for the 6500 E Leetsdale property. The building of a fast food store at this location would cause severe traffic problems for homeowners in the vicinity. Not only will the traffic leaving this location spill out on the residential streets feeding onto Exposition Avenue, there will be severe difficulty leaving the property onto Leetsdale especially during rush hours. This will encourage drivers to head for the residential streets. With the resulting congestion on residential streets, What will this do to property values?

Finally, the present zoning for office occupancy is proper for this location as the original planners thought. The change proposed would not constitute an improvement in use.

Dear Kyle

I am resident of the Virginia Vale neighborhood I live right near this cross street on S Leyden Street, I have a few concerns on this development going up right in front of our neighborhood, however most of my concern is about the safety of my children and other's.

This neighborhood has a lot of young children and their are at least 20 on my street alone, I have two young children as well and they all like to play outside even with them being safe and taking caution I feel it would be more dangerous for them to be able to ride bikes and play.

This area already gets a ton of traffic and if they add a restaurant I'm sure their will be a lot more, Please Re Consider this action.

Sincerely, Amanda Pinsker

Subject: Questions regarding Rezoning

Councilman Brown:

Did Paul Naftel call me and arrange a meeting with me on your urging or was his call to me prompted by Paul Aceto with the VVCA? I assumed that Paul Aceto gave him my phone number because Aceto had sent me an email suggesting a meeting.

I'm not certain if you've seen Naftel's plans. It's not just retail. It's retail with fast food drive-thru and fast food delivery service - which essentially bolsters my argument that this does not fit with the neighborhood context. It also emphasizes my view that it would equate to an increase in neighborhood traffic. If you've seen the plans, you may have noticed it's big on diagrams but short on essential details. He has one street mislabeled and 2 streets missing entirely. It suggests to me that CDOT has not done any studies of this plan. Perhaps they have? He didn't share them with me. All of his answers about traffic were "imaginary" - he had nothing to indicate that traffic would be able to exit from the retail location both east and west onto Leetsdale Dr. He has nothing specific on projected traffic patterns. He spoke in general terms about lighting and some "nice trees and landscaping" - fantasy planning without any written or detailed plan. Development for Dummies. There was also something disingenuous about his answer regarding a fast food franchise. "Not McDonald's" was his terse reply. When I asked him about a rumor I had heard that it would be a Jimmy Johns Sandwich Shop, he said, "Oh yes, they have expressed an interest."

I think there's a huge difference between retail and retail with outdoor dining and fast food drive-thru and delivery service. Maybe the zoning code doesn't make any distinction. Bottom line - does he have any solid traffic analysis to back up his claim that customers will not be exiting onto our residential streets? Is there any guarantee that an exit onto Leetsdale won't be RIGHT TURN ONLY? Has anyone with zoning or CDOT or City Council seen what traffic is like on East Leetsdale from 3 PM to 6 PM on weekdays? Has anyone looked at the foot traffic that a fast food restaurant will generate from George Washington High School from 11 AM til afternoon? Has anyone in this vast network of connected entities (Zoning, Planning, CDOT, VVCA, etc) gone near the King Soopers at Leetsdale at Monaco at 11 AM during the school year? Police officers are needed to control the students. I worked at \$2 Buck Books in the same shopping center for a number of years. Problems with marijuana use in our restroom and shoplifting were not uncommon. I'm thinking that this whole rezoning idea is permeated by a lack of simple observation. Common Sense Planning is a concept that should be in place before any talk of rezoning with a destination attractive to high school students. Has anyone noticed the number of students in our neighborhood at lunch hour gathering in "pockets" of 5-10 students to share some inhalant? Do we need to encourage this further? Has Paul Naftel made plans for on site security?

Perhaps the GW High School campus is closed during the lunch hour this year. Perhaps I'm unaware of a policy change.

At any rate, I'm told that Mr. Robert Gollick who represents Paul Naftel is a "detail man" and he usually has everything in order before business goes forward. If all these questions and

concerns have already been addressed, then those in attendance at Wednesday's meeting should be more than satisfied.

Sincerely,
John Sturtz Eastern Virginia Vale Resident

I'm not certain that Councilman Brown is forwarding all the emails being sent to him from our neighborhood. In fairness to the people who live on the adjacent streets I'm hopeful he has forwarded them. I will forward the copies I have. I am also forwarding a letter I've written to Paul Acedo who is purportedly the president of the VVCA who allowed this re-zoning request to go forward. Since he hasn't responded to my email regarding the legitimacy of the VVCA, as an RNO, I assume that the planning board will consider the process that was followed as possibly improper.

