**Scope of work:**

CenturyLink will provide continuity of telecommunications services, including high-speed internet services, a Synchronized Optical Network (SONET) managed network, Distributed Denial-of-Service (DDoS) services and professional IT services on an as-needed basis for Denver International Airport (DEN). SONET is an optical transport system for voice and data services to the entire DEN campus and Airlines, Concessions and Tenants. DDoS is a proactive mitigation service to deny internet service in the event of a cyberattack. CenturyLink will analyze network traffic, determine if a cyberattack is occurring and initiate mitigation strategies as appropriate.

CenturyLink will also provide high-speed internet services such as public internet connectivity and a network managed solution for performance reporting and monitoring 24 hours per day, 7 days per week. DEN's publicly acclaimed high-speed internet Wi-Fi services provides access to the DEN campus for Airlines, Tenants, Concessionaire and the traveling public. CenturyLink will provide IT and managed services to DEN 24 hours per day, 7 days per week on an as-needed basis.

**Was this contractor selected by competitive process?** No **If not, why not?**

This is a non-exclusive sole source agreement to allow DEN the continuity of telecommunications services currently provided by CenturyLink. CenturyLink services are installed throughout DEN. These services are integral to DEN's operations and are critical in supporting the traveling public, Airport operations, tenant services and critical safety related telephony services for First Responders such as Police and Fire.

**Has this contractor provided these services to the City before?**  Yes  No
