

TO: Denver City Council Land Use, Transportation, and Infrastructure Committee
FROM: Tony Lechuga, Senior City Planner
DATE: September 28, 2023
RE: Official Zoning Map Amendment Application #2023I-00057

Staff Report and Recommendation

Based on the criteria for review in the Denver Zoning Code, Staff recommends the Land Use, Transportation, and Infrastructure Committee move application #2023I-00057 forward for consideration by the full City Council.

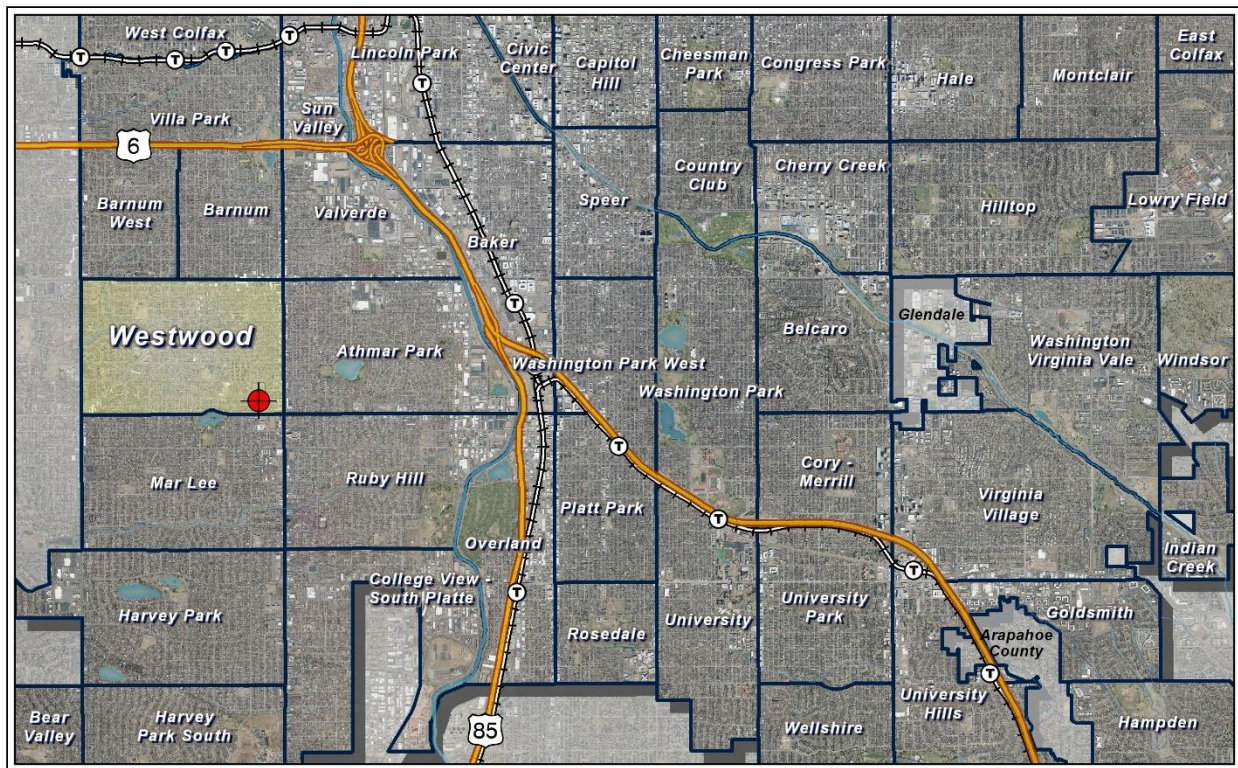

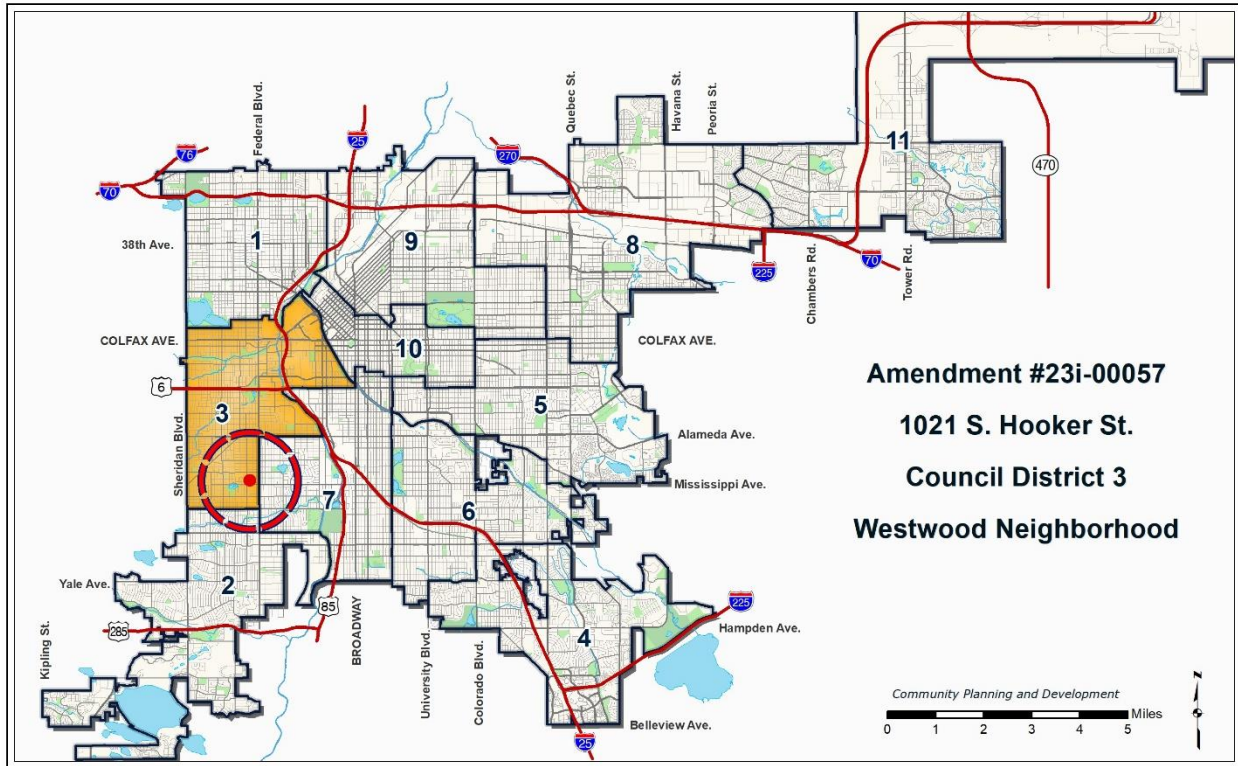

Request for Rezoning

Address: 1021 South Hooker Street
Neighborhood/Council District and CM: Westwood / Council District 3, CM Torres
RNOs: Hecho en Westwood, Far East Center, Southwest Vida, Intern-Neighborhood Cooperation (INC), Strong Denver
Area of Property: 8,962 square feet or 0.21 acres
Current Zoning: S-SU-D
Proposed Zoning: E-TU-C
Property Owner(s): Colorado Peak Homes, LLC
Owner Representative: Jesus Ibarra Amaparan

Summary of Rezoning Request

- The subject property is located in the Westwood neighborhood on the west side of South Hooker Street north of West Mississippi Avenue and directly across the street from Pascual LeDoux Academy. The property is at the end of a cul-de-sac to the north of which is the Rocky Mountain Prep Southwest Elementary Charter School and Kepner Beacon Middle School.
- The subject property is currently vacant but zoned for single-unit residential on a minimum 6,000 square foot lot.
- The proposed rezoning will allow for the property to be redeveloped with up to two units on a minimum 5,500 square foot lot.
- The requested E-TU-C district stands for Urban Edge Context – Two Unit – C, which allows for the Urban House, Duplex, or Tandem House building forms. Further details of the requested zone district can be found in Article 5 of the Denver Zoning Code (DZC).