Subject: Thank you for your continued concern...

Mr. Brown,

Thank you for giving your full attention to the matter of rezoning the area north of Exposition street at Krameria in Denver.

Please understand: I am opposed to the high volume retail rezoning that has been proposed for our street, and I expect you'll feel the same way once you understand the facts.

First: I am a homeowner. I bought my house a year and a half ago at 726 S Krameria feeling that I'd found a small neighborhood on a quiet street. There are children here. And elderly people. There are young families, and people living solo. We neighbors know each other, socialize together, and all watch out for the children riding their bicycles, playing jump rope, and crossing the street to report on a funny school event.

Second: I vote. We all vote. And we need you to support our concerns. Please take this issue seriously; we are.

Third: The rezoning meeting happening this coming Tuesday will be held at 3:00pm. This must be a mistake: we homeowners who work can not be expected to attend a 3:00 PM meeting.

Fourth: I would like to invite you to visit me here, at 726 S Krameria. We'll sit on the sidewalk in front of my house in lawn chairs. You'll have the chance to note how quiet our neighborhood is, how free our children are to roam this safe haven, and how our low volume traffic patters are a source of pride.

Kindly email me here at coldwinter@sprintmail.com to set up a time to come and visit. I

know you well enough to understand that you do value our concerns.

Come and visit. I'll make lemonade.

Thanks for your time and attention and for making our concerns your own,

Holly Winter

Mr. Dalton: I'm certain that you have more than just a short history of the parcel in question. You're probably aware that John Leets was the original landholder and Leetsdale Drive was named after him. South Krameria was originally named Otis Street, Otis being the name of John Leet's son.

I am sharing this article from Westword that was written in February 1998.

Mr. Dalton - we are truly tired of this ongoing dispute and repeated attempts by a developer to build structures that will effect the public safety of our neighborhood. We are not against private property rights. While we are trying to protect our own, we still respect the rights of those who own 6500 E Leetsdale Dr. Finally, all we want is something that fits or doesn't interfere with the neighborhood context. We don't want to revisit this issue every 5-7 years.

This should not be political or be tainted by money. This should be about the people who own and reside in the homes on South Kearney, South Krameria, and South Leyden - South of Exposition Av.

South Krameria is not Mayberry RFD 1955. South Krameria is a modern day sociologist's vision and dream. The neighborhood is unbelievably diverse. We have homeowners and renters, children and elderly, gays and lesbians and heterosexuals, single moms, 2 parent families, single men, single women, African Americans, Whites, Hispanics and Africans, retired people, white collar professionals, blue collar workers, schoolteachers, bookstore owners, a postal worker, a seasoned airline attendant who goes to Europe every week...we have those on public assistance and those who earn over one hundred grand a year. We have had some differences but the overwhelming theme in our neighborhood is a community that cares for one another. We talk, we socialize, we have dinner together, we share stories and we laugh and enjoy life together. We don't want our little world invaded with traffic. We don't want strangers who disregard speed limits and litter our streets. We want Mayberry RFD: 2014, 2015, 2016 and beyond. It's not a perfect street, but it's not homogenized. It includes all the people who make America great. We even have a registered Republican.

Thank You,
John Sturtz 710 S Krameria Street

Subject: Letter to Paul Naftel, Developer 6200-6500 E Leetsdale

Mr Paul Naftel, Developer 6200-6500 E Leetsdale, Highway 83:

Why did you tell Zoning that the driveway exiting the CubeSmart facility into our neighborhood was for FIRE EMERGENCY ONLY and the only reason that driveway exists is because the city required it as part of the fire code? Is that true?

Why is the exit lane down that driveway not clearly marked, "FIRE LANE"?

Are you saying, in all honesty, that the driveway would NOT be used for thru traffic into our neighborhood? Would you be willing to put that in writing? Most of our opposition to your project is based on that entry/exit. The lane needs to be clearly marked, "FIRE LANE". Would you be willing to take the steps necessary to close off that exit to the dozens of cars that already use that driveway to cut through into our neighborhood? Will you stencil the words, "FIRE LANE" in yellow on the asphalt? The fire department and the city have a way of blocking access through certain pathways with removable poles in the event of an emergency.

