Subject site, looking southeast from intersection of Irving and Arkansas (Google Maps)

Multi-unit residential north of subject site, looking northeast (Google Maps)

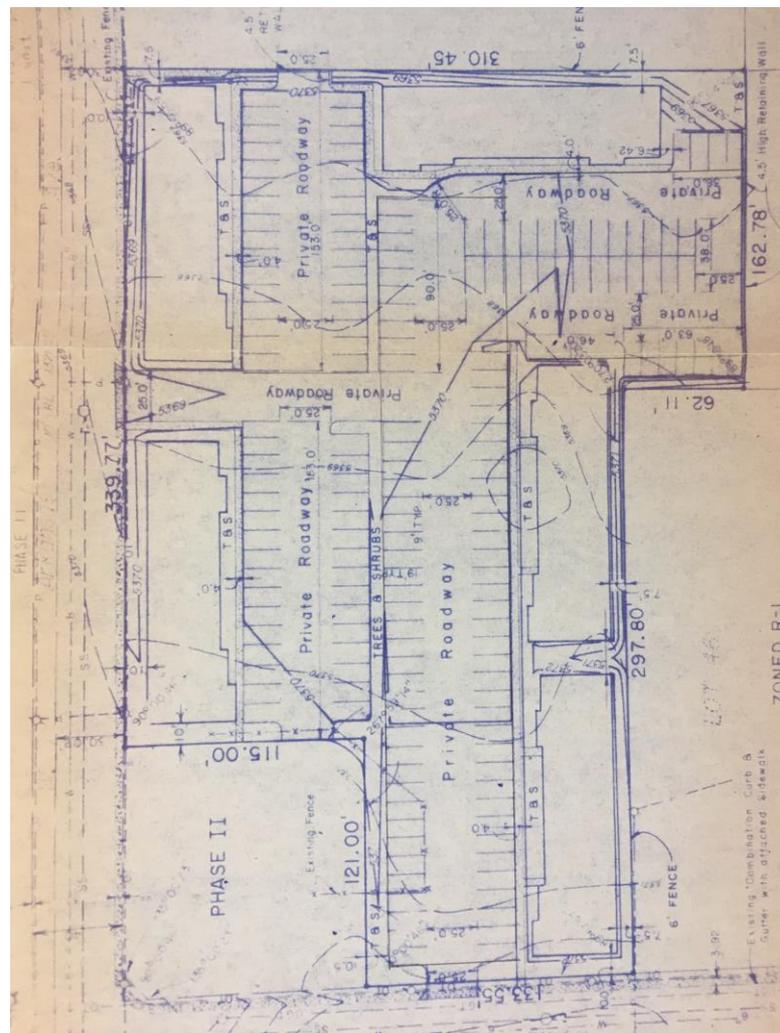

Existing Context – Form/Scale

Homes west of subject site (Google Maps)

- Established 4 years post-construction to replace previous PUD
- Permits 116 residential units on site
Permits 3-story building height
- Permitted an existing home business (drapery manufacturing) to continue in the residential structure
- Acknowledged existing landscaping and building setbacks.

- **1978: apartment parcel rezoned from O-1 to PUD 3**
 - Property contained greenhouses.
 - PUD 3 permitted 115 apartment units and one residential “manager’s” unit (116 residential units total).
 - PUD map excluded single-family parcel, referenced as an error in subsequent PUD 180 documents.

- **1981: Five 3-story apartment structures completed**
 - Building permits show inconsistent number of units (some list 23, others 24, several have “23” scratched out, without explanation).
 - No subsequent building permits for reconfigurations or other changes.
 - Structures likely built with 24 one-bedroom units, for a total of 120 units.

- **1985: new PUD 180 incorporates single-family parcel**
 - Requested to incorporate single-family property, then envisioned as recreational or other amenity for tenants. Residential property was then in use as a business.
 - Retains “maximum dwelling units: 116” stipulation.
 - Total number of units on site now at 121.

PUD 180 (adopted Nov. 1985)

basis for the proposal: either (a) the error in the map as approved by city council, or (b) the changed or changing conditions making the proposed amendment necessary.

The purpose of this application for a zoning amendment is to rectify the omission of BARMORE INTERIORS, housed at the Barmore residence 1400 S. Irving Street, from the original P.U.D. #3. The cause of this omission is as follows:

