Proposal: PUD-G 19

Purpose of PUDs (Denver Zoning Code Sec. 9.6.1)

- To provide an alternative set of regulations in unique and extraordinary circumstances
- More flexible zoning than what is achievable in standard zone district without multiple variances, waivers, and conditions

Proposal: PUD-G 19

PUD-G 19 is proposed to address several unique circumstances, including:

- Location in the Downtown context
- Adjacencies to Lower Downtown & Coors Field
- Site configuration including the lack of a Wynkoop Street extension through the site, the lack of an alley, and the grade change along 20th Street

Proposal: PUD-G 19

Given the site's unique conditions, the PUD uses D-AS-12+ as a base district with tailoring and incorporation of C-MX-12 regulations as appropriate. Key elements include:

- Tailored primary building form standards, alternatives and exceptions, including a height transition from 19th to 20th Streets
- Provision of Wynkoop Promenade
- Establishment of Primary and Side Street zone lot lines, including treatment of Wynkoop Promenade as a Primary Street
- Provision of 20% Private Open Space
- Administrative Design Standards and Guidelines
- Maximum vehicle parking

 - High-quality urban design, pedestrian-friendly design and multi-modal transportation

Blueprint Denver (2002)

- Use of PUD

“Concerns with PUDs are that their widespread proliferation has increased the complexity of regulating land use, and the conditions they place on development sometimes perform poorly and inflexibly once the PUD has been adopted....to limit the future excess of PUDs, the city should reserve them for special situations and should provide tighter standards that define what type and scale of development will qualify for this zone definition.” (p. 82-83)