Existing Context

The site is in the Westwood neighborhood along South Hooker Street north of West Mississippi Avenue. The neighborhood consists of mostly single-unit residential with two-unit and multi-unit residential scattered throughout. Most of Westwood consists of a regular pattern of block shapes surrounded by an orthogonal street grid with a consistent presence of alleys with Morrison Boulevard notably dissecting the neighborhood at an angle. However, the subject property is in an area of Westwood where the grid is frequently broken by the presence of institutional uses and open spaces and there is a notable absence of alleys. This particular block of South Hooker Street ends in a cul-de-sac in front of the property as the property to the north is occupied by educational uses. The east side of South Hooker Street across for the subject property is occupied by the Pascual LeDoux Academy. To the south of the subject property, across West Mississippi Avenue, is the campus of Rocky Mountain Westwood Prep Middle School and Rocky Mountain Prep SMART High School. Four blocks west along West Mississippi Avenue is Garfield Lake Park. Three blocks east at the intersection of West Mississippi Avenue and South Federal Boulevard is a bus stop for the 14, 30, 30L, and 31 bus routes. The 14 bus runs east-west between Lakewood and the I-25 & Broadway RTD Light Rail Station. The 30 and 31 buses run north-south along Federal Boulevard with the 30L making limited stops. Federal Boulevard is a Transit Priority Corridor in Blueprint Denver. Roadway and signal improvements to facilitate faster and more reliable bus service are anticipated to be constructed in the next couple of years, and Bus Rapid Transit is planning in the future.

