5. General description or background of proposed request; include attached executive summary if more space needed:

The goal of this public health project is to promote community-based commercial tobacco control work as identified by the Tobacco Education, Prevention and Cessation Program. Funding of this project was created by Colorado Revised Statutes 25-3.5-804 that supports funding for community-based tobacco education programs designed to reduce initiation of tobacco use by youth, promote cessation of tobacco use among youth and adults, as well as reduce exposure to secondhand smoke as well as vapor.

In Colorado, tobacco use is the single most preventable cause of death as well as disease, accounting for more than 5,100 deaths each year. In addition, it costs the state more than \$1.8 billion in health care expenditures as well as more than \$1 billion in lost productivity each year. The State's 2030 Education, Prevention and Cessation Tobacco Strategic Plan recommends taking a comprehensive approach to lower the number of illnesses, disabilities, as well as fatalities caused by tobacco use. A multi-pronged approach comprising commercial tobacco control strategies will be used to accomplish: 1) Community education on policies that influence tobacco use/reduce health disparities; 2) Authentic community engagement to create community-specific tobacco prevention activities; 3) Promotion of culturally-tailored tobacco treatment resources; 4) Education on survey data specific to tobacco priority populations; 5) Building/maintenance of tobacco subject matter expertise; and 6) Implementation of evidence-based tobacco program interventions.

Scope of Work:

The Tobacco Program uses evidence-based strategies to address the goal areas developed by the Colorado Department of Public Health and Environment. The objectives the program has written for FY24 include the following:

Objective: Advance the implementation of evidence-based, culturally responsive, community-oriented tobacco control strategies that align with the 2030 Education, Prevention and Cessation Tobacco Strategic Plan.

Objective: Complete a tobacco-focused community profile (TFCP).

Objective: Collaborate with the designated Colorado Department of Public Health and Environment (CDPHE) STEPP Program Officer, draft an implementation plan outlining the following:

1. The strategy(ies) in which the project will focus, based on the information in the TFCP.
2. The detailed steps which the Contractor shall take to address the objective of this agreement.

Objective: Implement activities listed in the CDPHE-approved annual implementation plan.

Objective: Implement capacity-building activities as identified in the CDPHE-provided local public health agency framework.

Objective: Facilitate the reduction of tobacco-related health disparities among priority populations in the Contractor’s catchment area.

Objective: Implement the tobacco policy change processes designed to reduce prevalence/initiation of tobacco use through the adoption of tobacco policy changes.

Objective: Implement the tobacco policy change processes designed to reduce exposure to secondhand smoke as well as vapor, through the adoption of tobacco policy changes.

Objective: Facilitate access to/uptake of evidence-based tobacco treatment services using culturally appropriate strategies.

Objective: Complete all required grant reporting requirements.
