# Pay Survey Market Analysis 2017

The Office of Human Resources (OHR) has completed the annual market study of prevailing wages in the Denver metropolitan area. The City Charter and the Denver Revised Municipal Code (DRMC) requires the survey to be completed with the findings and recommendations provided to the Career Service Board, the Mayor, and City Council.

## Occupational Group Adjustments

The annual Pay Survey Market Analysis ensures that the City's pay ranges are competitive with comparable jobs in both the Denver metropolitan area and the national markets. When the market data indicates the City's pay for an occupational group has fallen behind the market, OHR recommends a structure increase for the occupational group. If the City's rates are above the market, OHR recommends no change.

The occupational group adjustments are not designed to deliver a pay increase with one exception, when an employee's pay falls below the range minimum of the adjusted pay range, the employee will move to the new range minimum, which will result in an increase. Occupational group adjustments recommended in the 2017 Pay Survey Market Analysis will be effective on July 1, 2017 in accordance with DRMC.

We are also requesting the abolishment of one pay grade and range, V-806. This range was missed with the pay grade and range clean up with the FLSA project completed in the fall 2016.

## Individual Pay Grade Adjustments

Individual classifications may also be adjusted to a higher pay grade based on the results of the market analysis. The classification must be at least 10% behind the market to be considered for an adjustment.

A pay increase is granted when a classification is adjusted to a higher pay grade as a result of a Pay Survey Market Analysis recommendation. The pay increase is equal to 4.55% for each pay grade adjusted upwards. Pay grade adjustments recommended in the 2017 Pay Survey Market Analysis will be effective on January 1, 2018 in accordance with DMRC.

City employees will have the opportunity to comment on the findings at a public hearing before the Career Service Board on April 20, 2017 at 9:00 a.m.

# Steps to Determine Proposed Pay Range for Each Classification

The City's pay ranges are divided into four segments, called quartiles, or "sectors". Sectors are used to determine an employee's position within a pay range. The following steps will help you to identify the pay grade assigned to your current classification and the recommended salary range. A pay grade is composed of one letter and three numbers. The letter indicates the occupational group and the numbers represent the pay grade within the specified occupational group.

- Employees can find information on their title, pay grade, and pay rate information in **Workday** under their employee profile (View Profile) and will require employees to log into their Workday account.
  - To locate their title, employees should navigate to *View Profile> Overview> Job Details*.
  - To locate their pay grade and rate information, employees should navigate to *View Profile> Compensation> Compensation*.
- Alternatively, locate your classification title in the alphabetical listing on pages 4 through 12. Find the pay grade assigned to your classification listed to the right of the title.
- Once you find your title and pay grade, proceed to the tables on pages 13 through 22 to locate the pay table that corresponds with your occupational group and locate the pay grade within the table.

*Disclaimer: The listing of classification titles, pay grades, and pay tables are current at the time of posting and is subject to future change.*