The following table summarizes the existing context proximate to the subject site:

	Existing Zoning	Existing Land Use	Existing Building Form/Scale	Existing Block, Lot, Street Pattern
Site	S-SU-D	Vacant	The site is currently vacant.	An irregular pattern of block and lot shapes. While blocks generally run on an orthogonal grid, the grid is often interrupted by the presence of institutional uses and open spaces resulting in an inconsistent pattern of blocks, lots, and streets. This particular block has some through-lots that extend from South Irving Street all the way to South Hooker Street, and others that do not. Alleys are not typical in the area.
North	S-SU-D	Public/Quasi-public	A community garden associated with the nearby schools.	
South	S-SU-D	Single-unit Residential	A 1-story single-unit house with frontage on and a driveway off South Irving Street. The rear of the property is on South Hooker Street.	
East	S-SU-D	Public/Quasi-public	The 1-story Pascual LeDoux Academy preschool with a playground fronting on South Hooker Street.	
West	S-SU-D	Single-unit Residential	A 1-story single-unit residential with frontage on and a driveway off South Irving Street.	

1. Existing Zoning

The subject site is currently zoned S-SU-D which is a single unit residential district that allows suburban houses with a minimum zone lot of 6,000 square feet. Further details of the zone district can be found in Article 3 of the Denver Zoning Code (DZC).

2. Existing Land Use Map

3. Existing Building Form and Scale

Proposed Zoning

The requested E-TU-C zone district is a two unit district that allows for the Urban House, Duplex, and Tandem House building forms on a minimum 5,500 square foot lot. The height in the requested zone district is 2.5 stories or 30’ which is the same as in the existing zoning. The requested zoning would allow for a greater number of building forms at a higher density of two primary dwelling units per zone lot. The E-TU-C district also allows the Accessory Dwelling Unit use and building form. For additional details of the requested zone district, see DZC Section 5.3.3.

The primary building forms allowed in the existing zone district and the proposed zone district are summarized below.

Design Standards	S-SU-D (Existing)	E-TU-C (Proposed)
Primary Building Forms Allowed	Suburban House	Urban House, Duplex, Tandem House
Accessory Dwelling Units	Not Allowed	Allowed
Stories/Heights (max)	2.5/30’	2.5/30’
Minimum Zone Lot Size/Width	6,000 sf/50’	5,500 sf/50’
Primary Setbacks (min)	15’	Determined by DZC Section 13.1.5.9 subject to reference lots

Summary of City Agency Referral Comments

As part of the DZC review process, the rezoning application is referred to potentially affected city agencies and departments for comment. A summary of agency referral responses follows:

Community Planning and Development: Approved – No Comments

Assessor: Approved – No Response

Asset Management: Approved – No Comments

Denver Public Schools: Approved – No Response

Department of Public Health and Environment: Approve Rezoning Only – Will require additional information at Site Plan Review. Denver Department of Public Health & Environment - Division of Environmental Quality (EQ) does not guarantee approval of any proposed development project at this site by providing a response to this Official Map Amendment Referral Agency Review Request. Future development is subject to existing land use controls and other environmental requirements in accordance with applicable local, state, and federal environmental regulations and statutes. EQ recommends the Property Owner conduct an environmental site assessment to determine the potential presence, nature, and extent of possible contamination on the site and to identify specific cleanup needs associated with future development. EQ may have additional information about localized potential environmental concerns at the site. However, providing such information about a specific site is beyond the scope of these zoning application comments.

Denver Parks and Recreation: Approved – No Comments

Public Works – R.O.W.- City Surveyor: Approved – No Comments

Development Services – Project Coordination: Approved – No Response

Development Services - Fire Protection: Approved – No Comments

Development Services – Transportation: Approved – No Response

Development Services- Wastewater: Approved – See Comments. There is no public sanitary sewer in the property frontage.

Public Review Process

	Date
CPD informational notice of receipt of the rezoning application to all affected members of City Council, registered neighborhood organizations, and property owners:	07/21/23
Property legally posted for a period of 15 days and CPD written notice of the Planning Board public hearing sent to all affected members of City Council, registered neighborhood organizations, and property owners:	09/05/23
Planning Board voted via the consent agenda 9-0 to advance the application to the City Council	09/20/23
CPD written notice of the Land Use, Transportation and Infrastructure Committee meeting sent to all affected members of City Council and registered neighborhood organizations, at least ten (10) working days before the meeting:	09/21/23
Land Use, Transportation and Infrastructure Committee of the City Council moved the bill forward:	10/03/23
Property legally posted for a period of 21 days and CPD notice of the City Council public hearing sent to all affected members of City Council and registered neighborhood organizations:	11/06/23 (tentative)
City Council Public Hearing:	11/27/23 (tentative)

- **Public Outreach and Input**
 - **Registered Neighborhood Organizations (RNOs)**
 - To date we have received no comments from RNOs.
 - **General Public Comments**
 - To date we have received three letters of opposition, all noting the increase this would bring to traffic and out-of-character development.

Criteria for Review / Staff Evaluation

The criteria for review of this rezoning application are found in DZC, Sections 12.4.10.7 and 12.4.10.8, as follows:

DZC Section 12.4.10.7

1. Consistency with Adopted Plans
2. Uniformity of District Regulations and Restrictions
3. Public Health, Safety and General Welfare

DZC Section 12.4.10.8

1. Justifying Circumstances
2. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

1. Consistency with Adopted Plans

The following adopted plans apply to this property:

- *Denver Comprehensive Plan 2040 (2019)*
- *Blueprint Denver (2019)*
- *Westwood Neighborhood Plan (2014)*

Denver Comprehensive Plan 2040

The proposed rezoning is consistent with many of the adopted *Denver Comprehensive Plan 2040* strategies, which are organized by vision element.

