5. General description or background of proposed request. Attach executive summary if more space needed:
(who, what, why)
The City and DPR propose this Cost Sharing Agreement with JV LoDo Denargo LLC (c/o Golub and Company) to plan, design, and construct a 4.26 acre park and open space promenade along the South Platte River frontage immediately adjacent to and associated with JV LoDo Denargo LLC's Denargo Market Redevelopment Project. The area of improvement consists of OS-C zoned open space, DPR property, Right of Way property, Private owned property, and several utility easements. Although most of the park will reside on City owned land, the Developer is incorporating a Metro District into their development plan to maintain the park under a proposed future maintenance agreement. The park will consist of a community garden, a playground, public art, passive shade and seating areas, landscaping and trees, a trail connection to the S. Platte River Trail, and a large Rhino structure, of which a portion is climbable. CCD has agreed that DPR will fund up to but not to exceed $3 million.

Resolution/Bill Number: _____   Date Entered: _____

In 2020 DPR initiated an engagement with JV LoDo Denargo LLC (c/o Golub and Company) and a newly formed Metropolitan District for the Denargo Market redevelopment, with the intent to share the cost of designing, constructing and maintaining public parks along the South Platte River on city-owned land. The Developer/Metro District already had a design team selected (Sasaki Associates) and a CM/GC General Contractor on board (Swinerton). The consultant and general contractor were both selected through a competitive process led by the Developer without DPR involvement. Upon review of their qualifications for the work, DPR found that both Sasaki and Swinerton are qualified to work on DPR projects. Sasaki is on DPR's current design on-call contract and Swinerton is prequalified by DOTI contracts. Currently, Swinerton is prequalified in categories 2A at $50M, 2B at $50M and in 2C at $1.5M. Through the cost sharing agreement, they have agreed to all prevailing wage, DSBO, and public art stipulations required by all City procured construction contracts. The construction of park improvements at Denargo is a relatively small proportion of the overall site development program that Golub, the Metro District and Swinerton are undertaking. The remaining work consists of public and private rights of way, utilities, streets, sidewalks, landscaping, and urban design amenities to build out the entire community. The benefit to DPR is that for a relatively small investment, DPR will receive important assets that benefit both the new development and the larger community
