5. General description or background of proposed request. Attach executive summary if more space needed:

L3 Harris provides access to its EnvironmentalVue aircraft noise monitoring system and to its PublicVue public web application, as well as providing NextGen radar data and services necessary to integrate its applications with existing Denver International Airport (DEN) applications from other vendors, such as ARTSMAP (software). L3 Harris also provides associated technical support and maintenance for the system. The DEN EnvironmentalVue system will be used to analyze the noise effects from DEN aircraft within surrounding communities, as well as to generate data used by the ARTSMAP software to determine compliance with the aircraft noise provisions of the 1988 Denver/Adams County Intergovernmental Agreement on a New Airport (IGA). Continued availability of the EnvironmentalVue system is critical to DEN's ability to comply with its legal obligations contained in the IGA. No additional funds have been added via this amendment. This request is for a term extension only.

Continued availability of the EnvironmentalVue system is critical to DEN's ability to comply with its legal obligations contained in the IGA.

Was this contractor selected by competitive process? No, non-competitive amendment. **If not, why not?** No alternative exists, other than the competing Noise and Operations Monitoring System (NOMS) software that DEN previously used, which was replaced by EnvironmentalVue. EnvironmentalVue is the best current solution to meet DEN's needs, and support for it can only be provided by the vendor, L3 Harris Corporation, as it is proprietary software.

Has this contractor provided these services to the City before? Yes No

Source of funds: Operation and Maintenance (O&M)

Is this contract subject to: W/MBE DBE SBE XO101 ACDBE N/A

WBE/MBE/DBE commitments (construction, design, Airport concession contracts): Not applicable.

Who are the subcontractors to this contract? Not applicable.