The proposed rezoning would allow for additional housing options in an established neighborhood, consistent with the following strategies in the Equitable, Affordable, and Inclusive vision element:

- Equitable, Affordable and Inclusive Goal 1, Strategy A – Increase development of housing units close to transit and mixed-use developments (p. 28).
- Equitable, Affordable and Inclusive Goal 2, Strategy B – Create a greater mix of housing options in every neighborhood for all individuals and families (p. 28).

The proposed rezoning is consistent with the following strategies in the Environmentally Resilient vision element:

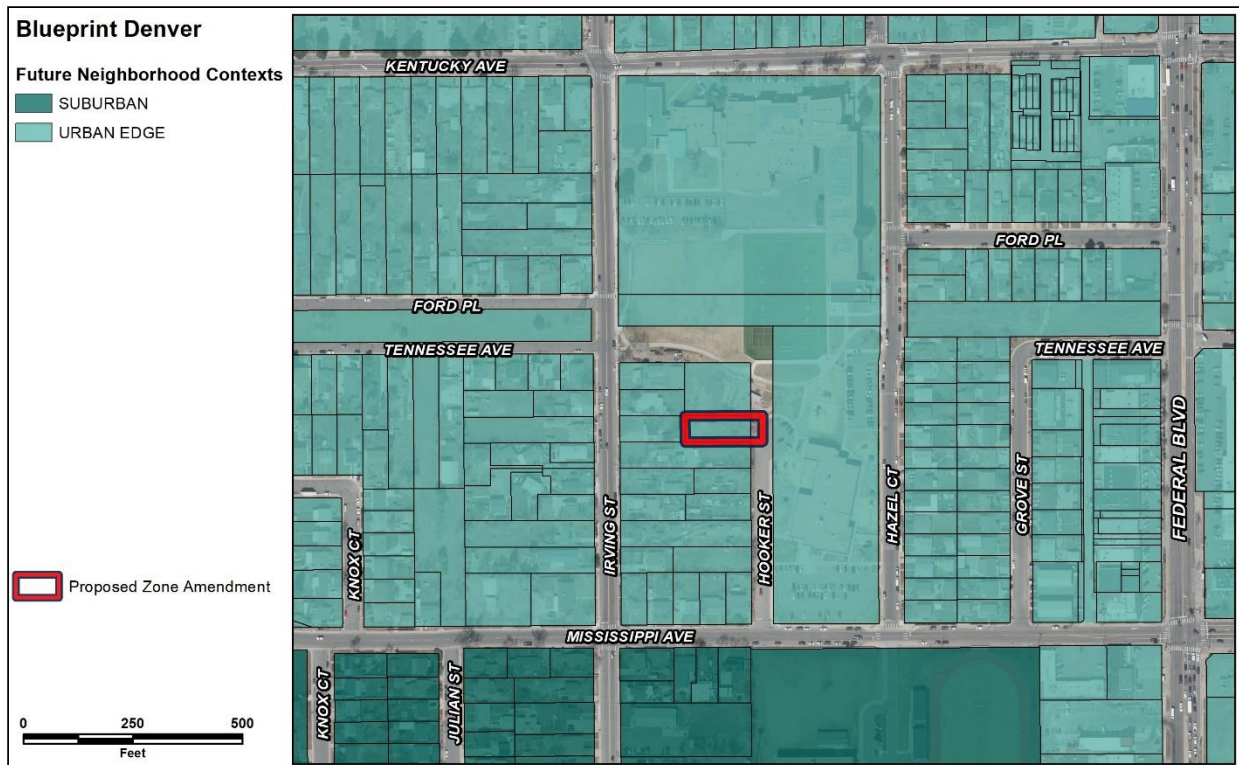

- Environmentally Resilient Goal 8, Strategy A – Promote infill development where infrastructure and services are already in place (p. 54).
- Environmentally Resilient Goal 8, Strategy B – Encourage mixed-use communities where residents can live, work and play in their own neighborhoods (p. 54).

The rezoning would take advantage of increasing density at an infill location on a vacant site. The site is close to transit and services along Federal Boulevard as well as multiple schools and open spaces.

