

## ORDINANCE/RESOLUTION REQUEST

Please email requests to Jason Gallardo, Department of Transportation and Infrastructure  
at [pw.ordinance@denvergov.org](mailto:pw.ordinance@denvergov.org) by **12:00pm NOON on Monday**. Contact Jason with questions.

Date of Request: 6/23/23

Please mark one:       Bill Request                      or                       Resolution Request

**1. Type of Request:**

- Contract/Grant Agreement     Intergovernmental Agreement (IGA)     Rezoning/Text Amendment
- Dedication/Vacation             Appropriation/Supplemental             DRMC Change
- Other:

**2. Title:** (Start with *approves, amends, dedicates*, etc., include name of company or contractor and indicate the type of request: grant acceptance, contract execution, contract amendment, municipal code change, supplemental request, etc.)

Approves Grant Agreement with the Colorado Department of Public Health and Environment (CDPHE) for Denver Community Active Living Coalition: Built Environment Policy program (CALC-BEP FY23-24). Grant agreement to fund first year (2023-24) of three year awarded grant. Amount of FY23-24 grant = \$680,000. Term: 7/1/23 – 6/30/24. Contract # 202368802.

**3. Requesting Agency:** Department of Transportation and Infrastructure

**4. Contact Person:**

Contact person with knowledge of proposed ordinance/resolution	Contact person to present item at Mayor-Council and Council
Name: Kayla Gilbert, Michele Foust	Name: Jason Gallardo
Email: <a href="mailto:kayla.gilber@denvergov.org">kayla.gilber@denvergov.org</a> <a href="mailto:michele.foust@denvergov.org">michele.foust@denvergov.org</a>	Email: <a href="mailto:jason.gallardo@denvergov.org">jason.gallardo@denvergov.org</a>

**5. General description or background of proposed request. Attach executive summary if more space needed:** The Colorado Department of Public Health and Environment (CDPHE) grant serves to reduce the burden of chronic disease in Colorado by focusing on cancer, cardiovascular disease, chronic pulmonary disease, early diagnosis, and treatment. The three-year awarded grant to the Department of Transportation & Infrastructure will be for the Denver Community Active Living Coalition: Built Environment Policy (CALC-BEP) program. The goal of the CALC-BEP program is to improve the health of traditionally underserved communities by providing culturally appropriate education, connecting community to available resources, promoting community action and participation regarding active transportation and sustainability. In addition, the program will support policy, systems, and environmental changes that increase access to safe, convenient places to be physically active. The City and County of Denver has been awarded this grant since 2015, which funds several community engagement staff within DOTI's Office of Community & Business Engagement, as well as the CALC Micro-Grant program which provides micro-funding to community leaders for local active living and transportation safety projects.

**6. City Attorney assigned to this request (if applicable):** Not yet assigned.

**7. City Council District:** Citywide

## Key Contract Terms

**Type of Contract: (e.g. Professional Services > \$500K; IGA/Grant Agreement, Sale or Lease of Real Property):** Grant Agreement

**Vendor/Contractor Name:** Colorado Department of Public Health and Environment (CDPHE)

**Contract control number:** 202368802

**Location:** Citywide

**Is this a new contract?**  Yes  No **Is this an Amendment?**  Yes  No **If yes, how many?**

**Contract Term/Duration (for amended contracts, include existing term dates and amended dates):** 7/1/23 – 6/30/24

**Contract Amount (indicate existing amount, amended amount and new contract total):** \$680,000

<i>Current Contract Amount</i> (A)	<i>Additional Funds</i> (B)	<i>Total Contract Amount</i> (A+B)
\$680,000.00	Enter if applicable	\$680,000.00

  

<i>Current Contract Term</i>	<i>Added Time</i>	<i>New Ending Date</i>
7/1/23	Enter if applicable	6/30/24

**Scope of work:** The Denver Community Active Living Coalition program works to improve the health of traditionally underserved communities by providing culturally appropriate education, connecting community to available resources, promoting community action and participation regarding active transportation and sustainability, and support policy, systems, and environmental changes that increase access to safe, convenient places to be physically active. As the Department of Transportation & Infrastructure, we acknowledge that transportation and infrastructure investments in the past have created long-standing structural inequities that are critical predictors of health outcomes; infrastructure has the ability to either bolster or limit opportunities for health promotion, physical activity, and access to important assets for health. DOTI is committed to equity by providing attention and resources to the areas, assets, and people of the city with the greatest need through equitable engagement, contracting, investments, and workforce development. While reducing health disparities through policies, practices, organizational systems, and environmental changes, we can positively contribute to health-promoting opportunities for all Coloradans, regardless of who they are or where they live.

The purpose of CALC is to promote healthy behaviors by making healthy choices the default. In this case, making it easier and safer to walk, roll, bike, take transit, and participate in active play and recreation in our great city of Denver. CALC proposes to build momentum for increasing the quantity and quality of built environment spaces that encourage physical activity, thereby reducing risks of cancer, chronic disease, and environmental hazards, and improving health outcomes of communities experiencing the highest health and built environment inequities. The project will work city-wide across the City & County of Denver, while primarily serving areas defined by DOTI's Equity Index to direct resources, support, and engagement to the communities and residents with the greatest needs. CALC will also use cross-agency partnerships and direct engagement with stakeholders to target and address built environment policy, systems, and programmatic gaps and opportunities.

Denver Community Active Living Coalition (Denver CALC) was originally created in 2015 supported by the Cancer, Cardiovascular, and Pulmonary (CCPD) grant program from CDPHE, and envisions a city with safe, convenient, and fun spaces to walk, roll, bike and take transit, where residents of all ages and abilities can connect to their environment and one another. Denver CALC works to build relationships and trust to close the gap between government and the community, while also promoting healthy lifestyles and behaviors. The new grant funds will continue to use the strong existing Denver CALC to robustly engage with residents and community partners, build trusting relationships, and build capacity (both internally and externally) to drive policy, systems, and environmental changes.

**Was this contractor selected by competitive process?** Yes

**If not, why not?**
