5. General description or background of proposed request. Attach executive summary if more space needed:

In December 2022, Denver began experiencing a significant influx in the number of newly arriving immigrants and asylum seekers. To avoid a humanitarian crisis, the City and County of Denver (City) activated several emergency shelters and services. Throughout 2023 and into 2024, Denver has experienced a continued and fluctuating flow of new arrivals. Some of these new arrivals desire to move onward to other destinations, while others wish to stay in Denver as newcomers to the City. Since December 2022, the City and County of Denver has welcomed over 40,000 newcomers to the United States.

Recognizing the benefits of case management in integrating newcomers into the Denver community or supporting them as they pursue opportunities elsewhere, the City has identified a contractor through a competitive solicitation process to administer enrollment in the DASP and manage communications with newcomers seeking enrollment and participating in the program, as well as providing food and personal items assistance to newcomers, citywide.