Blueprint Denver

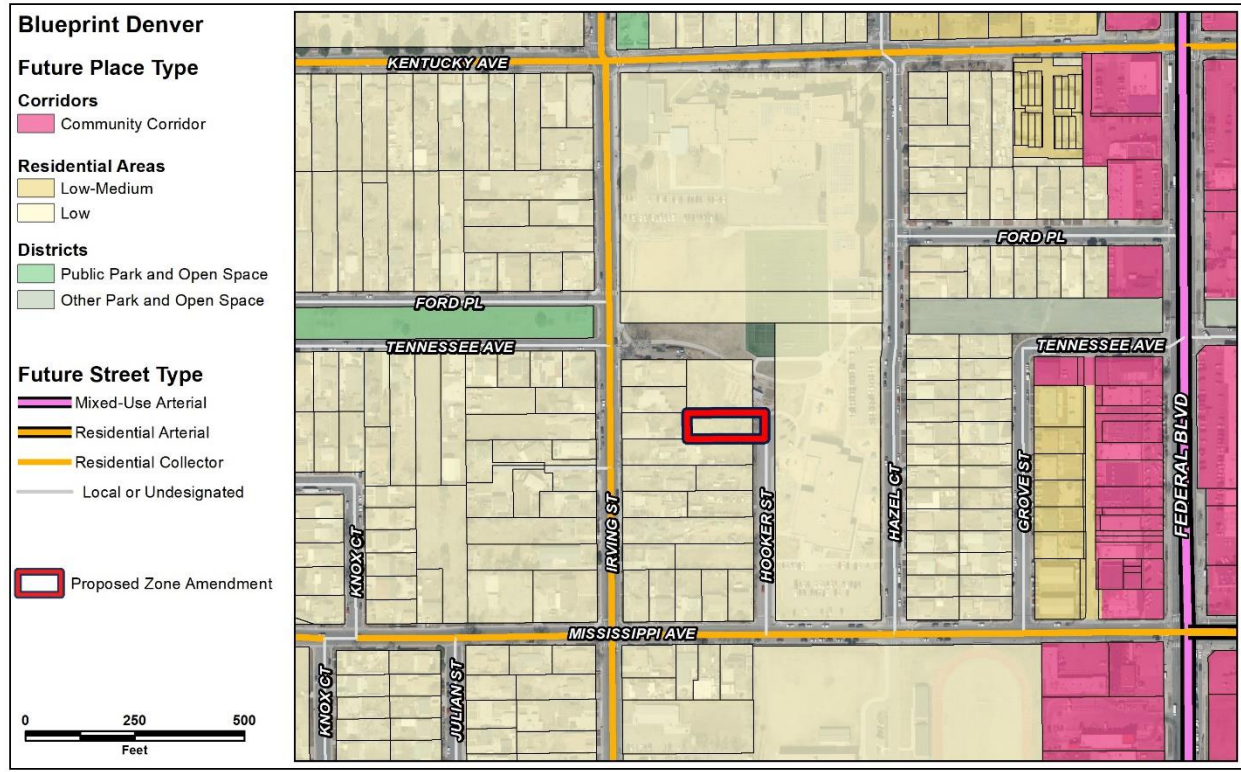

Blueprint Denver was adopted in 2019 as a supplement to *Comprehensive Plan 2040* and establishes an integrated framework for the city’s land use and transportation decisions. *Blueprint Denver* identifies the subject property as part of a Local Center place within the Urban Neighborhood Context and provides guidance from the future growth strategy for the city.

Blueprint Denver Future Neighborhood Context

In *Blueprint Denver*, future neighborhood contexts are used to help understand differences in things like land use and built form and mobility options at a higher scale, between neighborhoods. The subject property is shown on the context map as Urban Edge neighborhood context. The neighborhood context map and description help guide appropriate zone districts (p. 66). The Urban Edge neighborhood context is described as “predominantly residential” typically low-scale single- and two-unit residential with some small-scale multi-unit residential” (p. 205). The proposed E-TU-C zone district is part of the Urban Edge context and is intended to “promote and protect residential neighborhoods within” and “allow for some multi-unit districts, but not to such an extent as to detract from the overall image and character of the residential neighborhood” (DZC 4.2.2.1). Since the proposed district allows a small increase in density without substantial increase in building forms, the proposed rezoning to an Urban Edge context is appropriate and consistent with the plan.

