IV. EQUITY ACCESS AND OUTCOMES

The Department of Housing Stability, in alignment with the Mayor's Office of Social Equity and Innovation, values racial equity and inclusiveness and seeks to reflect this value in our funding practices. Our commitment to producing racially equitable housing outcomes is paramount to HOST's overall mission of Denver residents being healthy, housed and connected. HOST requires all programs it funds to report on the demographic characteristics of households served by the program throughout the duration of the contract in coordination with other required reporting. The contractor will also report on the demographics of staff working on this program throughout the duration of this contract.

Specific information outlining the required data systems to be used and data to be collected are contained within the scope of work of this contract. This information will help HOST monitor demographic trends in who is served. The underlying objective of collecting and disaggregating data and outcomes by race is to understand who is currently served by HOST funded programs. This information will help inform future evaluation on any potential disparate impacts across HOST programs, as well as strategies to help address equity in access to and outcomes from programs where appropriate. Additionally, HOST program and monitoring staff will be reviewing data, and will discuss your program's progress or challenges towards racially equitable services and outcomes at site visits and monitoring.

Assumptions: Unless otherwise indicated, data will be pulled from the Homeless Management Information System (HMIS). Contractor will upload a HMIS Data Quality report in Salesforce with each quarterly report. Data quality must be in alignment with expectations and standards outlined by COHMIS (<https://cohmis.zendesk.com/hc/en-us>). All Metrics will be reviewed quarterly and annually.

VI. REPORTING

- A. Data for this specific project is tracked in VOACB's database entry system – ServicePoint. VOACB with support from OneHome will not utilize HMIS due to Service Point being a comparable database to HMIS and because OneHome does not have a DV compatible database. ServicePoint is used to enter all demographic information, assessments, financial assistance tracking, case notes, update and exits. The benefit of utilizing a VOACB web-based site is that staff can create new reports/systems as needed.
- B. Contractors will be required to use HOST Programs Community to submit all program narrative and qualitative data reports. These reports are due the 15th day of the month following each reporting period. Each narrative report will contain information on program success, challenges, and funding leverage during the reporting period.

| Report Type | Due Date |
|--|------------|
| Quarterly Report for January 1 – March 31 | April 15 |
| Quarterly Report for April 1 – June 30 | July 15 |
| Quarterly Report for July 1 – September 30 | October 15 |
| Quarterly Report for October 1 – December 31 | January 15 |

- C. HOST Programs Community will provide Contractor with an online portal to submit report for each reporting period. Supplemental reporting may be required when HMIS and/or programs community data and narrative reports are insufficient to demonstrate program impact. Submitted reports will be reviewed by the designated Program Officer for completeness, clarity, and accuracy.
- D. Upon execution of this contract, HOST will provide a user guide for using HOST Programs Community portal along with the required login information. Prior to the due date for the first required report, HOST will provide resources and support as needed or as requested by the Contractor to support the use of HOST Programs Community.
- E. Contractor may be required to submit a Contract Summary Report at the end of the contract period within 30 days after the Term End Date of this contract agreement.
- F. Data Monitoring

Timeliness is the primary data quality component assessed at HOST to support policies around voluntary client reporting. Table A below summarizes minimum data quality timeliness standards for each project.
