Hello again from the Harrison Family!

We stopped by again to let you know we have been making good progress in our pursuit to rezone 1630/1628 S Ogden Street. As we discussed in October, a large part of the process is the community outreach. We are very pleased with the amount of support we have received around the block. As such, both the Platt Park neighborhood organization (3PA), and the city of Denver, would ideally like to receive letters of support, in the event neighbors felt so inclined. Because you had previously expressed positive feedback, we were curious if you would be willing to provide us a short letter of support for our idea to re-zone? Nothing fancy is required, a simple email is plenty sufficient. We know these are busy times, so we appreciate any support you might be willing to provide!

As a refresher, 1628-1630 S Ogden is a unique lot, in that we currently have two separate detached homes on the one property. Our desire would be to build an attached/more typical two-unit/paired home on the lot, instead of having two separate older homes. We recently learned that we need to apply for a "re-zoning" to get approval for this idea. The two homes we currently have are very old, and the layout is unsafe for children with steep stairs and old windows, wiring, etc. We would love the opportunity to keep two units on the property but align them with the applicable zoning and construction codes with a new build. Our goal is to use a local architect and builder who knows/appreciates Platt Park; and build something that fits the current styles and character of the neighborhood.

Thank you again for your support, and we look forward to hearing from you!

Brendan & Katie Harrison

Hello from the Harrison Family!

Sorry we missed you! We popped by to introduce ourselves and let you know we are considering a little project in the neighborhood on Ogden Street. We own 1630/1628 S Ogden Street, and are looking into the idea of building a new home there. It is a unique lot, in that we currently have two separate detached homes on the one property. Our desire would be to build an attached/more typical two-unit home on the lot, instead of having two separate older homes. We have recently learned that we need to apply for a "re-zoning" to get approval for this idea. The two homes we currently have are very old, and the layout is unsafe for children with steep stairs and old windows, wiring, etc. We would love the opportunity to keep two units on the property but align them with the applicable zoning and construction codes with a new build. Our goal is to use a local architect and builder who knows/appreciates Platt Park; and build something that fits the current styles and character of the neighborhood.

We wanted to touch base to see if you or your loved ones have any concerns, questions, or support for this idea. We welcome any feedback and look forward to hearing from you!

Thank you for your time!

RE: Rezone Request for  
Harrison Family - 1628 & 1630 S Ogden St

To Whom It May Concern,

I am signing this letter to express my support for the Harrison Family request for a re-zone at 1628 and 1630 S Ogden Street. I am aware two units have existed on this same lot for decades, so in this unique situation, I think reconfiguring to an attached two-unit would be a fine addition to our neighborhood.

Thank you for your consideration,

Re: 1628-1630 S Ogden rezone support

November 7<sup>th</sup>, 2023

To Whom It May Concern,

I am writing this letter to express my support for the Harrison's request for a re-zone at 1628-1630 S Ogden Street. I am aware this has been a two-unit property for decades, and we think their plan for rezoning and building a new two-unit home would fit nicely within the Platt Park neighborhood.

Thank you for your consideration,

A handwritten signature in black ink, appearing to read "Sean Billings". The signature is fluid and cursive, with the first name "Sean" and last name "Billings" clearly distinguishable.
