EXPERIENCE

Colorado Health Institute, Denver, CO May 2016 - Present

Data Visualization and Policy Analyst

- Works with clients to answer their research and policy questions; tasks include gathering information, analyzing data, and conducting key informant interviews
- Supports CHI's research agenda with a focus on aging, workforce, and climate change.
- Co-author of Colorado's first Health and Climate Index and a state leader for research on the connection between climate change and human health
- Creates maps to provide researchers and legislators with a spatial understanding of Colorado's health issues
- Expert in using Tableau software to transform static data into appealing interactive maps and graphics

Geospatial Centroid, CSU, Fort Collins, CO May 2015 – June 2016

GIS Intern

- Assisting Colorado State University with GIS projects for on-and off-campus clients
- Providing help to students with mapping or geospatial related questions
- Creating heat maps for population density in Fort Collins
- Creating a monthly accident and incident analysis for CSU Alternative Transportation

Boulder County Public Health Department, Boulder, CO May 2015- May 2016

GIS Analyst/Intern

- Creating a risk analysis map of West Nile Virus of Boulder County
- Assessing the temporal and spatial relationship of West Nile Virus and human cases
- Conducting an analysis of historic West Nile Virus outbreaks
- Managing and analyzing human health and vector index data
- Geospatial analysis of relationship of human cases to mosquito infection rates

PUBLICATIONS

- Colorado's Climate and Colorado's Health: Examining the Connection, July 2017
- Global Issue, Local Risk: CHI's Health and Climate Index Identifies Colorado's Most Vulnerable Regions.

MEDIA

- Experience with interviewing for newspapers and local radio stations

SKILLS

- Experience with the following: Tableau, ArcGIS Desktop, ArcGIS Pro, Excel, Google Products, ArcGIS Online, QGIS