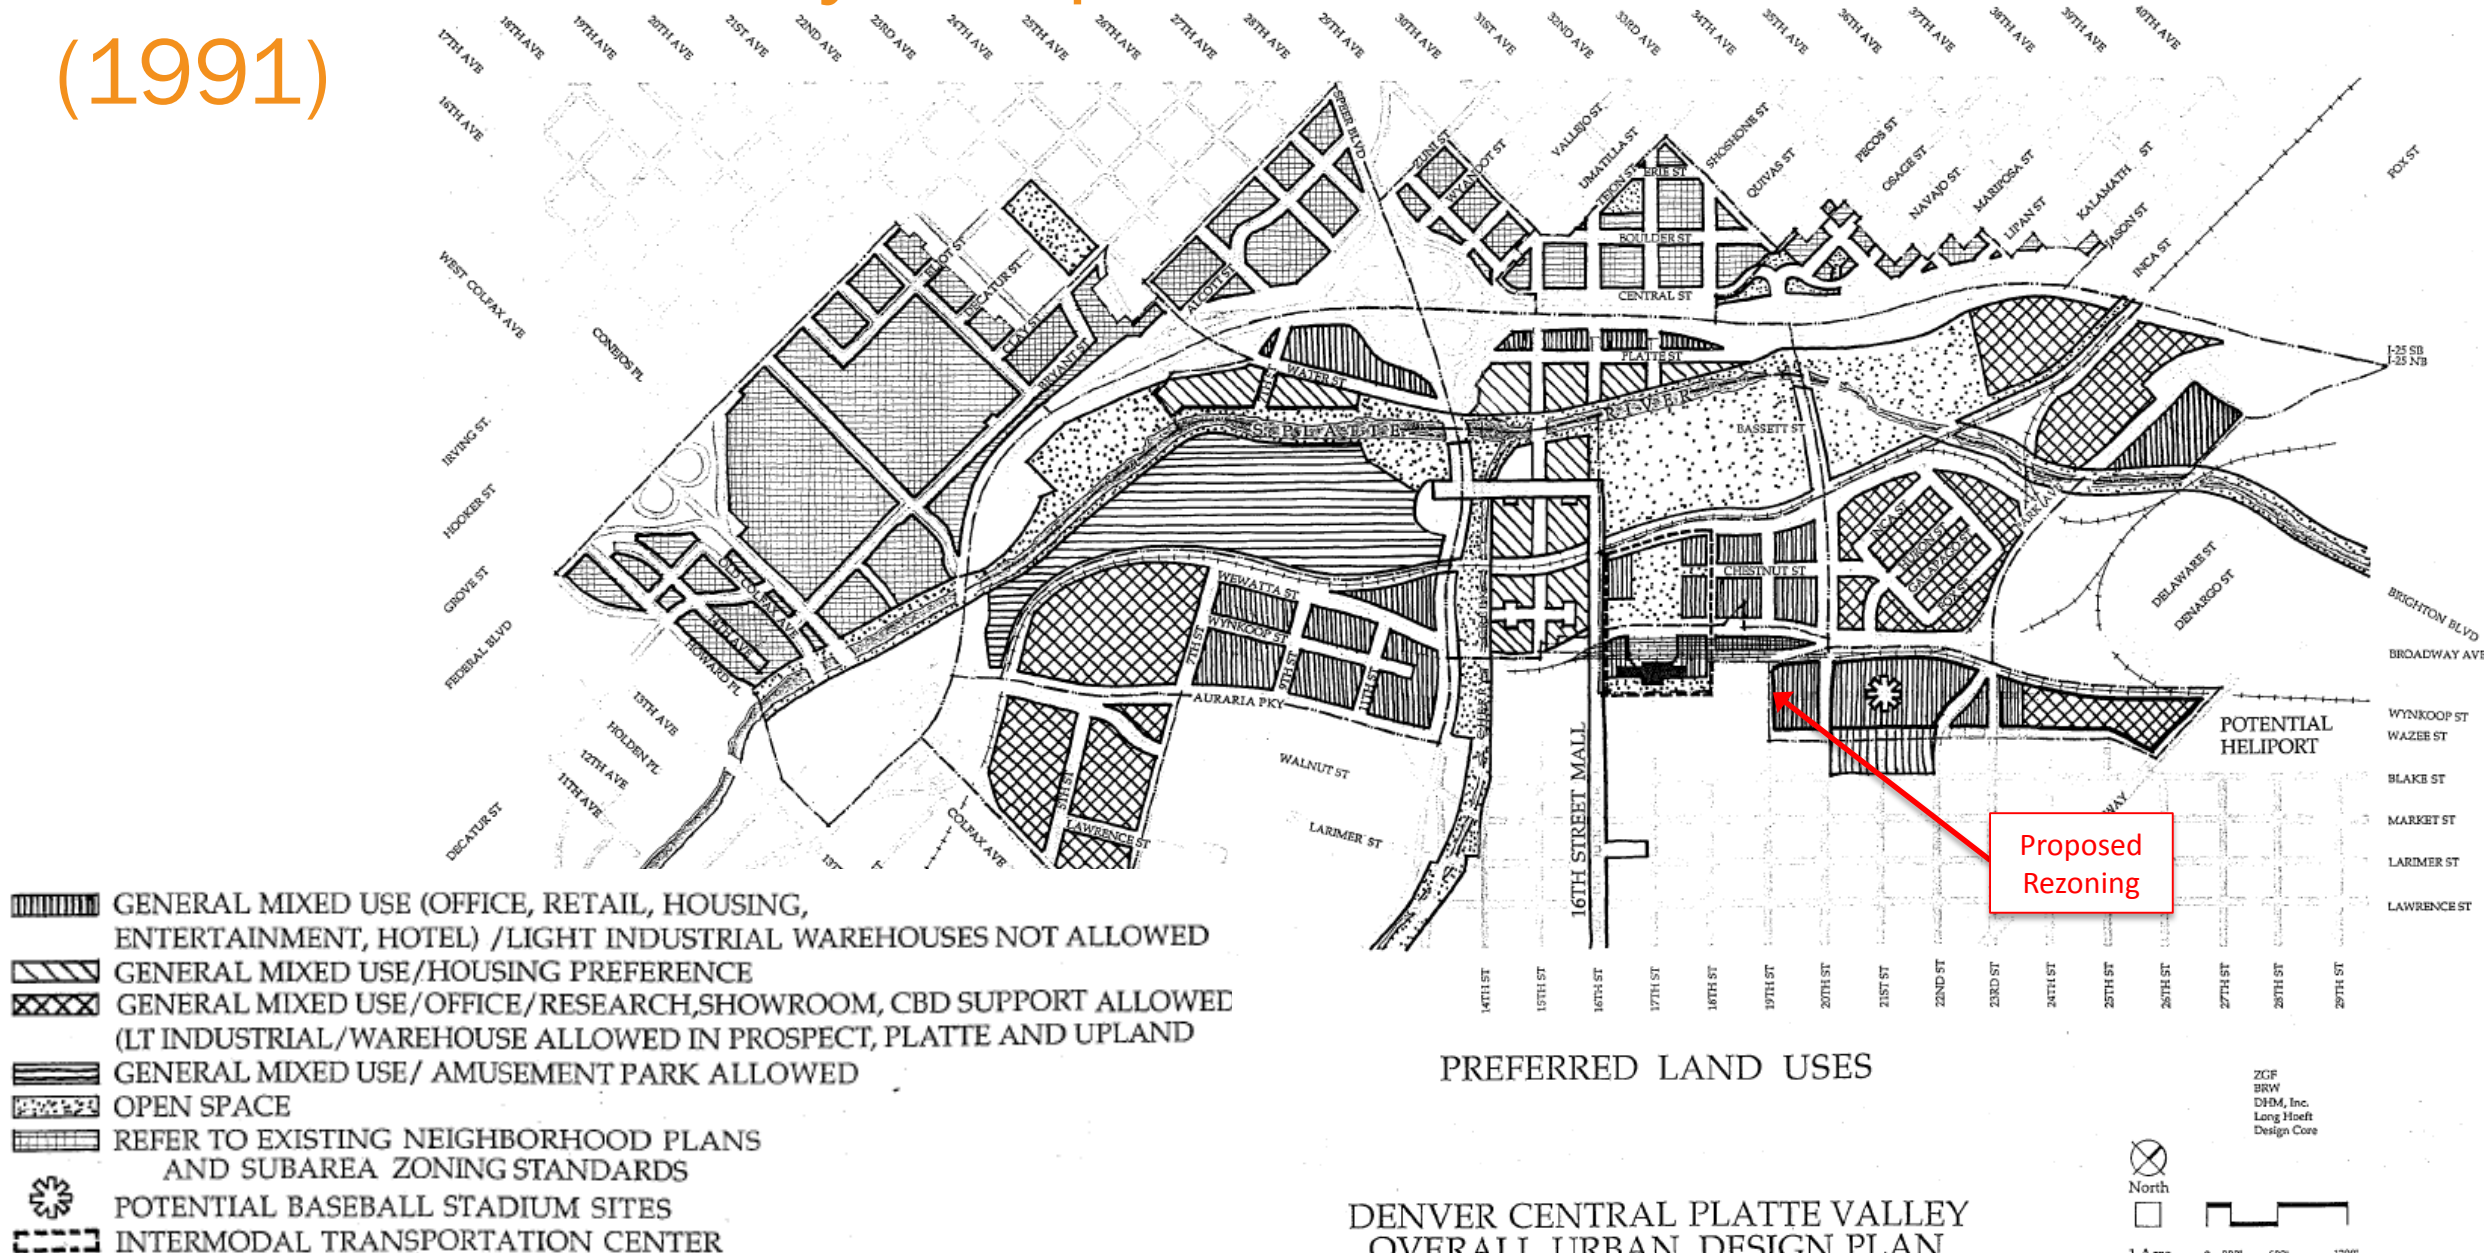

Downtown Area Plan (2007)

Upland Area

- The scale and character of Lower Downtown, and other historic buildings adjacent to this sub-area set a precedent for the scale and quality of future development.
- Pedestrian and bicycle access to Lower Downtown should be provided by extension of Wynkoop at or near grade over depressed 20th Street.
- A small public open space should be provided at a location convenient for most future occupants.
- Property between 19th and 20th Street should be developed for uses which complement and strengthen the prevailing Lower Downtown mix of office, retail, housing and galleries.

