Denver Police Department

I have provided a rate for additional work that may be performed as part of Professional services. The services would need to be agreed upon by both the Denver Police Department and CI Technologies, Inc.

CI Technologies, Inc. would bill at a rate of $1400/day for time that we determine is project level and requiring additional services.

This additional cost would be communicated to the customer and agreed upon prior to billing out for this additional time and effort.

If you have any questions on this or the process itself, please let me know.

Best Regards,

Timothy Conner
