5. General description or background of proposed request. Attach executive summary if more space needed:

This program acts as an access point for hundreds of households to homelessness prevention, emergency shelter, referrals to housing resources, assessment for appropriate housing interventions and access to resources to meet basic needs. This has been a gap in the Denver community for many years and through this program, we plan to begin piloting our first true Access point, which would be a "one stop shop" to address the needs of those experiencing homelessness or housing instability. This program creates increased collaboration and cooperation amongst agencies and a more seamless transition from initial contact into program entry. This also allows for a more organized approach with up-to-date data regarding the number of shelter beds available in the community, as all referrals to emergency shelter will go through one point of access. This decreases the trauma and stress on households, as they will not need to travel to multiple locations or tell their story to multiple providers. The Connection Center also provides virtual access, so people will not need to physically travel to a location, which we know can be a barrier for many seeking services. The continuation of this program allows Denver to move closer to a more organized and coordinated response to homelessness, and through this, we expect to see increased collaboration amongst agencies and more households being connected to the appropriate resources.

Scope of work:

The Connection Center will provide people with immediate virtual and physical access to Salvation Army and community programs, services, and information. This program will connect people experiencing homelessness or at risk of homelessness with resources that will promote fair housing and address barriers to fair housing. The Connection Center will field calls and provide in-person support to the community seeking resources to overcome hunger, homelessness, addiction and/or poverty. The Connection Center will provide trained case managers to conduct triage assessments, complete initial intakes, and schedule appointments. Included in services are the following:

1. Locating appropriate shelter. Includes Salvation Army sites and other local community shelters. Salvation Army will complete eligibility screening for shelter access, work in close coordination with other agencies and community partners to provide direct referrals to shelters beds, and maintain and prioritize a waitlist for shelter as appropriate
2. Providing crisis intervention and referrals to long-term supports as needed including mental health and substance use disorder treatment
3. Working with households to determine eligibility for OneHome Coordinated Entry access and assessment
4. Providing referrals to eviction/homelessness prevention programs or Rapid Resolution as appropriate
5. Providing relocation services and transportation assistance