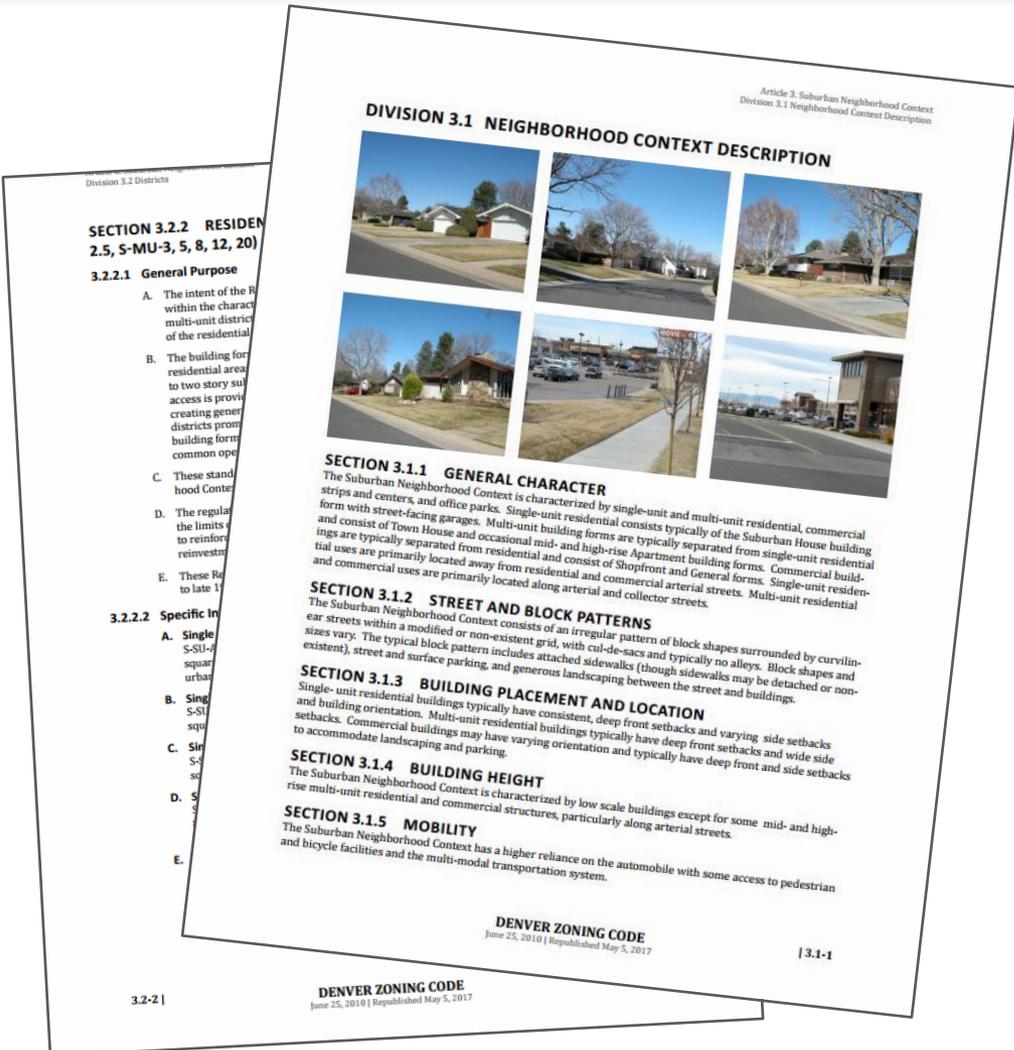

Prior to the P/U.D. #3 designation, the property was zoned Agricultural and contained a commercial greenhouse, offices and BARMORE INTERIORS. This

2. a. Maximum gross floor area for each proposed use. Explain or define the uses. Terms like "retail" or "light industrial" must be defined in detail. To do this the applicants should refer to the various uses listed in a specific zone district of the Zoning Code.

	Existing Multi-Family Residential	92,400 Sq. Ft.
For residential projects - indicate the maximum dwelling units <u>116</u> with interior business * use	use Existing Residence	2,700 Sq. Ft.
	use	Sq. Ft.
Density or the ratio of dwelling units per acre equals <u>40.66</u> units/acre	use	
	TOTAL	95,100 Sq. Ft.

Use the space at the bottom of the page for additional information.

Suburban Neighborhood Context – Residential Multi Unit – 3 Stories Max

- Residential uses in this Neighborhood Context characterized by Suburban House forms and “occasional mid- and high-rise Apartment building forms.”
- Zone district allows Suburban House, Apartment Building and other residential building forms.
- Max Height: 3 stories

