5. General description or background of proposed request. Attach executive summary if more space needed: The vendors that have been providing on-call geotechnical services for The City and County of Denver have been performing well and provide an important resource for the City to implement design and construction projects. The current contract durations for the geotechnical on-call vendors are set to expire on 6/27/2021. Under analysis of the remaining capacity of the current contracts, it is recommended to extend these on-call contracts for an additional 2-year term for a time only basis. The reasoning for the time-only extension include: economic uncertainty in the mid-term making re-procurement scope unclear, current capacity of the on-call contracts projected to be adequate to cover needs for next two years, and current firms are well performing and progressing toward meeting DSBO goals. Formal procurement for the geotechnical on-calls will be set to issue new contracts once the extended contracts expire on 6/26/2023.