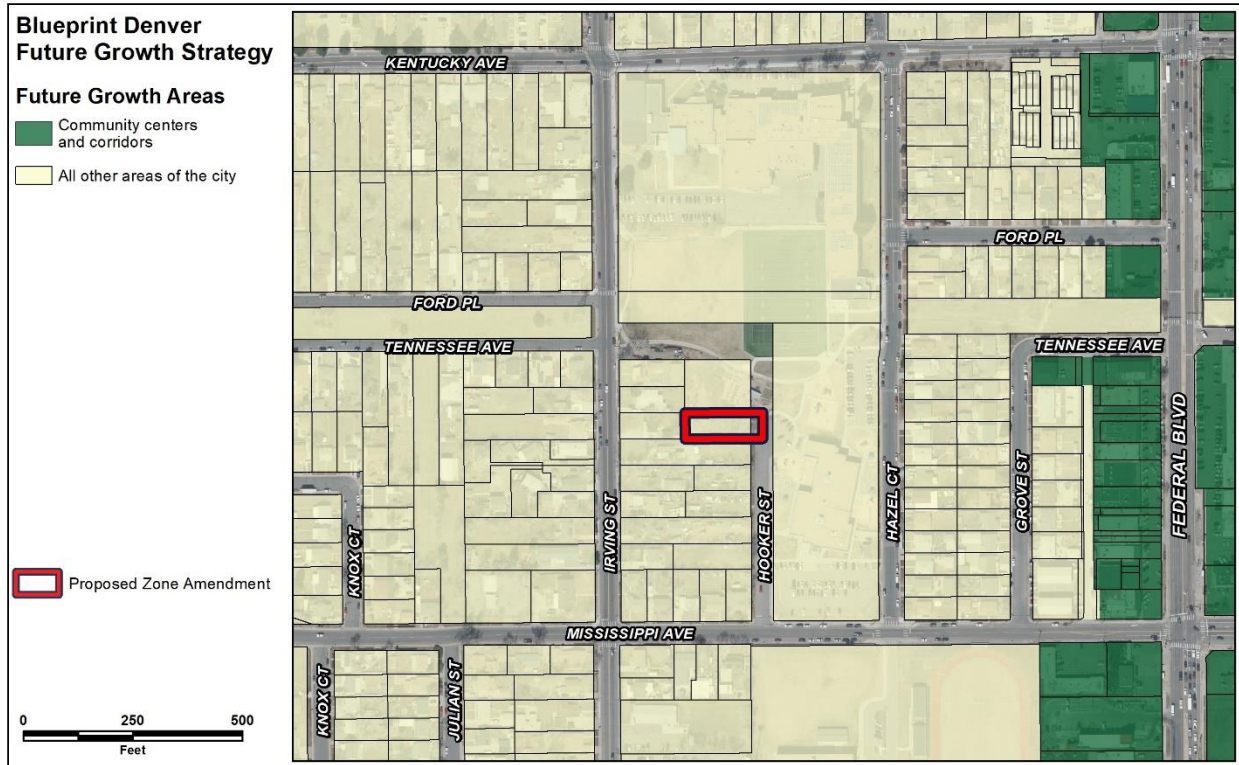

Blueprint Denver Future Places

The subject property is designated as Low Residential. *Blueprint Denver* describes Low Residential as “Predominantly single- and two-unit uses on small or medium lots. Accessory dwelling units and duplexes are appropriate and can be thoughtfully integrated where compatible” (p. 214). *Blueprint Denver* also recommends that further guidance be provided by the small area plan (p. 62), which is described further in this report. The proposed E-TU-C zone district is consistent with the Low Residential place as it would allow two-unit building forms with appropriately scaled heights.

In *Blueprint Denver*, future street types work in concert with future places to evaluate the appropriateness of the intensity of the adjacent development (p. 67). The three volume classifications of Local, Collector, and Arterial, are further refined by six types of surrounding context. South Hooker Street is a local street which are predominantly defined by residential uses. The proposed E-TU-C zone district is consistent with this street type as it would allow for residential uses.

