Background: 2015 Directional Boring Master On-Call will be used to install electrical conduits through out the City to support traffic signals rebuild programs, Interconnects system, and (ITS) intelligent traffic system infrastructures construction and/or rebuilds. All work will be per the current Denver Traffic standards. Conduit types range from 2", 3", 4" and 6" to a bundle of 2"/3" to multiples of 3" conduits. Fiber optic cable installation included (MM) multimode to (SM) single mode installation. No civil work is anticipated, but concrete and landscape restoration is included in this contract. Each project will be scoped, priced and authorized separately and all work will be supervised and directed by a Traffic Engineering project manager.