That's the key factor Paul. If you were telling the truth to the Zoning Board about that entry/exit from Exposition and onto Exposition, then I think we have a solution. If you can guarantee and back up the claim that the driveway will not be used for traffic into our neighborhood, then we can come a long way toward resolving the neighborhood opposition. If you could provide a plan that sensibly addresses the GW High School migration across Leetsdale - other than saying, "they're going to jaywalk anyway" - GIVE US YOUR PLAN.

Why is the realtor telling callers that there are plans for a Jimmy Johns but you avoid speaking plainly about your plans? You told me. "Not a McDonalds" You told the Zoning and Planning board, "Not a McDonalds, Not a Burger King"

You went so far as to say, it might be a Starbucks, a Chipotle, a Panera Bread. But you avoided telling the zoning board maybe a Jimmy Johns. WHY?

When I asked you on Thursday, August 28, 2014 when we met at \$2 Buck Books, after you said, "Not a McDonalds" I immediately stated that I had heard a rumor from neighbors, who called the realtor, that the restaurant was going to be a Jimmy Johns, you answered, "...yes, they have expressed an interest". Those were your exact words. It's all on videotape.

So possibly this is all just a misunderstanding. Possibly I have perceived evasiveness and dishonesty where none existed? If that's the case, I apologize. Perhaps what you thought were straightforward, direct and honest answers were not as accurate as you wanted them to be?

We are not against development. We are not against growth, or private property, construction, or progress. We want to have a voice in this matter. We want your reassurance in writing that the exit will not be used by customers and delivery cars to travel through our neighborhood.

When I spoke with Mr. Gideon Geisel, the Vice Principal at GW High, he was aghast at the idea of a fast food restaurant directly across the street.

The same was true when I spoke with Officer Tucker who is assigned to police duty at the school. Have you met with GW officials and have your plans been met with their approval? Are they looking forward to your retail project?

Regardless of all the City of Denver hoops you have to jump through, I would think you would want to get the GW High School Administration as an advocate of your plans.

I haven't spoken with the School Board, or City Councilman Brown or the Mayor yet. Councilman Brown has only answered one of my emails... and it was a question not an answer. I think he's confused that there are 2 women named "Holly" on our block, one at 710 South Krameria, Holly Brooks; another at 726 S Krameria, Holly Winter.

At the Zoning Hearing you made a point of saying, "John Sturtz sent me an email saying - "nobody wants to meet with you Paul" I never got a chance nor did you mention it was Labor Day weekend and I had already told you some of the neighbors were out of town, and all of them had plans. I was meeting with you on Thursday because I was the only person available to meet you in the middle of the day. Like one of my neighbors asked, "What would a meeting with Paul Naftel accomplish?" I already had your plans. Did you think a meeting with an additional 5 people would convince us your plan is good for our neighborhood?

Wouldn't it be nice for all this to go smoothly? Wouldn't it be great if everyone was in agreement? I think a little transparency on your part or on Mr. Gollick's part would be an enormous help.

As for Paul Aceto and the VVCA. It's an issue that allowed you to advance to the Zoning Hearing. It's being addressed by another party. Paul Aceto a realtor himself, probably shouldn't have been involved in something that could be seen as a conflict of interest. A role in a neighborhood association is small peanuts compared to a career in real estate.

Peter Meer, owner of the property at 704 S Krameria - a triplex - seems to be in favor of your plan. He's either unaware of the fact that the drive thru window would be approximately 150 feet from his son's apartment, or he's too busy, or he has other plans.

How many more steps in this process? How many more times do we need to express our opposition? Should we get the media involved? Or ask for mediation? Developers are normally willing to seriously address neighborhood concerns. Seems as though some projects advance smoothly. It's very professional to focus on a multiplicity of factors before advancing a proposal.

Finally, I can say that we won't give up. There's a core group of homeowners that will not resign or withdraw. Some people will sign a petition, express opposition and then pretty much fade from the conflict. I can say with utmost certainty that the core opposition is solid and steadfast. I might be their voice, but their resolve is intense and vehement - elevations above my own - they won't quit.

Sincerely,
John Sturtz

I will forward this email to others.

Dalton, Kyle A. - Community Planning and Development

To: Dalton, Kyle A. - Community Planning and Development
Subject: Re: 6200-6500 E Leetsdale Dr

Kyle Dalton: This is a letter I sent to Councilman Brown. I've been told that this is now a quasi-judicial matter and that he cannot take this into consideration personally and all issues related to this matter must be sent to Planning and Development. I respect the integrity of Councilman Brown.