Blueprint Denver Growth Strategy

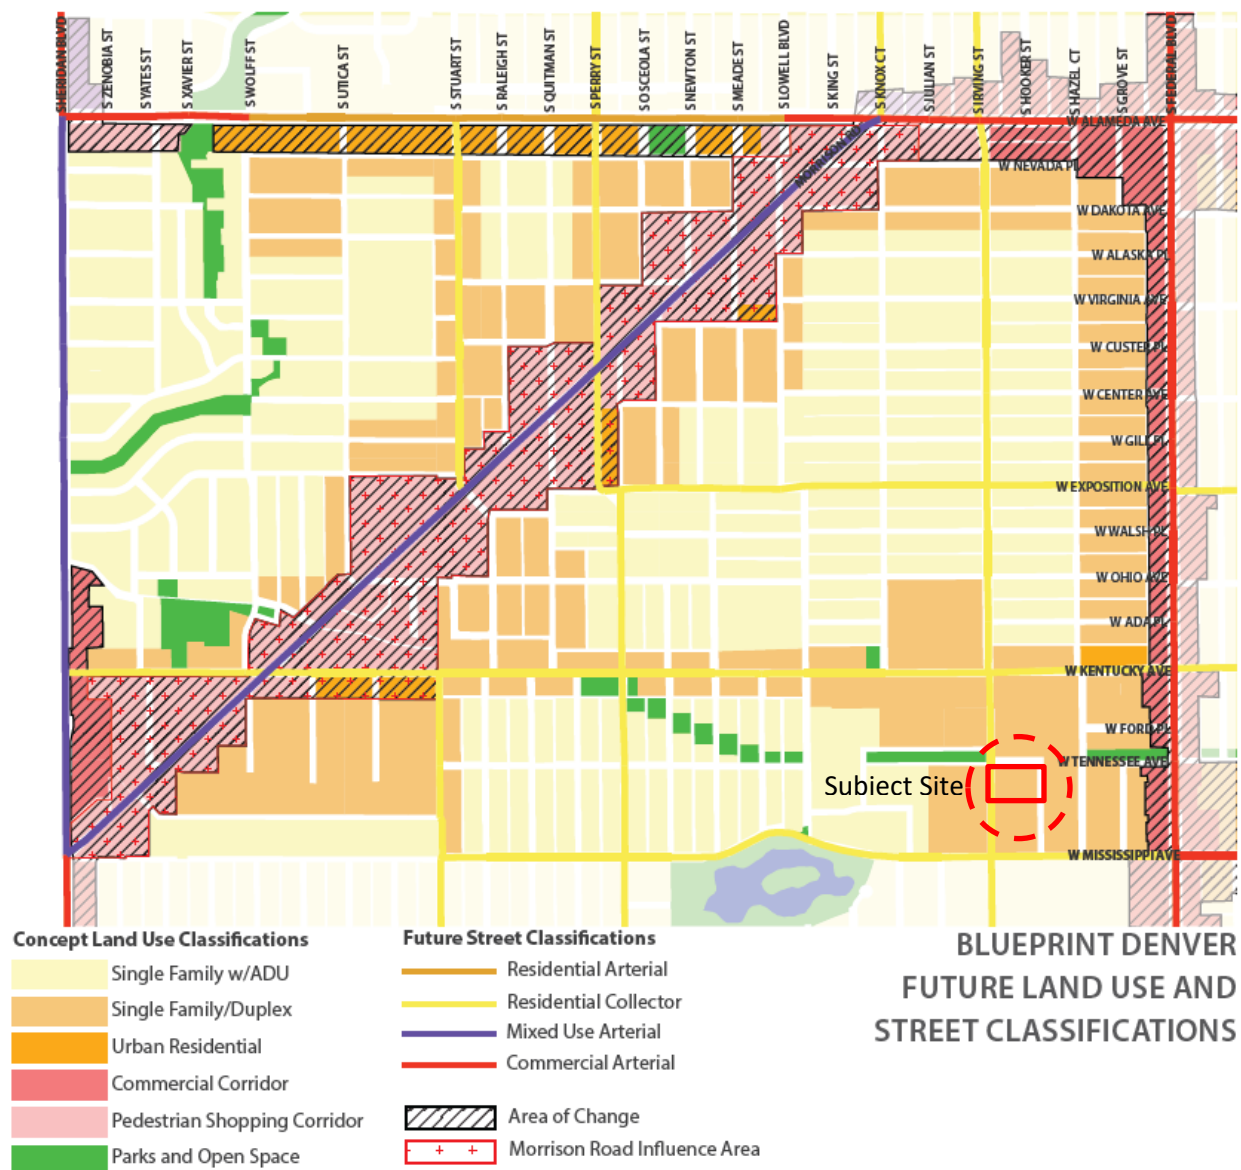

Blueprint Denver's growth strategy map is a version of the future places map, showing the aspiration for distributing future growth in Denver (p. 51). The subject property is part of all other areas of the city which are anticipated to see around 20% of new housing growth and 10% of new employment growth by 2040 (p. 51). The proposed E-TU-C will allow for a slight increase in density in this primarily residential area with good access to jobs, housing, and services.

Westwood Neighborhood Plan (2016)

