Supplemental Appropriations

General Fund Contingency and Non-General Fund Requests

General Fund Contingency

The City Charter requires that the proposed budget for the General Fund shall include no less than two percent of total estimated expenditures for unbudgeted expenditures. Fiscal Policy outlines criteria that include:

- An unexpected event such as a natural disaster or accident;
- Large unappropriated payouts or personnel costs such as retirement payout or midyear salary adjustments that cannot be absorbed by agency appropriation;
- Unfunded mandates as a result of legislation;
- Planned one-time expenditures that advance a programmatic or financial outcome.

There are two other ‘reserves’ to be used under natural disaster or economic downturn circumstances. Both must be replenished.