Denver Zoning Code Review Criteria

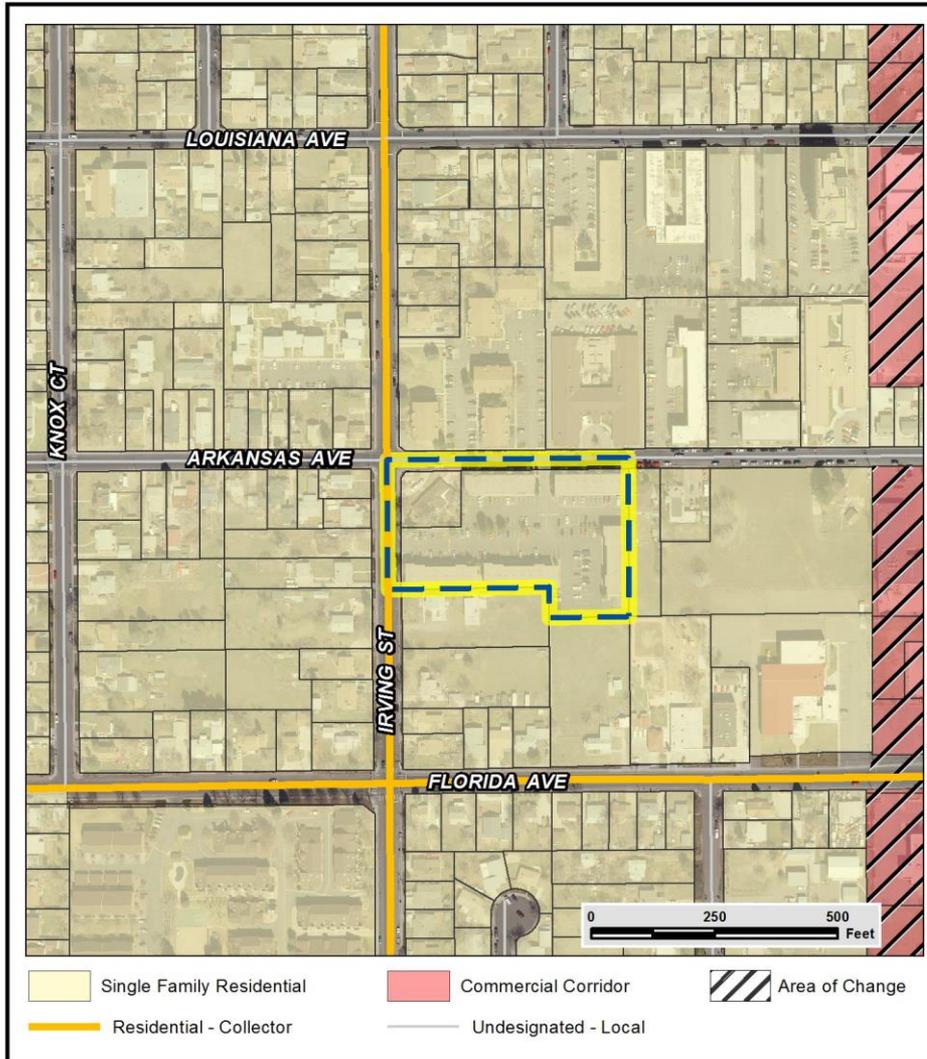

1. Consistency with Adopted Plans
2. Uniformity of District Regulations
3. Further Public Health, Safety and Welfare
4. Justifying Circumstances
5. Consistency with Neighborhood Context, Zone District Purpose and Intent

Denver Zoning Code Review Criteria

1. Consistency with Adopted Plans
 - Comprehensive Plan (2000)
 - Blueprint Denver: A Land Use and Transportation Plan (2002)
2. Uniformity of District Regulations
3. Further Public Health, Safety and Welfare
4. Justifying Circumstances
5. Consistency with Neighborhood Context, Zone District Purpose and Intent

Comprehensive Plan 2000

- Housing Objective 2: encourage preservation of existing housing stock.
- Housing Strategy 2-C: streamline codes and policies for residential infill development.
- Housing Strategy 6-B: support affordable rental housing near transit services.
- Land Use Objective 2: update regulations and procedures to be consistent with Citywide Land Use and Transportation Plan.
- Land Use Recommendation (p. 47): update and simplify city's land use regulatory system whenever possible.

Blueprint Denver (2002)

- Land Use Concept: Single Family Residential
- Area of Stability

Proposed rezoning:

- Contributes to stability of residential area by allowing continued operation and reinvestment in existing residential use
- Would reduce opportunities for non-residential uses allowed in PUD
- Preserve housing diversity close to Enhanced Transit Corridor (Federal Boulevard)

Denver Zoning Code Review Criteria

1. Consistency with Adopted Plans
2. Uniformity of District Regulations
 - Request is consistent.
3. Further Public Health, Safety and Welfare
 - Implements adopted plans and policies for walkable development and housing diversity.
4. Justifying Circumstances
 - The existing zoning of the land was the result of an error. The updated PUD 180, adopted in 1985 after the apartment development had been built, should have accurately reflected the 121 residential units on the site, rather than 116.
5. Consistency with Neighborhood Context, Zone District Purpose and Intent
 - The S-MU zone districts promote existing and future patterns of multiple building forms on a single lot, organized around common open space and parking areas with internal circulation systems.

CPD recommends approval, based on finding that all review criteria have been met

1. Consistency with Adopted Plans
2. Uniformity of District Regulations
3. Further Public Health, Safety and Welfare
4. Justifying Circumstances
5. Consistency with Neighborhood Context, Zone District Purpose and Intent