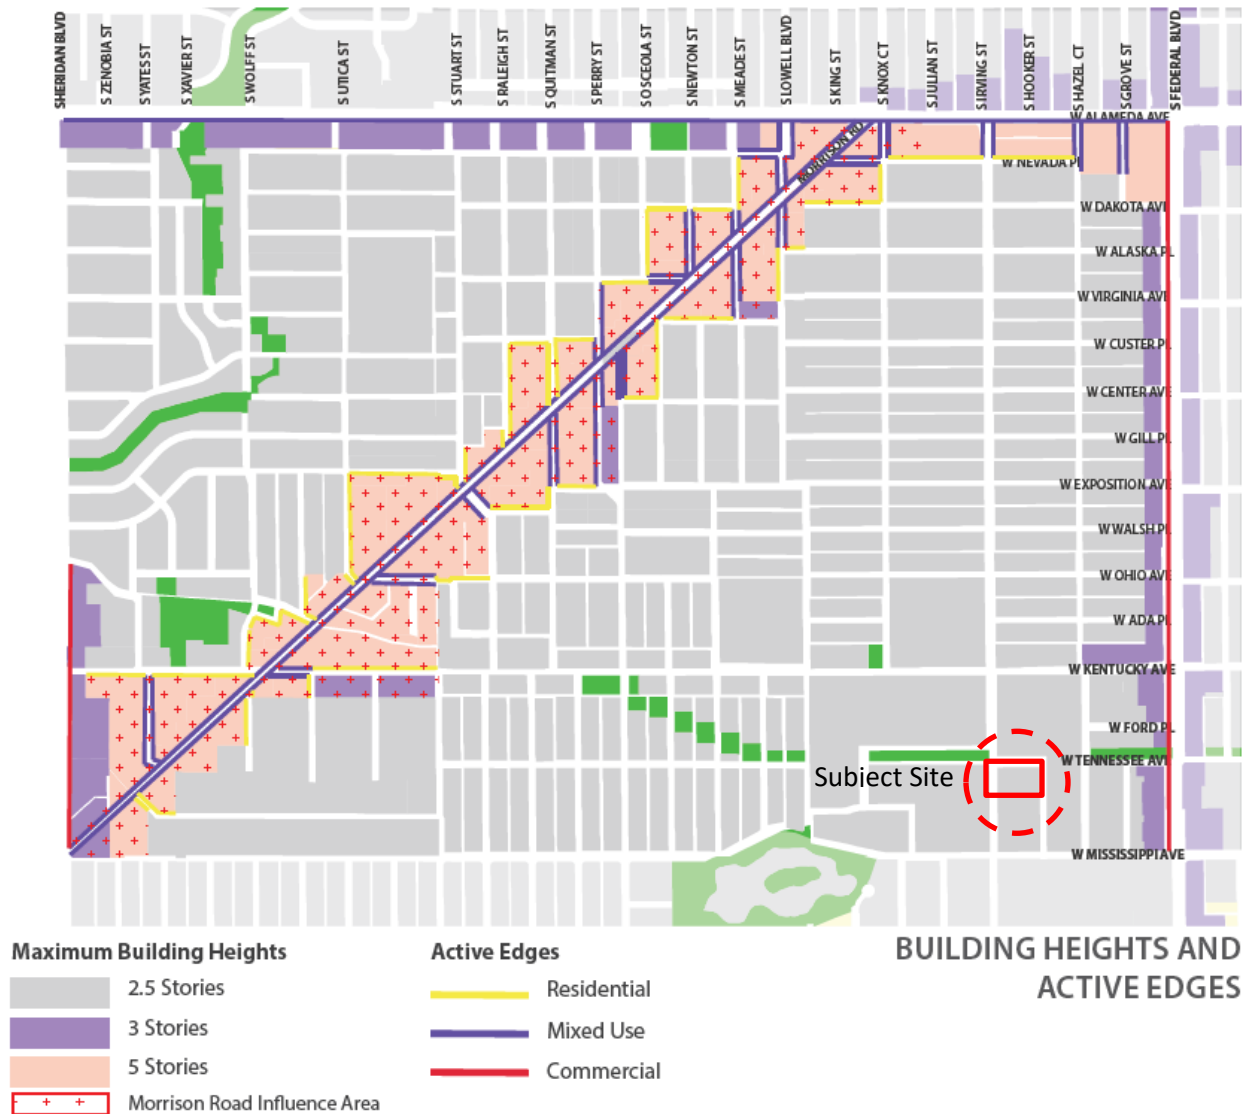

The *Westwood Neighborhood Plan* was adopted in 2016 and outlines the vision, recommendations, and implementation strategies for evolution and enhancement of the community. The plan sets forth a comprehensive, holistic approach, weaving together a nuanced set of strategies that collectively will continue to elevate Westwood into a connected, celebrated, resilient, and healthy neighborhood.

The property is identified as Single Family/Duplex in the Concept Land Use Classifications which is described as “moderately dense areas that have a mixture of housing types, including single-family houses, duplexes, tandem houses and ADUs” (p. 77).

The plan further notes that “much of the neighborhood for Single Family/Duplex is currently zoned E-TU-C which implements the plan vision” and that “single-unit zoning does not implement the vision for the areas identified [Single Family/Duplex]” so “map amendments should be either explored as redevelopment occurs, or more proactive by either City Council or City initiated rezoning” (p. 78). Therefore, the proposed rezoning to E-TU-C is consistent with the small area plan’s guidance.

Maximum heights at this location are noted as 2.5 stories. While the E-TU-C allows for a broader set of building forms, each of them has a maximum height of 2.5 stories. Therefore, the proposed E-TU-C district is consistent with the height guidance.

2. Uniformity of District Regulations and Restrictions

The proposed rezoning to E-TU-C will result in the uniform application of zone district building form, use and design regulations.

3. Public Health, Safety and General Welfare

The proposed official map amendment furthers the public health, safety, and general welfare of the City through implementation of the city's adopted land use plans and allowing a subtle increase in density in a walkable neighborhood near transit and amenities.

4. Justifying Circumstance

The application identifies the implementation of a City adopted plan as the justifying circumstance. The language in the *Westwood Neighborhood Plan* is explicit that E-TU-C is the desired zone district for this area and this rezoning would result in implementation of that statement. Both *Blueprint Denver* and the *Westwood Neighborhood Plan* were adopted after the existing zoning was put in place and are therefore a justifying circumstance for the proposed rezoning.

5. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

The proposed E-TU-C zone district is consistent with the neighborhood context, purpose, and intent statements. The planned neighborhood context is Urban Edge and the proposed rezoning would result in the Urban Edge neighborhood context. The E-TU-C would comply with the general purpose statement by allowing for two-unit residential without detracting from the overall image and character of the neighborhood. The E-TU-C zone district meets the intent statement by allowing low-scale residential building forms on a lot with a minimum 5,500 square feet.