I'm amazed at the convoluted process that must be followed to simply put issues on the table - but that's because this is all new to me. I'm simply a concerned resident in the immediate vicinity of this rezoning. If we'd had proper representation at the Virginia Vale Community Association none of this would have been necessary.

It should not have reached your offices to begin with. At this point we are addressing this matter with all the vigor we can muster - The Denver School Board, GW High School Administration and Policing, nearby businesses, more neighbors, the media, and other neighborhood associations. The developer will not respond to my emails. The neighborhood association president is having trouble producing any documents that validate the meetings, the attendance, the voting records, and the minutes from each meeting. One meeting took place in his private office - purportedly neighborhood association members along with the developer and his wife, and the developer's attorney. We're still asking for transparency. Probably none of this concerns Zoning but I'm trying to shed some light on the details and complexity of this planned development.

In addition to the increased traffic into our neighborhood there should be a major concern about the high school students. A fast food restaurant or any establishment that serves food will be an attractive nuisance to students at lunch time. If this rezoning and planned development goes through - mark my words - students jay walking will be hit by cars traveling on Leetsdale. We already have a tremendous problem during the week with high school students at lunch hour. Illegal drug use, shoplifting, disruption of neighborhoods nearby, noise and litter.

It was stated at the rezoning hearing that traffic was not a consideration of the Zoning Board. My feeling is that the impact of rezoning will change the context of the residential neighborhood and effect the safety and welfare of those near the planned project. For the record, if this goes forward, High School students will be involved in serious traffic injuries and possible fatalities.

I am hopeful that you will pass this on for consideration.

Thank You,
John Sturtz

Also: Mr Naftel claimed at the Zoning Hearing that the back driveway onto East Exposition was put in place for emergency use - Fire Code - access necessary.

The entry/exit is not marked as a "Fire Lane" - shouldn't signage indicate that the driveway is not a general public egress?

Subject: Your Legacy

Dear Councilman Brown:

I recall the time I asked you to run for Mayor. Do you recall that I volunteered my time and energy to help you get elected as the Mayor of Denver? You laughed heartily and told me you had a while left in City Council but you appreciated my support.

I have always boasted to neighbors and friends that we had the best Councilman, Mr. Charlie Brown, in all of Denver. I have told them how you shoveled your own sidewalks in front of your offices to save the city money. A true fiscal conservative. Perhaps the only Councilperson in Denver who actually returned money to the city because you didn't believe in wasteful spending. A man who walked the talk.

You have nurtured the image of a western, self reliant, adventurous hero. A man who ignores conventional risks. An ICON in the history of Denver City Council. A man of integrity who deserved our trust. In my heart I want to believe that's true.

Someone suggested that you don't read your emails. I told them it's not true. I told them how efficiently and quickly and professionally you answered all my faxes on graph paper 9 years ago.

This rezoning issue has torn our neighborhood apart. Were you at the rezoning hearing on Wednesday, September 3rd? There was a gentleman at the front dais who I thought might be you. It's been awhile since I've seen you in person. I think the last time we shook hands I still had hair and there wasn't a hint of gray near my temples. Regardless, if you were there or not, you know the details of this rezoning issue. There were lies told by the developer. We were not allowed to challenge them. I don't use the word "lies" loosely - there was blatant dishonesty in more than one of his statements. The whole meeting is on videotape if you weren't there.

And then, the final outcome, what seemed like a rubber-stamped "vote", the Zoning Board all voted "YES" to the proposal for rezoning. We were told that traffic had nothing to do with rezoning! ??? It felt like Twilight Zoning. How can traffic NOT be a consideration if on the Zoning Website it states that neighborhood context and the health and welfare and safety of the area were of particular concern? If zoning is just about buildings then why bother with people attending the meeting?

There are some real world concerns here. People sitting in a fancy conference room need to pay attention. Those buildings that sit near George Washington High School were littered, bombarded with noise and obscenities, jay-walked and had their sidewalks occupied by pot smoking students behind the UPS store, Optical Masters, and Chipotle yesterday. Those buildings were attacked. Traffic at the intersection of Leetsdale and Monaco was snarled by kids who still hadn't learned the difference between "WALK" and "DON'T WALK" - excuse me - we don't use words anymore... We have lighted red hands that mean "DON'T WALK" and lighted white hands that depict a stick figure walking which means "WALK" to the functionally illiterate.

And the Zoning and Planning Board want another fast food restaurant across the street from GW High School? The developer had the audacity to say it could be a Starbucks.

Really? Does strong coffee attract more kids than illegal marijuana?

