OVERVIEW

After a successful career in the Information Technology industry, in 2016 I shifted the trajectory of my career by entering the MBA program at the University of Colorado, Leeds School of Business, with an emphasis on commercial real estate. After graduation in 2017, I joined McCaffery Interests in Chicago. While at McCaffery, I have been project manager of the Lincoln Common development in Chicago, IL. I am a team oriented problem solver with a proven record exceeding expectations in project management and customer delivery. I am looking for a full time position in commercial real estate at a growing firm with strong leadership.

ACCOMPLISHMENTS

- At McCaffery Interests, in partnership with Hines, repurposed the vacant Children's Memorial Hospital, integrating repurposed and revitalized structures into a 6 acre mixed use development utilizing LEED-Silver certification standards. Lincoln Commons, with two residential towers, over 150,000 SF of retail and office, a condominium tower and parking garage, will become the new crossroads of Lincoln Park one of the most affluent neighborhoods in Chicago.
- At Bankwest, a mid-sized Australian Bank, I facilitated the organization of the Business Analysis Guild, sharing information across vertically integrated delivery teams. I was part of the organizing committee that outlined the governing structure and principles of the Guild.
- At CGI Federal, an 27,000 person Montreal based technology consulting firm, I worked on the Health Plan Management System project for CMS and successfully led a 5-person team through requirements gathering, design, development, system testing and production support. For two years in a row my team and I delivered a high quality product for our client on time, on budget, with zero software defects.
- As Quality Manager for the 90-person Medicare Health Plan Management System (HPMS) program, I was responsible for organizing and facilitating training, performing internal audits and ensuring our program remained compliant with CMMI level 5 standards. I also led focus groups to define requirements and redesigned the programs intranet sites to enhance our internal reporting and communication.

EXPERIENCE

McCaffery Interests, Inc. Chicago, IL

June 2016 – Present

A full service real estate firm with over 30 years of diligent execution and flawless delivery of first class commercial retail and residential developments.

<https://www.mccafferyinc.com/>

Project Manager – Development – Lincoln Common

Manage all facets of the real estate development lifecycle of Lincoln Common, a 6-acre site in Lincoln Park consisting of two residential towers (538 units), a 32-unit condominium building and over 150,000 SF of retail. Reporting to the president of McCaffery Interests and ensuring the successful delivery of every aspect of Lincoln Common from construction, retail and residential leasing, transitioning to operations and stabilization.

Bankwest, Perth, WA

June 2013 – June 2015

A Division of the Commonwealth Bank of Australia (CBA) serving consumers and small to medium size businesses, headquartered in Perth, Western Australia.

<http://www.bankwest.com.au/>

Business Analyst – Bankwest Customer Solutions - Strategic Risk

Diverse work allocation focused on delivering regulatory compliance projects. As a business analyst, I worked closely with our customer facing lines of business and our information technology partners to ensure we successfully delivered IT solutions that solved business problems.

- Took over as lead Business Analyst on a Foreign Account Tax Compliance Act (FATCA) – Compliance project. Responsible for delivering multiple business solutions, in conjunction with CBA teams, to establish Bankwest as FATCA compliant.
- Led a team through requirements gathering, design and implementation to meet new regulatory reporting requirements set out by the Reserve Bank of Australia.

CGI Federal, Fairfax, VA

Aug 2010 – Jan 2013

A global leader in information technology delivering end-to-end services and solutions

<http://www.cgi.com/en/us-federal/services-solutions>

Functional Lead - Health Plan Management System (HPMS)

HPMS is a web enabled information system that serves a critical role in both the ongoing operations and high profile initiatives of the Medicare Advantage and Part D (drug benefit) programs for the Centers for Medicare and Medicaid Services (CMS)

- Successfully led a 5-person team within a 90 person HPMS Program. Responsibilities included: preparing and executing project plans, managing project resources and reporting project status to internal project managers and government task leads
- Prepared all major client deliverables required by the System Development Lifecycle, secured client approvals, and allowed for scope and project traceability
- Ensured products were delivered on time, on budget, and exceeded our clients expectations

Quality Manager - HPMS Program

- Responsible for quality management and system process compliance for the HPMS Program
- Managed CMMI Level 5 compliance for the HPMS Program
- Modified existing and developed new project processes and procedures to maximize operational efficiency
- Performed audits on project deliverable documentation before client delivery to ensure quality and consistency
- Facilitated lessons learned sessions at the end of each major project deliverable or phase

Configuration Manager - HPMS Program - Interfaced with 15 different modules within the HPMS program, set baselines, tracked and controlled changes, maintained integrity of deliverables

Training Coordinator - HPMS Program - Responsible for lifecycle process and procedure training for 90 person HPMS program as well as new member assimilation