Standard Rezoning Review Criteria

1. Consistency with Adopted Plans

2. Uniformity of District Regulations

3. Further Public Health, Safety and Welfare

- *Implements adopted plans*
- *Pedestrian-friendly environment, open space amenities, use list*

4. Justifying Circumstances

- *Significant development in and around the Union Station neighborhood in keeping with the adopted policy guidance*

PUD Rezoning Review Criteria

Additional Review Criteria for PUD

- A. The PUD is consistent with the intent and purpose of PUDs;
- B. The PUD complies with all applicable standards and criteria for PUDs;
- C. The development proposed on the subject property is not feasible under any other zone districts, and would require an unreasonable number of variances or waivers and conditions;
- D. The PUD establishes permitted uses that are compatible with existing land uses adjacent to the subject property; and
- E. The PUD establishes permitted building forms that are compatible with adjacent existing building forms.

PUD Review Criteria

A. The PUD is consistent with the intent and purpose of PUDs stated in Article 9, Division 9.6.

- Unique and extraordinary circumstances, where more flexible zoning than what is achievable through a standard zone district is desirable and multiple variances, and waivers can be avoided
- Not intended solely as a vehicle to develop a site inconsistent with the applicable neighborhood context or to enhance economic feasibility
- Significant public benefit

PUD Review Criteria

- **Unique and extraordinary circumstances**
 - Plan guidance recommends Downtown context, but there is not an appropriate Downtown zone district
 - Closest fit would be C-MX-12, however would not address:
 - Lack of public right-of-way as an extension of Wynkoop Promenade
 - Downtown location & regulations in place for other downtown districts (parking, uses, design standards and guidelines)
 - Immediate context of the Lower Downtown Historic District
- The PUD utilizes D-AS-12+ (DZC's most modern Downtown district) together with Urban Center regulations as appropriate to address the site's unique features.

PUD Review Criteria

- **Not intended solely as a vehicle to develop a site inconsistent with the applicable neighborhood context or enhance economic feasibility**
 - PUD-G 19 is consistent with the Downtown neighborhood context and character.
 - PUD-G 19 is intended as a mechanism to ensure that development is consistent with adopted plans.

PUD Review Criteria

- **Significant public benefit**
 - Provision of Wynkoop Promenade
 - Height transition from 19th to 20th Street
 - Pedestrian-friendly design and building forms
 - 20% Private Open Space
 - Maximum vehicle parking requirements

PUD Review Criteria

B. The PUD complies with all applicable standards and criteria for PUDs

The PUD complies with all standards and criteria stated in Division 9.6.

C. The development proposed on the subject property is not feasible under any other zone districts, and would require an unreasonable number of variances or waivers and conditions

The PUD is necessary because there is no standard zone district available that applies Downtown-appropriate standards to this unique location or addresses the site's unique configuration with regard to Wynkoop Promenade and 20th Street, without multiple variances, waivers, or conditions.

D. The PUD establishes permitted uses that are compatible with existing land uses adjacent to the subject property

No use-related changes proposed to D-AS-12+ zone district

PUD Review Criteria

E. The PUD establishes permitted building forms that are compatible with adjacent existing building forms.

- *The PUD provides tailored building form standards, largely based on the D-AS-12+ General with Height Incentive Building Form and C-MX-12 General Building Form, with tailoring to vary the heights from 19th Street to 20th Street and apply standards to the west zone lot line (the Wynkoop Promenade).*
- *PUD incorporates administrative design standards and guidelines, based on the Arapahoe Square Design Standards and Guidelines for buildings and site design and tailored to address the subject site's adjacency to Lower Downtown, Wynkoop Promenade, and the open space requirement.*

CPD Recommendation

CPD recommends that LUTI move the application forward for consideration by the full City Council, based on finding that all review criteria have been met

Standard Rezoning Criteria

1. Consistency with Adopted Plans

3. Further Public Health, Safety and Welfare
4. Justifying Circumstances

- D. The PUD establishes permitted uses that are compatible with existing land uses adjacent to the subject property; and
- E. The PUD establishes permitted building forms that are compatible with adjacent existing building forms.