I know of 5 calls that were made yesterday from businesses to GW High School and to Police Officer Tucker. I made another. Officer Tucker now polices the building and the kids. I was told by the vice principal that the new policy is that the businesses now have to pay for private security. Do we need to do that in our neighborhoods to protect our buildings/homes? Hire private security?

1,491 One Thousand Four Hundred and Ninety One. That's how many students currently attend GW High School. I'm so pleased the Zoning Commission is concerned about the buildings not the people. Not the residential neighborhood, not the kids, not the businesses and the people who work there, not the traffic. The Buildings.

Sincerely,
John Sturtz

Regarding Development at 6200-6500 E Leetsdale Drive

For the Record: We believe the approval for rezoning as stated by the Virginia Vale Community Association in a letter to Paul Naftel and attorney, Robert Gollick is tainted and cannot be validated as reputable. Unless documents can be produced (The minutes from the meetings that took place and those in attendance) we have every reason to believe the letter is a misrepresentation of neighborhood consensus. Numerous efforts have been made to obtain the records from the meetings but VVCA and the current president, Paul Aceto, have failed to remit the transcripts and attendance log. We've been given the dates of the meetings but none of the details that any elementary record should include.

Therefore we believe the developers presented their proposal to Rezoning and Planning and those in attendance on September 3, 2014 in a duplicitous way. Also, two letters with dates from 2005 were included in the rezoning packet, intended to be perceived as approval from neighborhood groups - they were deceptive - they were not related in any way to the current rezoning effort. (see 2005 letter from VVCA regarding Bush Development and letter from George Washington HOA regarding 2005 Storage Warehouse Project)

The rezoning hearing has gone forward. Denver Planning has given its approval.

This letter of protest will not negate the outcome of the September 3, 2014 rezoning meeting - but it should serve as a reminder that integrity should be the foundation that's established before one ounce of concrete is poured.

Denver City Council is undoubtedly overwhelmed with zoning considerations on a large number of projects. We understand the volume of work involved. We urge you to not "rubber-stamp" rezonings without careful judgment.

Thank You,
John Sturtz 710 S Krameria

Attachments: [petition 6200 Leetsdale rezoning.pdf](#)

Mr Dalton: FYI on 42 Signatures AGAINST the Naftel/Gollick Project This is by no means a complete vote on the proposed rezoning. The signatures are from those living within a quarter mile of 6200 E Leetsdale Drive. It was also not a formal, officially sanctioned petition - simply a general survey of those living adjacent to the proposed rezoning. A few weeks back a neighbor suggested the term, "Common Sense Development" I believe that a developer with just a hint of common sense would have taken the time to at least contact the neighborhood residents nearby - including the George Washington High School Administration. Granted, Mr. Robert Gollick sent out a general email to surrounding neighborhood associations and called it, "reaching out". Not what I'd call a real effort to work together with the nearby residents. It might be the norm or the traditional way that developers propose rezoning - just email the neighborhood associations - but Paul Naftel has worked in this neighborhood before and so has Mr. Gollick, Professional Developers. I think when planners and architects and attorneys and developers huddle together in the foyers of meeting rooms, they should remember the people, tax paying citizens of Denver who live in homes within 200 feet of their proposed rezoning. Some of the signatures were gathered at a formal emergency meeting held at 850 S Monaco Parkway on 10-21-14 Duplicate addresses reflect the fact that property owners as well as their tenants have signed the petition.

Subject: Letter of opposition: Please read.
Date: Monday, October 20, 2014 7:59:37 PM

Hello Mr. Dalton,

My name is Holly Winter Huppert and I own the house at 726 S Krameria Street, Denver CO, 80224. **I am completely opposed to the rezoning and development** that includes a fast food restaurant at 6500 Leetsdale Drive.

Again, please understand that **I oppose this zoning change**. This is NOT my first letter of opposition. This is my third.

***There are children living on this block who play outside, in their front yards. They ride their bikes on the street. This is a quiet, safe neighborhood. **Increased traffic is a danger to our children.**

***I bought this house last year only after I checked on the zoning. I was told that a bank could end up on that corner lot. Zoning laws are to protect homeowners.

This letter is being forwarded to the Denver Post, as asked by the Post. I give my full permission for any part of this letter to be reprinted.

Thanks for your time. Please understand: **I oppose the rezoning of 6500 Leetsdale Drive.** Please help us keep our neighborhood safe.

Thanks,

Holly Winter Huppert
